

Willkommen beim Dashboard von **DISH Reservation**. In diesem Tutorial zeigen wir Ihnen, wie Sie Ihre Tische und Sitzplätze verwalten.

The screenshot displays the DISH Reservation Admin Panel interface. The top navigation bar includes the logo, the text "DISH RESERVATION", and the restaurant name "Test Restaurant - Test" with a dropdown menu and a language selector (UK flag). A dark sidebar on the left contains menu items: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area features a teal notification banner with the text "Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!" and buttons for "WALK-IN" and "ADD RESERVATION". Below this is a date range selector showing "Thu, 28 Sep - Thu, 28 Sep". A message states "You have no limits configured for the selected date." with an "Add a new limit" button. Filter tabs are visible for "All", "Completed", "Upcoming" (selected), and "Cancelled", along with icons for a calendar and a group of people. The main content area is empty, displaying a large circular icon of a person with a magnifying glass and the text "No reservations available". A "Print" button is located at the bottom left of the main area. At the bottom of the page, there is a footer with copyright information "© 2020 - 2024 DISH Digital Solutions GmbH", a "Pause online reservations" button, and a "Help" icon (question mark in a circle). The footer also includes links for "FAQ", "Terms of use", "Imprint", "Data privacy", and "Privacy Settings".

If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.

You are using table-based setup

IMPORTANT: Please be aware that the change to table mode can take some time. All reservations will be automatically assigned to tables. To make this properly work for existing reservations, please make sure that the overall amount of seats on the tables is the same as the amount of seats configured before.

Area(s) 

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc. Your active areas are listed below:

Restaurant

Table(s) 

Tables are assigned to specific areas. When you pause a whole area, all tables assigned to that area will be paused. This may make some of your future reservations invalid. Don't worry, you can just move them to other available table(s). When you deactivate a table for "reservable online", reservations made online won't be assigned to this tables. You can also assign tables a booking priority between 1 (high) and 3 (low). The tables with high priority will be preferred for incoming reservations.

Table name	Seats (6)	Area name	Priority	Status	Reservable online
1	2	Restaurant	1	Active	Active
2	4	Restaurant	2	Active	Active
