

Bienvenue sur le tableau de bord de **DISH Reservation**. Dans ce tutoriel, nous vous montrons comment gérer vos tables et vos places.

The screenshot displays the DISH Reservation admin interface. At the top, the header includes the 'DISH RESERVATION' logo, a notification bell, the restaurant name 'Test Restaurant - Test', and a language selector (UK flag). A teal banner at the top right prompts users to add walk-in customers or reservations, with 'WALK-IN' and 'ADD RESERVATION' buttons. Below this is a date range selector set to 'Thu, 28 Sep - Thu, 28 Sep'. A message states 'You have no limits configured for the selected date.' with an 'Add a new limit' button. Filter tabs for 'All', 'Completed', 'Upcoming', and 'Cancelled' are visible, with 'Upcoming' selected. A calendar icon shows '0' and a user icon shows '0'. The main content area features a large grey circle with a person looking through binoculars and the text 'No reservations available'. A 'Print' button is located at the bottom left of the main area. The footer contains a status message 'Too many guests in house? Pause online reservations' with a pause icon, the text 'Designed by Hospitality Digital GmbH. All rights reserved.', and links for 'FAQ', 'Terms of use', 'Imprint', 'Data privacy', and 'Privacy Settings'. A help icon (question mark) is in the bottom right corner.

📌 Tout d'abord, allez dans **Paramètres** dans le menu à gauche.

Et puis sélectionnez **Table/Sièges** .

The screenshot displays the DISH RESERVATION administration dashboard. The top navigation bar includes the logo, the text 'DISH RESERVATION', and the restaurant name 'Test Restaurant - Test'. A left-hand sidebar menu lists various administrative options: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), Hours, Reservations, **Tables/Seats** (highlighted with an orange box), Reservation limits, Offers, Notifications, Account, and Integrations. The main content area features a teal banner with a message about walk-in customers and 'WALK-IN' and 'ADD RESERVATION' buttons. Below this is a date selector for 'Thu, 28 Sep - Thu, 28 Sep'. A message states 'You have no limits configured for the selected date.' with an 'Add a new limit' button. Filter options include 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled', along with icons for a calendar and a group of people. The central area shows 'No reservations available' with an icon of a person looking through binoculars. A 'Print' button is located at the bottom left of the main content area. The footer contains the text 'Designed by Hospitality Digital GmbH. All rights reserved.' and links for 'FAQ', 'Terms of use', 'Imprint', 'Data privacy', and 'Privacy Settings'. A yellow question mark icon is visible in the bottom right corner of the interface.

Si vous avez choisi la configuration basée sur les sièges, vous pouvez saisir le nombre de sièges disponibles dans le **champ de saisie** correspondant . **Remarque : la configuration basée sur les sièges gèrera les réservations en fonction du nombre total de sièges disponibles.**

The screenshot shows the 'Tables/Seats' settings page in the DISH Reservation admin panel. The page has a dark sidebar on the left with a menu containing: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings (selected), Hours, Reservations, Tables/Seats (underlined), Reservation limits, Offers, Notifications, Account, and Integrations. The main content area has a header with 'DISH RESERVATION' on the left and 'Test Restaurant - Test' with a dropdown and a share icon on the right. Below the header, there is explanatory text: 'If you choose to use seats-based setup, reservations will be managed according to the total number of seats available. If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.' This is followed by a toggle switch for 'Do you wish to enable table-based setup?' which is currently turned off. Below that is a text input field for 'How many seats are available for reservation in your establishment?' with the number '6' entered and highlighted by an orange border. A yellow 'SAVE' button is located at the bottom right of the form. At the bottom of the page, there is a footer with 'Designed by Hospitality Digital GmbH. All rights reserved.' and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. A small notification in the bottom left corner says 'Too many guests in house?' with a yellow icon.

Si vous souhaitez utiliser une configuration basée sur des tables, utilisez simplement le **commutateur** pour l'activer. **Remarque : une configuration basée sur des tables attribuera automatiquement les réservations aux tables.**

If you choose to use seats-based setup, reservations will be managed according to the total number of seats available.
 If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.

You are using table-based setup

IMPORTANT: Please be aware that the change to table mode can take some time. All reservations will be automatically assigned to tables. To make this properly work for existing reservations, please make sure that the overall amount of seats on the tables is the same as the amount of seats configured before.

Area(s)

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc. Your active areas are listed below:

Restaurant

Table(s)

Tables are assigned to specific areas. When you pause a whole area, all tables assigned to that area will be paused. This may make some of your future reservations invalid. Don't worry, you can just move them to other available table(s). When you deactivate a table for "reservable online", reservations made online won't be assigned to this tables. You can also assign tables a booking priority between 1 (high) and 3 (low). The tables with high priority will be preferred for incoming reservations.

Table name	Seats (6)	Area name	Priority	Status	Reservable online
1	2	Restaurant	1	Active	Active
2	4	Restaurant	2	Active	Active

Tablegroups

Too many guests in house?

Vous pouvez ensuite modifier le nom, décider si le client peut le sélectionner lors de la réservation et le rendre actif ou inactif. Vous pouvez également ajouter de nouvelles zones et les supprimer.
