

First visit your DISH Order Website of the restaurant and copy your **URL**.

- The first, convenient and recommended variant is to log in to [DISH Weblisting](#) and click on [profile](#). **Note:** There are two variants to connect the link of the DISH Order website with Google My Business.

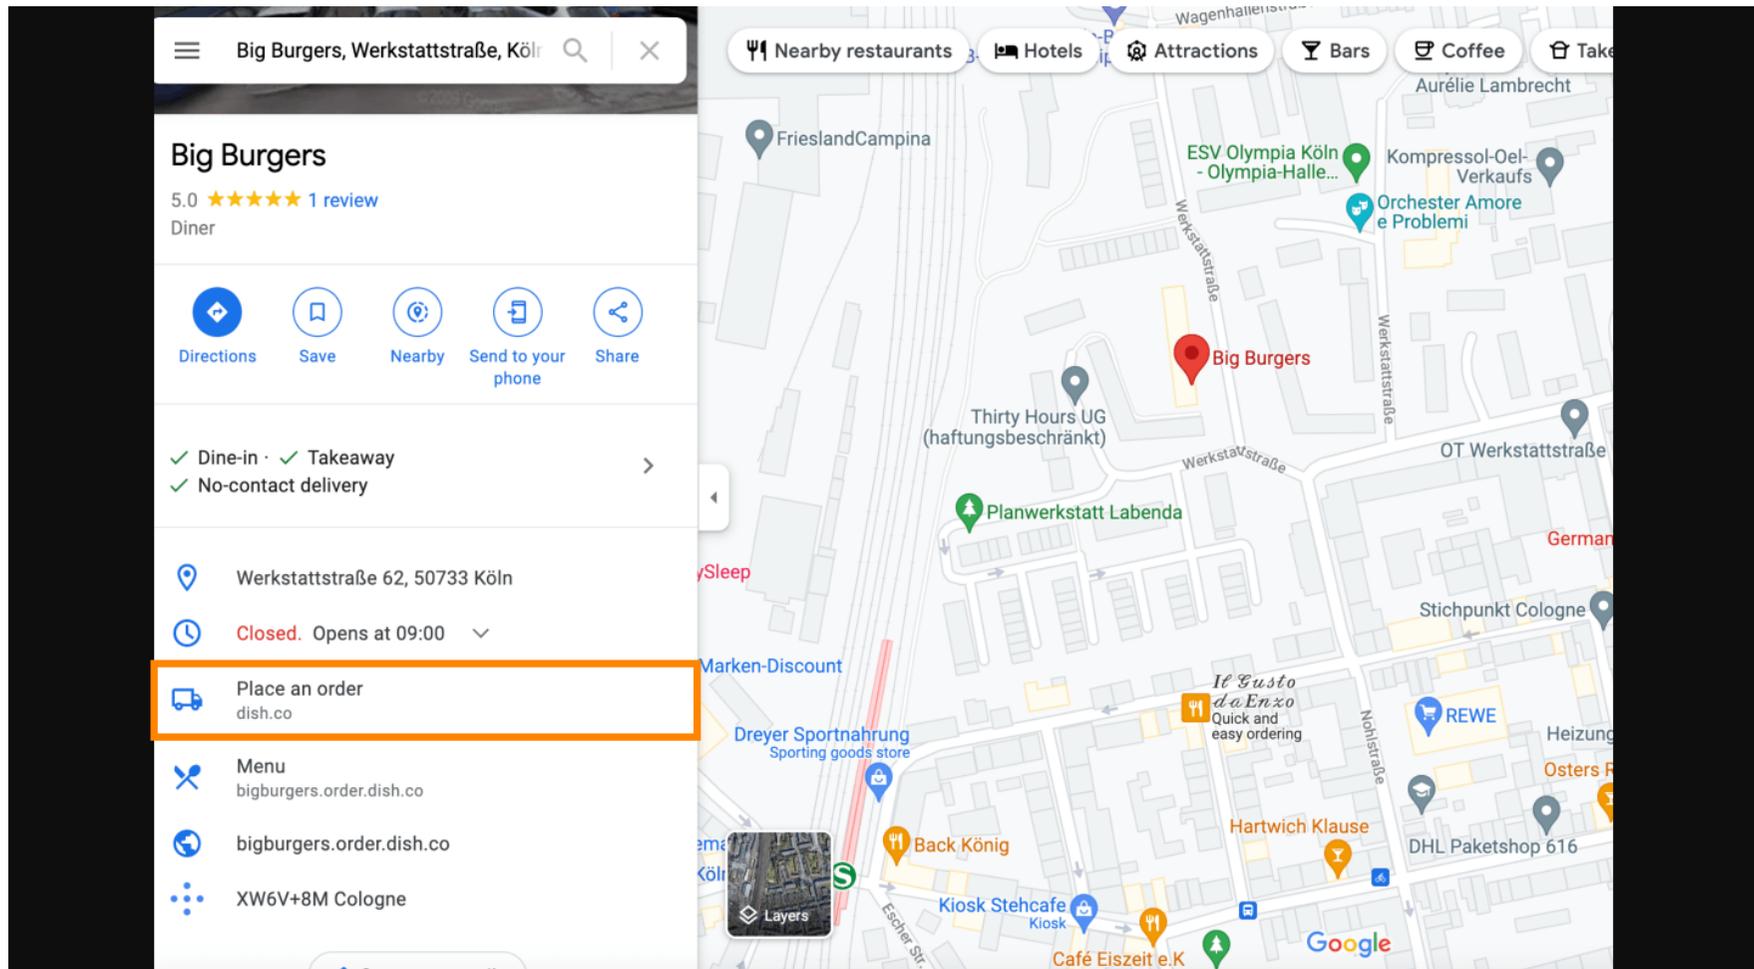

- Scroll down till business information. At the field **food ordering link** you can insert the **URL** of your DISH Order Website. **Note: Make sure to save the updated information.**

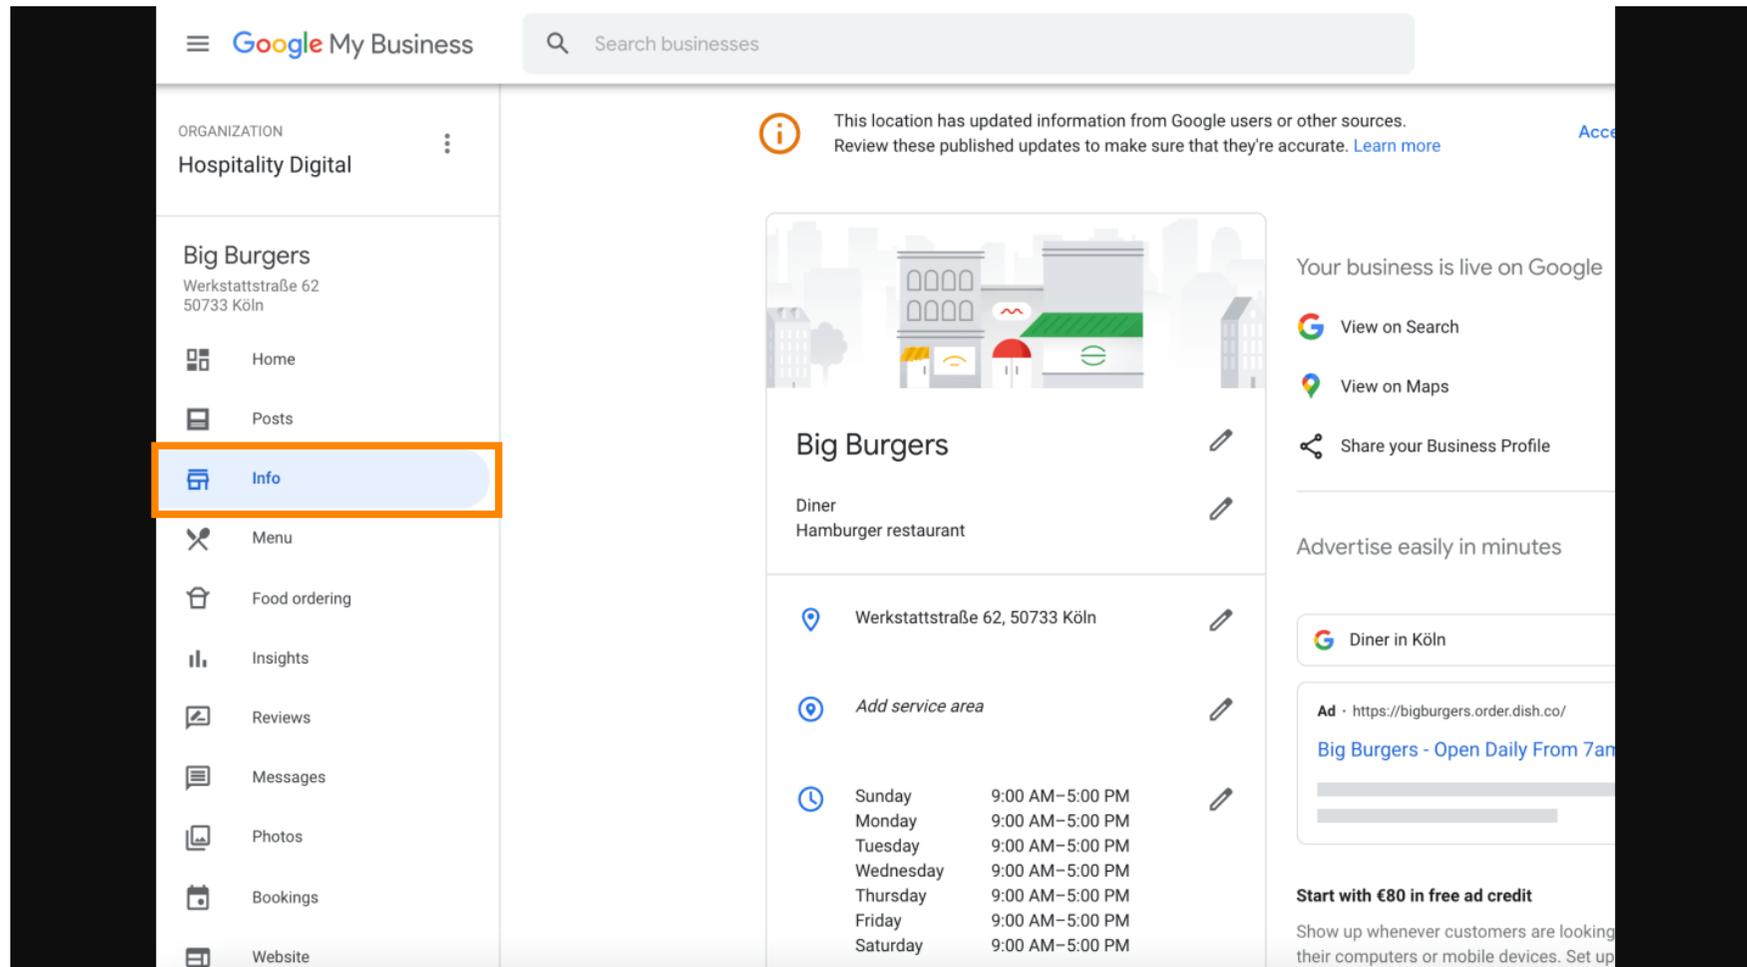

With DISH Weblisting the food ordering link on your restaurant's Google entry is placed automatically without the need to use the complex Google My Business configuration panel

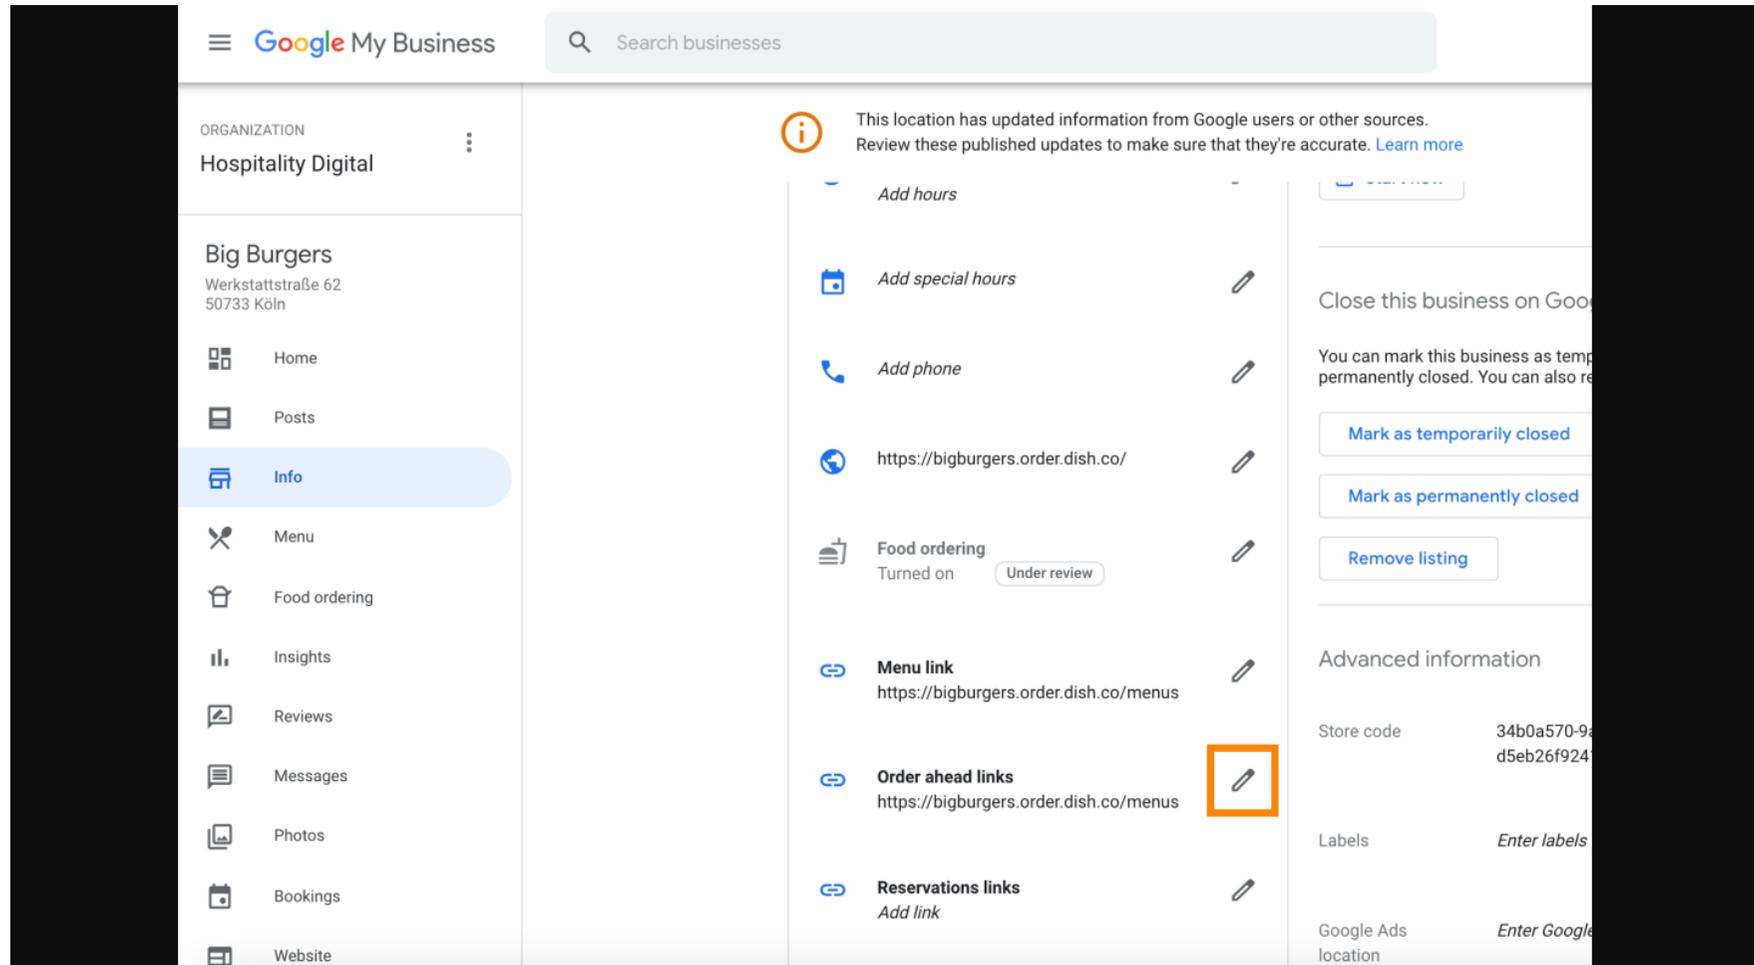

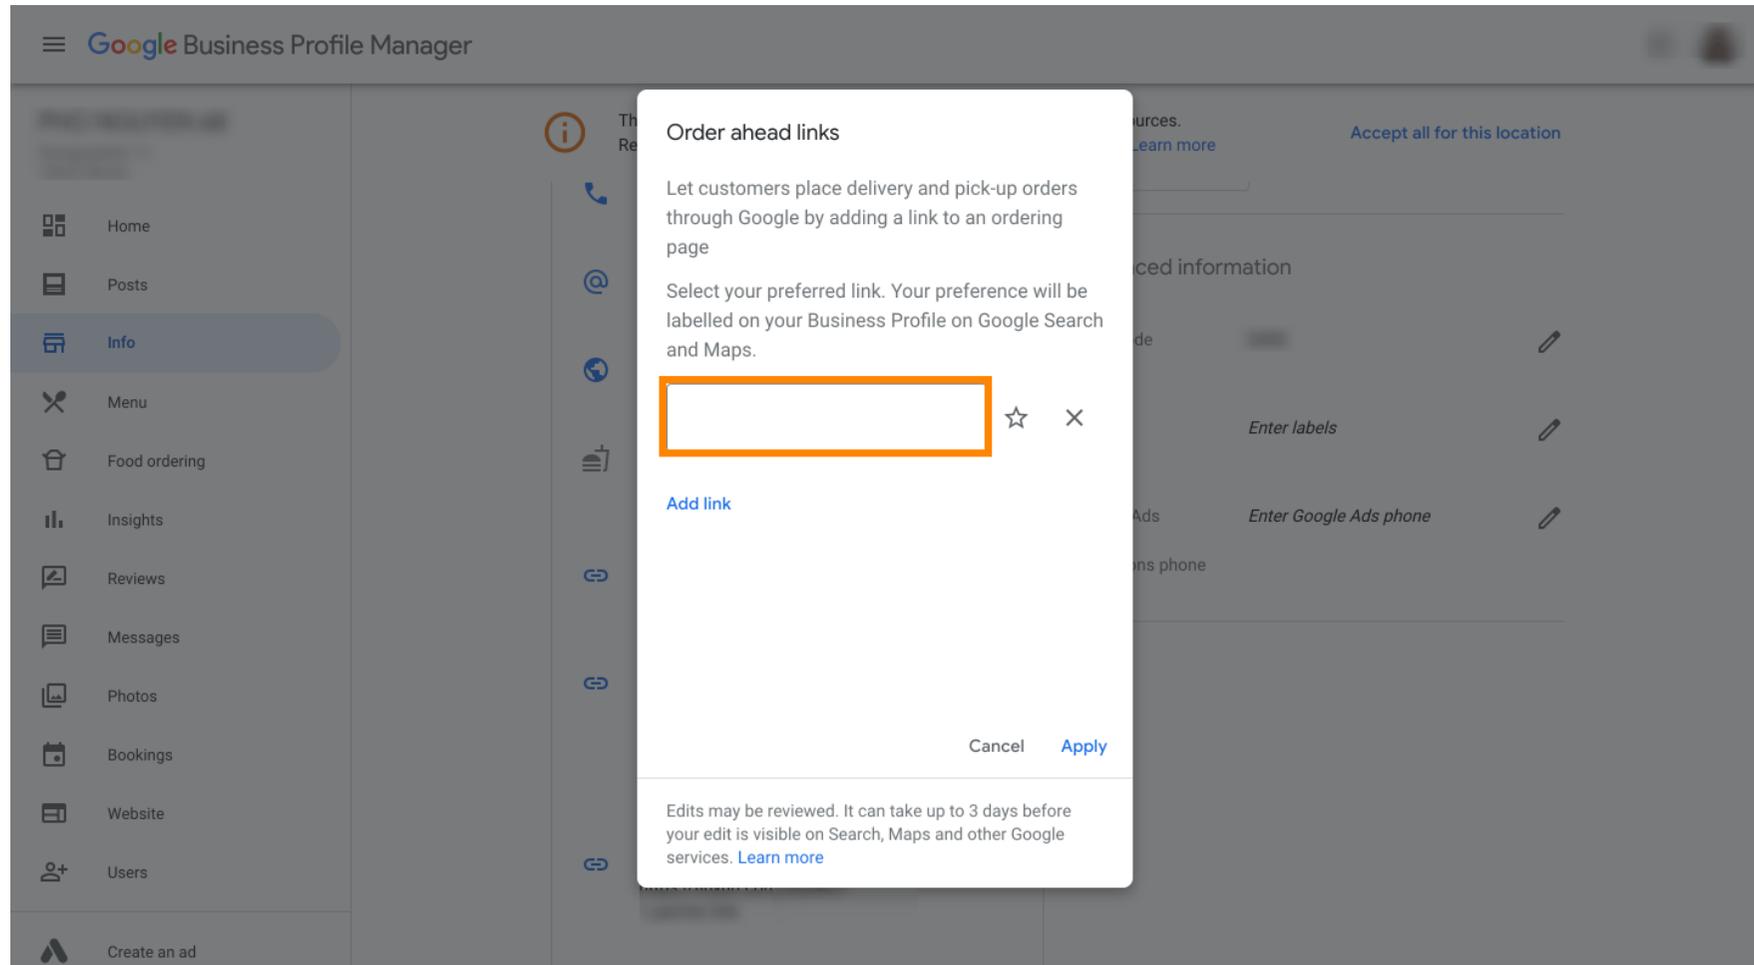

The second variant: You're at the Dashboard of your Google My Business account. Click on **info** to adjust the business settings.

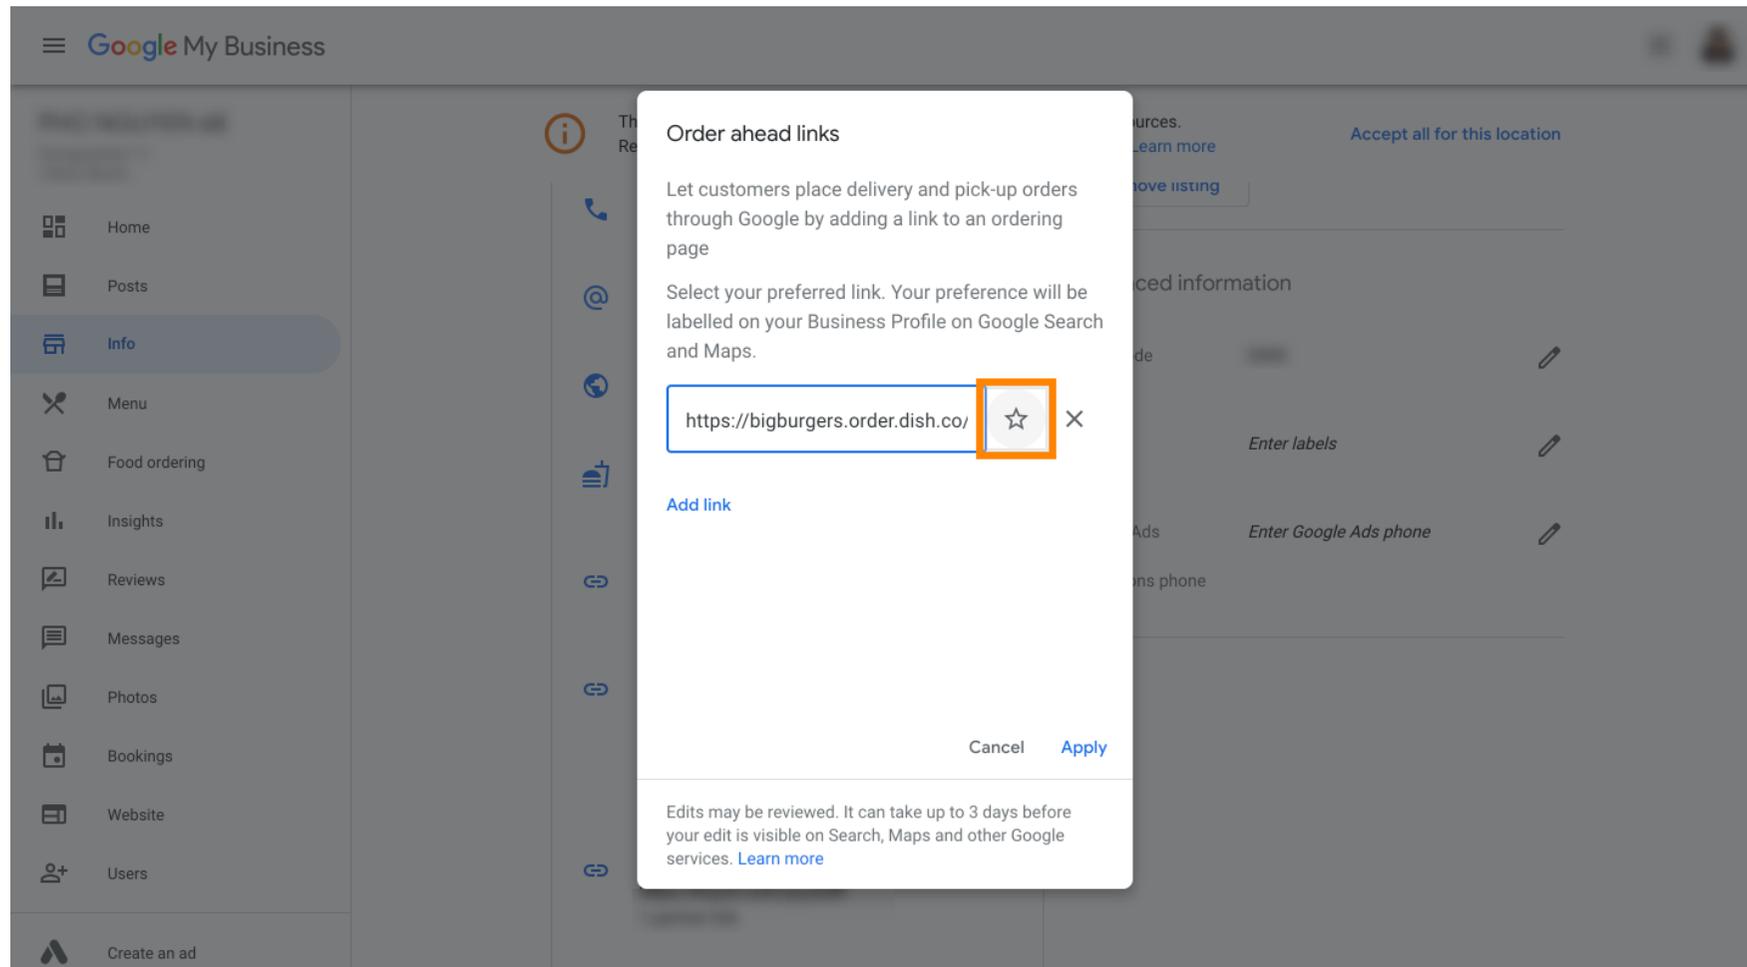

👉 Scroll down until you reach **order ahead links** and click on the **pencil icon** to add or remove order links.

 Paste the previously copied URL of your DISH Order Website here.

- Make sure to prefer the link by clicking on the **star**. **Note: The link will be visible to the guests as preferred link by restaurant.**

Finish the process by clicking on **apply**.

Ensure the food ordering option is turned on. If not click on the **pencil icon**.

The screenshot shows the Google Business Profile Manager interface. The left sidebar contains navigation options: Home, Posts, Info (highlighted), Menu, Food ordering, Insights, Reviews, Messages, Photos, Bookings, Website, Users, and Create an ad. The main content area displays a notification: "This location has updated information from Google users or other sources. Review these published updates to make sure that they're accurate. Learn more Accept all for this location". Below the notification is a table of updates:

Below the table are several settings with edit icons (pencil icons):

- Phone number
- Address
- Website
- Food ordering** (Turned on) - The pencil icon is circled in orange.
- Menu link (https://cdn.website.dish.co/media/28/d...)
- Order ahead links

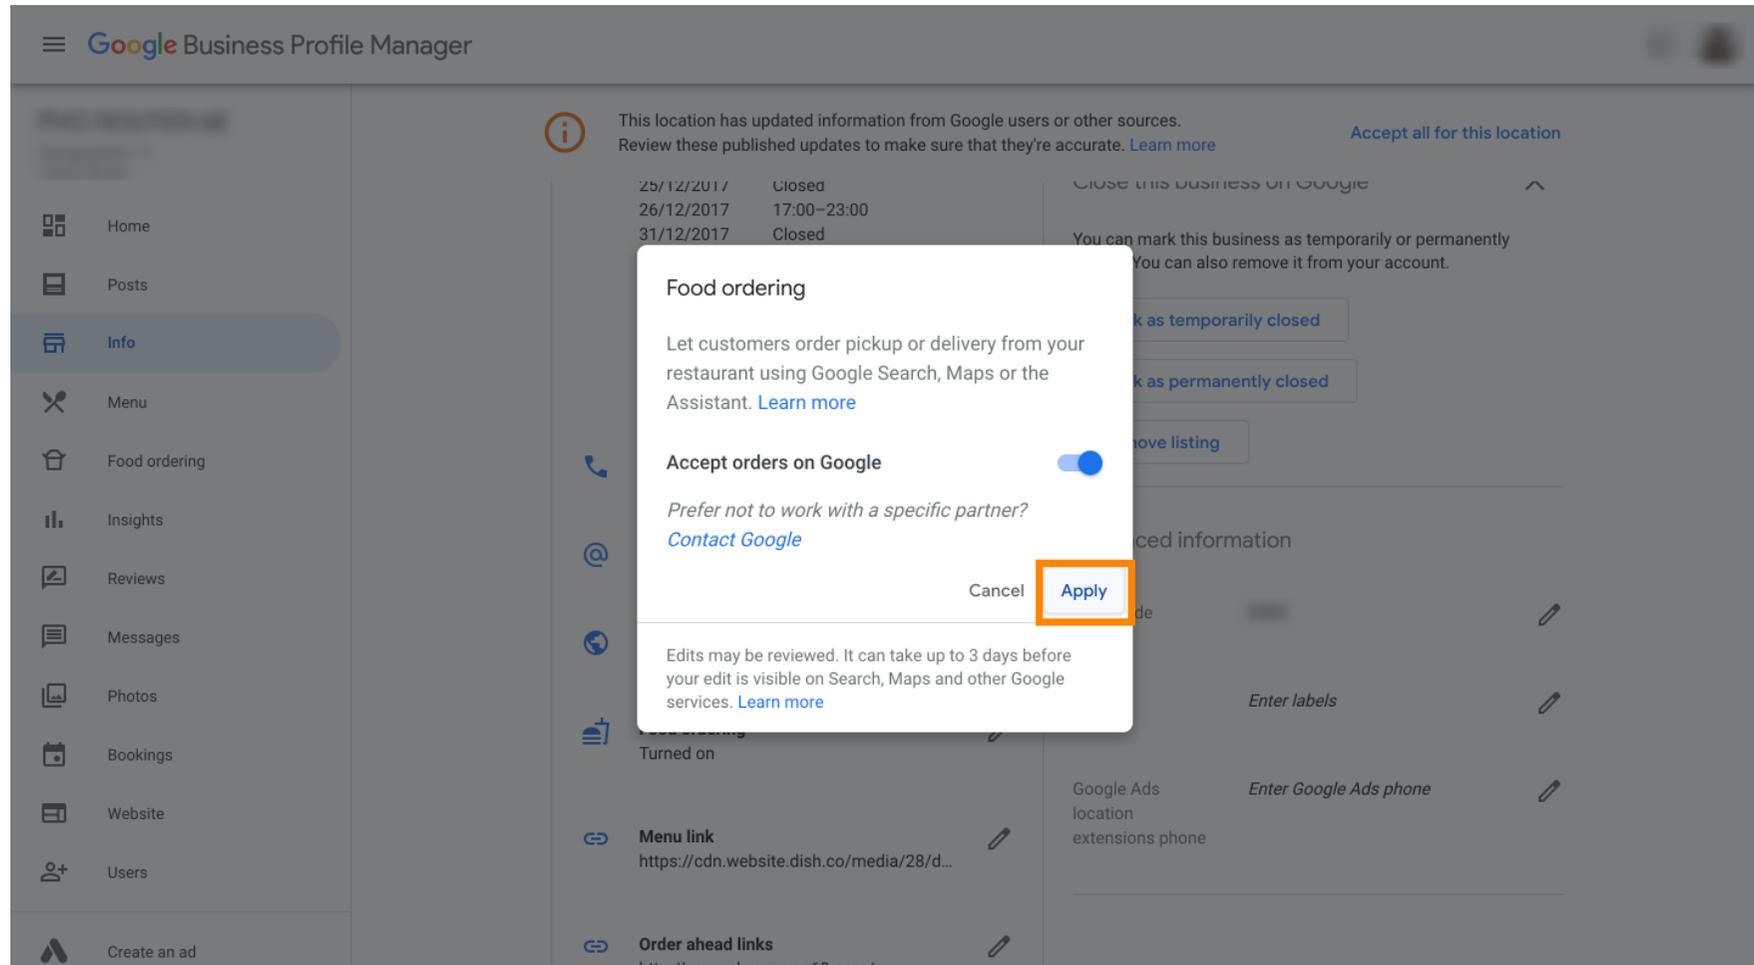

On the right side, there are buttons for "Mark as temporarily closed", "Mark as permanently closed", and "Remove listing". Below these is the "Advanced information" section with fields for "Shop code", "Labels" (Enter labels), and "Google Ads location extensions phone" (Enter Google Ads phone).

Now click on the **on/off switch** to activate the order button.

Confirm by clicking **apply**.

The screenshot shows the Google Business Profile Manager interface. A dialog box titled "Food ordering" is open, allowing the user to enable food ordering on their Google profile. The dialog includes the following text and controls:

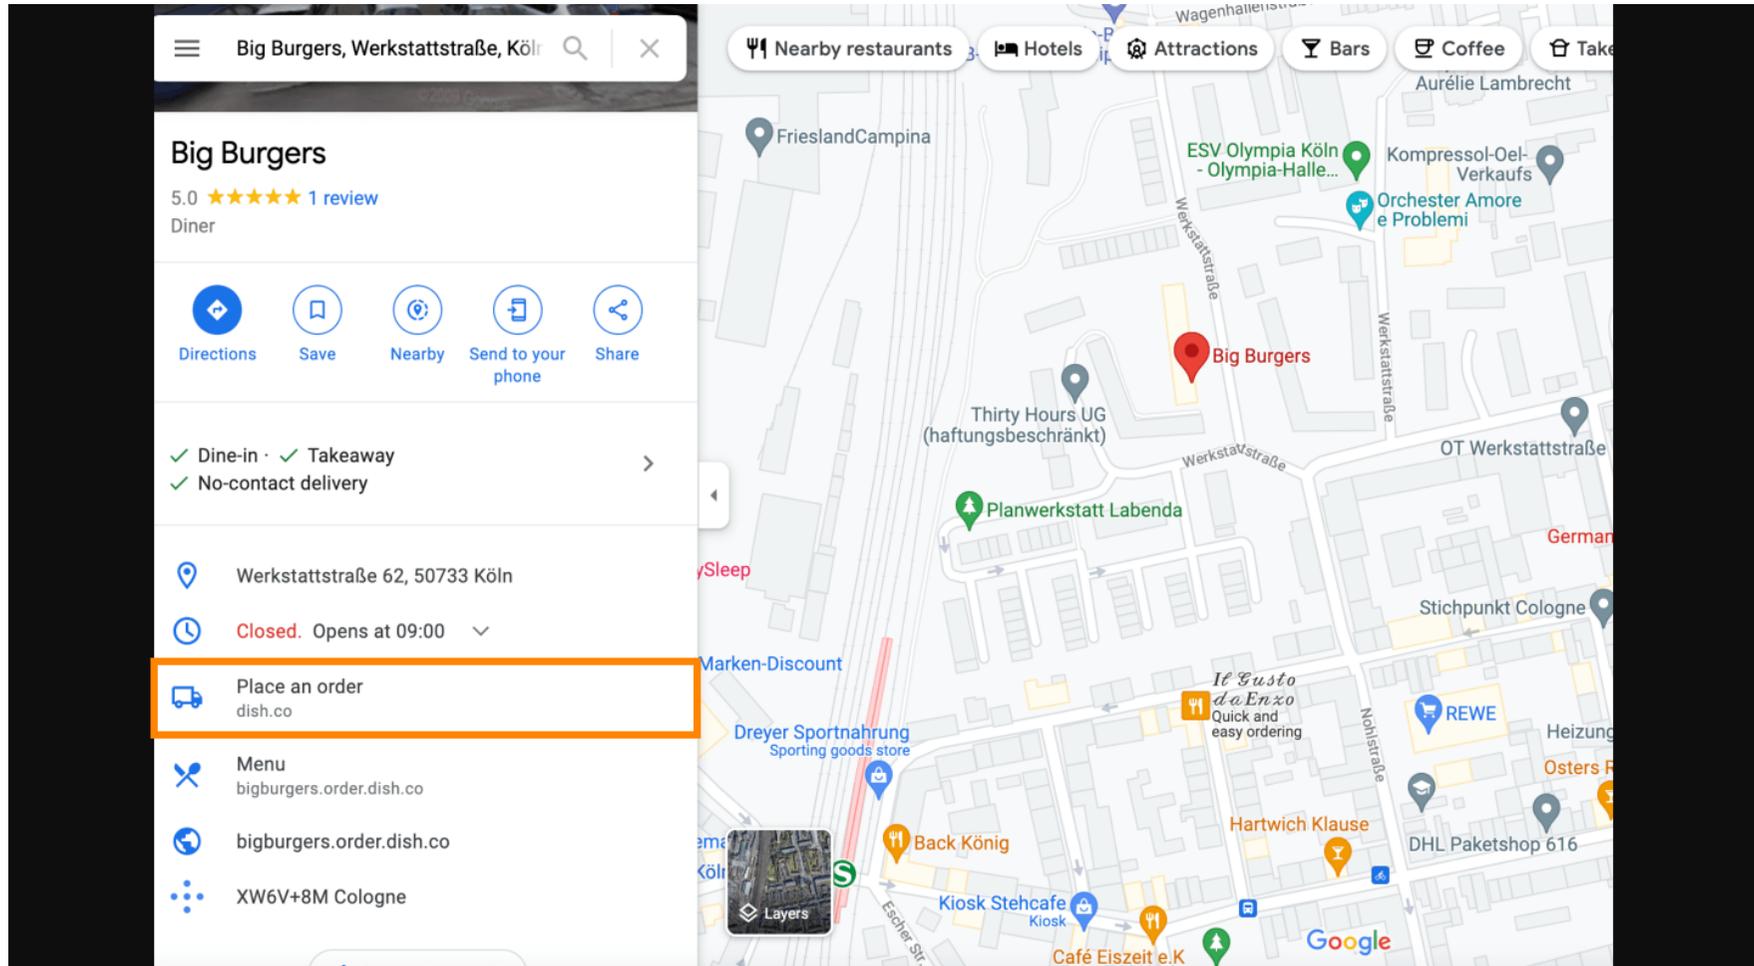

- Food ordering**
- Let customers order pickup or delivery from your restaurant using Google Search, Maps or the Assistant. [Learn more](#)
- Accept orders on Google**
- Prefer not to work with a specific partner?* [Contact Google](#)
- Buttons: **Cancel** and **Apply** (highlighted with an orange box)
- Footer: Edits may be reviewed. It can take up to 3 days before your edit is visible on Search, Maps and other Google services. [Learn more](#)

The background shows the "Info" tab of the Google Business Profile Manager, with various settings like "Menu link" and "Order ahead links" visible.

The change must be reviewed by Google. This could take a few minutes until it is updated.

The screenshot shows the Google Business Profile Manager interface. On the left is a navigation menu with options: Home, Posts, Info (selected), Menu, Food ordering, Insights, Reviews, Messages, Photos, Bookings, Website, Users, and Create an ad. A 'Saved!' notification is visible at the bottom left. The main content area has a header with a warning icon and text: 'This location has updated information from Google users or other sources. Review these published updates to make sure that they're accurate. Learn more Accept all for this location'. Below this is a list of business information items, each with an edit icon. The 'Food ordering' item is highlighted with an orange border and shows 'Turned on' and 'Under review' status. Other items include Phone, Email, Website, Menu link, and Order ahead links. On the right side, there are sections for 'Close this business on Google' (with buttons for 'Mark as temporarily closed', 'Mark as permanently closed', and 'Remove listing') and 'Advanced information' (with fields for Shop code, Labels, and Google Ads location extensions phone).

i That's it. You've successfully integrated DISH Order to the Google entry of your restaurant.
