The screenshot displays the 'Location Edit' page in the DISH Order system. On the left is a dark navigation sidebar with menu items: DASHBOARD, RESTAURANT (with a dropdown arrow), Locations, KITCHEN, SALES, MARKETING, USERS, DESIGN, LOCALISATION, TOOLS, and SYSTEM. The main content area is titled 'Location Edit' and contains several sections. At the top, there are settings for 'Accept card payments in the restaurant' with a text input field and a note: 'Max order total, Total order value must be less than this to make this payment method active. Leave it empty or zero for unlimited amount.' Below this are two unchecked checkboxes: 'Card payment upon delivery' (with subtext 'Accept card payments upon delivery') and 'PayPal Payment' (with subtext 'Accept PayPal online payments on your webshop'). A section titled 'DISH Order payment integrations' follows, with a sub-header 'DISH Order allows official online payment integrations. Please, start the onboarding processes and select all the payment methods your want to offer.' Under this, there is a 'stripe' section with 'Online payments offered via stripe' and two buttons: 'Change Business account data' and 'Change Bank Account data'. Below the stripe section is an 'Online Payment' option, which is checked with a blue checkbox and has a subtext 'HD pay Accept credit card payments using Stripe'. It includes a currency selector (€) and a text input field, with a note: 'Min order total, Total order value must reach before this payment method becomes active. Leave it empty or zero for unlimited amount.' The 'PayPal payment' section is below, featuring an 'Edit onboarding' button and a 'paypal' option, which is also checked with a blue checkbox and highlighted by an orange square. It includes a currency selector (€) and a text input field, with the same note as the stripe option. At the bottom right of the page, there are links for 'Privacy Settings | FAQ | New Features' and a circular orange help icon with a white question mark.
