The screenshot shows the 'Location Edit' interface with the 'Order Settings' tab selected. The 'Accepting Orders' section is highlighted with an orange border. It contains the following settings:

- Offer Delivery:** Enabled (checkbox checked). Description: Enable this option if your restaurant offers his own delivery service.
- Offer Pick-up:** Enabled (checkbox checked). Description: Activate this option if your restaurant offers pick-up on site.
- Estimated delivery time:** 45 minutes. Description: Set in minutes the average time it takes to deliver a meal from the restaurant to the End Customer.
- Estimated pickup time:** 30 minutes. Description: Set in minutes the average time it takes to prepare a meal.
- Auto decline time period:** 15 minutes. Description: Set the number of minutes after which an order is automatically declined if it is not already accepted, cancelled or completed. To change this setting please contact customer support.

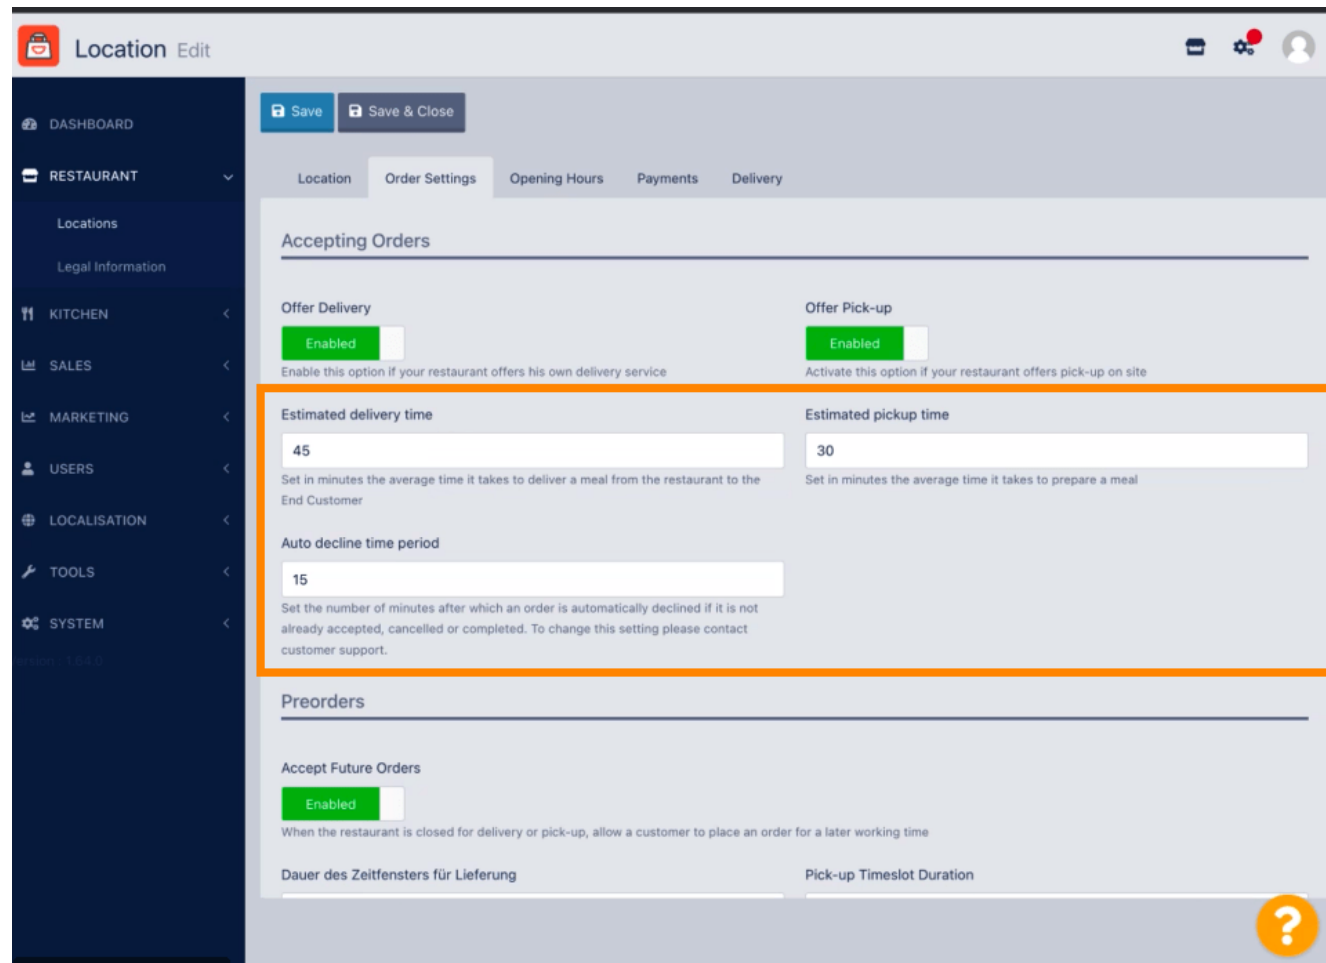

Below the 'Accepting Orders' section is the 'Preorders' section, which includes:

- Accept Future Orders:** Enabled (checkbox checked). Description: When the restaurant is closed for delivery or pick-up, allow a customer to place an order for a later working time.
- Dauer des Zeitfensters für Lieferung:** (input field)
- Pick-up Timeslot Duration:** (input field)

A help icon (?) is visible in the bottom right corner of the interface.
