Save

To activate the printing of the QR code, set the corresponding **checkmark**.

The screenshot displays the DISH POS v2.49.0 settings interface. On the left is a dark sidebar menu with categories like 'General', 'Production stations', 'Facilities', 'Cash stores', 'Printers', 'App links', 'Table map', 'Users', 'Usergroups', 'POS devices', 'Courses', 'Customers', 'Currencies', 'Turnover groups', 'Translations', 'Package profiles', 'Payment', and 'Self-service'. The 'Settings' option is selected in the sidebar. The main content area is titled 'Settings' and includes a 'CLOSE' button in the top right. Below the title are input fields for 'Name' (HD Video Demo English) and 'Language' (English). The settings are organized into three columns: 'General Settings', 'Receipt Settings', and 'Facility Settings'. Under 'General Settings', there are checkboxes for 'Uses cash drawer shifts' (checked), 'Keep closed order in view', and 'Reset stock daily'. Under 'Production ticket settings', there is a dropdown for 'Shared product details' set to 'Production station ...'. The 'DISH POS payment QR ticket settings' section contains a checkbox labeled 'Print first round QR', which is highlighted with a yellow square. Below this checkbox is a note: 'Check the box below to print a DISH POS payment QR ticket with every first round of the order.' Under 'Receipt Settings', there are text areas for 'Ticket Header', 'Bill Footer', and 'Order Overview Footer'. Under 'Facility Settings', there are two dropdown menus for 'Facility discoloration time 1' (set to 5) and 'Facility discoloration time 2' (set to 10). A red 'Save' button is located at the bottom right of the settings panel.

You then can adjust the default printer for those QR codes. Simply set the corresponding **checkmark**.

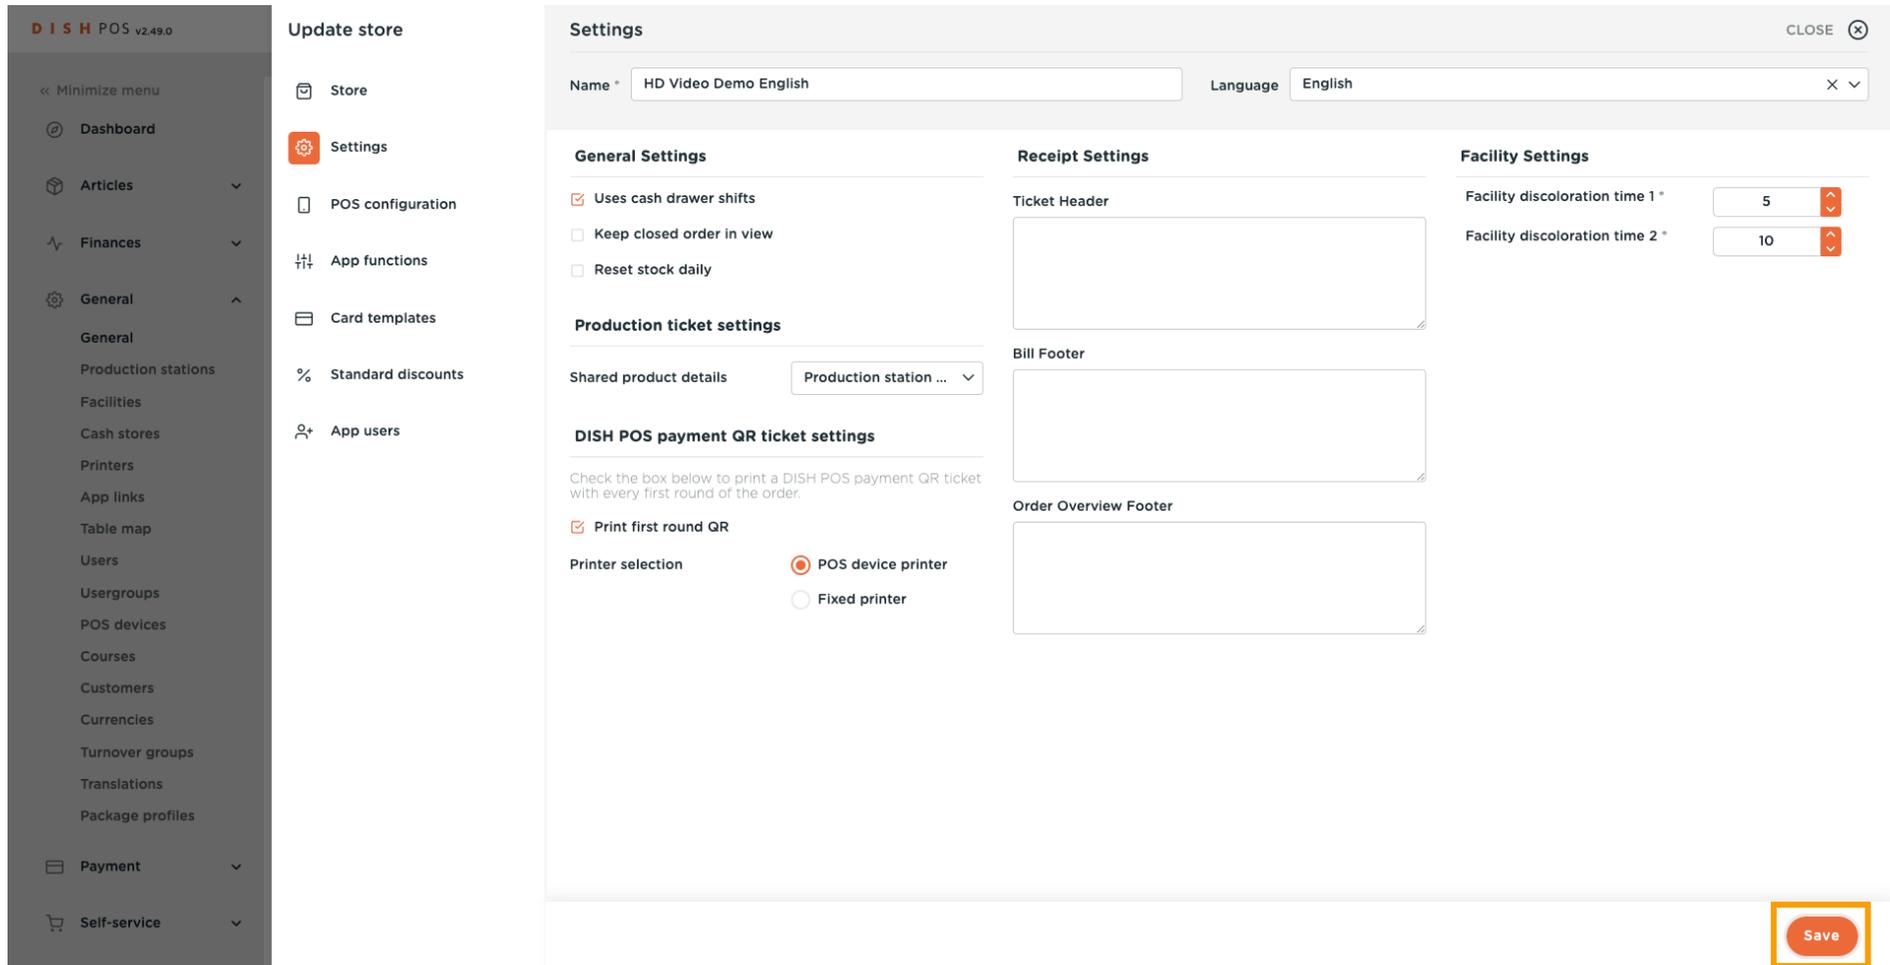

The screenshot displays the DISH POS v2.49.0 settings interface. On the left is a navigation sidebar with categories like 'General', 'Production stations', 'Facilities', 'Cash stores', 'Printers', 'App links', 'Table map', 'Users', 'Usergroups', 'POS devices', 'Courses', 'Customers', 'Currencies', 'Turnover groups', 'Translations', 'Package profiles', 'Payment', and 'Self-service'. The 'Settings' menu item is highlighted, and the 'Update store' panel shows 'Settings' selected. The main settings area is titled 'Settings' and includes a 'Name' field (HD Video Demo English) and a 'Language' dropdown (English). It is divided into three columns: 'General Settings', 'Receipt Settings', and 'Facility Settings'. Under 'General Settings', 'Uses cash drawer shifts' is checked. Under 'Production ticket settings', 'Shared product details' is set to 'Production station ...'. The 'DISH POS payment QR ticket settings' section contains a checked 'Print first round QR' checkbox and a 'Printer selection' section where 'POS device printer' is selected with a radio button, which is highlighted by an orange box. The 'Fixed printer' option is unselected. A 'Save' button is located at the bottom right of the settings panel.

If you selected the option of a fixed printer, you need to set the respective printer. To do so, use the corresponding **drop-down menu**.

The screenshot displays the DISH POS v2.49.0 settings interface. On the left is a navigation menu with categories like 'Update store', 'POS configuration', 'App functions', 'Card templates', 'Standard discounts', and 'App users'. The 'Settings' section is active, showing a 'Name' field with 'HD Video Demo English' and a 'Language' dropdown set to 'English'. The main content area is divided into three columns: 'General Settings', 'Receipt Settings', and 'Facility Settings'. Under 'General Settings', there are checkboxes for 'Uses cash drawer shifts', 'Keep closed order in view', and 'Reset stock daily'. The 'Production ticket settings' section includes a 'Shared product details' dropdown. The 'DISH POS payment QR ticket settings' section has a checked 'Print first round QR' checkbox and a 'Printer selection' section with two radio buttons: 'POS device printer' (unselected) and 'Fixed printer' (selected). Below the radio buttons is a 'Fixed printer' dropdown menu, which is highlighted with an orange border. At the bottom right of the settings panel is a 'Save' button.

Once you set everything up, click on **Save** to apply the changes.

The screenshot displays the DISH POS v2.49.0 settings interface. On the left is a dark sidebar menu with categories like 'Dashboard', 'Articles', 'Finances', 'General', 'Production stations', 'Facilities', 'Cash stores', 'Printers', 'App links', 'Table map', 'Users', 'Usergroups', 'POS devices', 'Courses', 'Customers', 'Currencies', 'Turnover groups', 'Translations', 'Package profiles', 'Payment', and 'Self-service'. The 'Settings' option is highlighted in orange. To the right of the sidebar is an 'Update store' panel with options for 'Store', 'Settings', 'POS configuration', 'App functions', 'Card templates', 'Standard discounts', and 'App users'. The main 'Settings' window is titled 'Settings' and includes a 'CLOSE' button. It features three tabs: 'General Settings', 'Receipt Settings', and 'Facility Settings'. Under 'General Settings', there are checkboxes for 'Uses cash drawer shifts' (checked), 'Keep closed order in view', and 'Reset stock daily'. The 'Production ticket settings' section includes a 'Shared product details' dropdown set to 'Production station ...'. The 'DISH POS payment QR ticket settings' section has a checked 'Print first round QR' option and a 'Printer selection' section with radio buttons for 'POS device printer' (selected) and 'Fixed printer'. The 'Receipt Settings' section has text input fields for 'Ticket Header', 'Bill Footer', and 'Order Overview Footer'. The 'Facility Settings' section has two numeric input fields for 'Facility discoloration time 1 *' (set to 5) and 'Facility discoloration time 2 *' (set to 10). A prominent orange 'Save' button is located at the bottom right of the settings window.

-  That's it. You completed the tutorial and now know how to have a payment QR code printed by default. Keep in mind, since changes have been made, you must send them to your system by going to the general settings.
