You are now in the overview of your facilities. To expand the menu of your facilities, use the **down-facing arrow**.

The screenshot displays the DISH POS v2.49.0 interface. The top navigation bar includes the version number, the user profile '(V) Demo EN Video', and the user name 'dish_en_video@hd.digital'. The left sidebar is expanded to the 'Facilities' section under 'General'. The main content area shows a search bar, a warning message about QR codes, and a table with one facility named 'HD Video Demo English'. The facility name has a small down-facing arrow icon next to it, which is highlighted with a yellow box.

By clicking on **+ Generate area**, you will create a new area.

The screenshot shows the DISH POS v2.49.0 interface. The top navigation bar includes the version number, a video player title '(V) Demo EN Video', and user information 'dish_en_video@hd.digital'. The left sidebar contains a menu with categories like Dashboard, Articles, Finances, General (expanded), Payment, and Self-service. The main content area is titled 'Facilities' and features a search bar, a warning message about QR codes, and a table of existing facilities. The '+ Generate area' button is highlighted with an orange border.

Facilities

Q

+ Generate area **+ Add facility**

Facilities

⚠ Be extra careful when you use QR ordering through CMS: QR codes are linked to facilities. Once created, these QR codes cannot be reassigned to a different facility.

Facilities	
^ HD Video Demo English	
∨ Restaurant	
Direct Sale	
∨ E-Commerce	
∨ Terrace	

A new window will open, where you can enter the information of the new area. Start by entering the name into the respective **text field**.

The screenshot shows the DISH POS v2.49.0 interface. On the left is a navigation menu with categories like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main area displays the 'Facilities' section for '(V) Demo EN Video'. A warning message states: 'Be extra careful when you use QR ordering, through QR codes cannot be reassigned to a different facility'. Below this, a tree view shows 'HD Video Demo English' expanded to show 'Restaurant', 'Direct Sale', 'E-Commerce', and 'Terrace'. On the right, the 'Generate Area' window is open, showing 'Sales point' and 'Menu' options. The 'Sales point' form has a 'Name' field highlighted with a yellow box, a 'Parent' dropdown set to 'HD Video Demo English', and a 'References' section with fields for 'Price level' (set to 'None'), 'Table prefix*', 'Table postfix start*', 'Table postfix end*', and 'Seats'. A 'Save' button is at the bottom right of the form.

You then can set the parent for the new area to which it will be assigned to directly. Do so by using the corresponding **drop-down menu**.

The screenshot displays the DISH POS v2.49.0 interface. On the left is a dark sidebar menu with categories like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main area shows the 'Facilities' section with a search bar and a list of facilities: HD Video Demo English, Restaurant, Direct Sale, E-Commerce, and Terrace. A warning message is visible: 'Be extra careful when you use QR ordering, through QR codes cannot be reassigned to a different facility'. To the right, the 'Generate Area' dialog is open, showing 'Sales point' and 'Menu' options. The 'Sales point' configuration form is also visible, with the 'Name' field set to 'Terrace Test' and the 'Parent' dropdown menu set to 'HD Video Demo English'. Other fields in the 'References' section include 'Price level' (None), 'Table prefix*', 'Table postfix start*', 'Table postfix end*', and 'Seats'. A 'Save' button is located at the bottom right of the dialog.

Now select the facility which you like to add as a parent by setting the corresponding **checkmark**. **Note:**
To expand the menu of available facilities, use the down-facing arrow.

The screenshot displays the DISH POS v2.49.0 interface. On the left is a navigation menu with categories like Dashboard, Articles, Finances, General, Payment, and Self-service. The main area is titled 'Generate Area' and shows a 'Facilities' list with a search bar and a warning message: 'Be extra careful when you use QR ordering, through QR codes cannot be reassigned to a different facility'. The facilities listed are HD Video Demo English, Restaurant, Direct Sale, E-Commerce, and Terrace. The 'Sales point' configuration window is open, showing 'Name' as 'Terrace Test' and 'Parent' as 'HD Video Demo English'. A dropdown menu for the parent is expanded, showing 'HD Video Demo English' with a checked checkbox. Below this are fields for 'References' including Price level (set to None), Table prefix, Table postfix start, Table postfix end, and Seats. A 'Save' button is at the bottom right.

To assign a price level to the new area, use the corresponding **drop-down menu**.

The screenshot displays the DISH POS v2.49.0 interface. On the left is a sidebar menu with categories like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main area shows the 'Facilities' section for 'HD Video Demo English', with sub-categories: Restaurant, Direct Sale, E-Commerce, and Terrace. A 'Generate Area' dialog is open, showing 'Sales point' and 'Menu' options. The 'References' section contains several input fields: 'Price level' (a dropdown menu with 'None' selected and highlighted by an orange box), 'Table prefix*', 'Table postfix start*', 'Table postfix end*', and 'Seats'. A 'Save' button is located at the bottom right of the dialog.

Then select a **price level** from the given options.

Afterward, use the corresponding **text field** to add a table prefix.

The image shows two parts of the DISH POS interface. On the left is the main application window with a sidebar menu and a 'Facilities' section. The 'Facilities' section is expanded to show a tree view with categories: Restaurant, Direct Sale, E-Commerce, and Terrace. On the right is a 'Sales point' configuration modal. The modal has a 'Name' field containing 'Terrace Test' and a 'Parent' dropdown menu set to 'HD Video Demo English'. Under the 'References' section, there are several fields: 'Price level' (set to 'Happy Hour'), 'Table prefix*' (containing 'Table' and highlighted with an orange box), 'Table postfix start*', 'Table postfix end*', and 'Seats'. A 'Save' button is located at the bottom right of the modal.

Then enter a starting table postfix by using the corresponding **text field**.

The image shows two parts of the DISH POS interface. On the left is the 'Generate Area' screen, which has a sidebar menu with options like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main content area is titled 'Facilities' and shows a search bar and a tree view of facilities under 'HD Video Demo English', including Restaurant, Direct Sale, E-Commerce, and Terrace. On the right is a 'Sales point' configuration modal. It has a 'Name' field with 'Terrace Test' and a 'Parent' dropdown with 'HD Video Demo English'. Under the 'References' section, there are fields for 'Price level' (set to 'Happy Hour'), 'Table prefix*' (set to 'Table'), 'Table postfix start*' (set to '1'), 'Table postfix end*', and 'Seats'. A 'Save' button is at the bottom right.

And do the same for adding the table postfix end by using the corresponding **text field**.

The screenshot shows the DISH POS v2.49.0 interface. On the left is a dark sidebar menu with options like Dashboard, Articles, Finances, General, Production stations, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main content area is titled 'Facilities' and has a search bar. Below the search bar is a warning message: 'Be extra careful when you use QR ordering through QR codes cannot be reassigned to a different facility'. Underneath, there's a tree view for 'Facilities' with a selected item 'HD Video Demo English' which is expanded to show sub-items: 'Restaurant', 'Direct Sale', 'E-Commerce', and 'Terrace'.

Generate Area

Sales point

Menu

The screenshot shows the 'Sales point' configuration form. At the top right is a 'CLOSE' button with an 'X' icon. The form has two main sections: 'Name' and 'References'. The 'Name' section has a text input field containing 'Terrace Test' and a 'Parent' dropdown menu showing 'HD Video Demo English'. The 'References' section contains several fields: 'Price level' (dropdown menu with 'Happy Hour' selected), 'Table prefix*' (text input field with 'Table'), 'Table postfix start*' (text input field with '1'), 'Table postfix end*' (text input field with '25', highlighted with an orange border), and 'Seats' (empty text input field). At the bottom right of the form is a red 'Save' button.

You then can set a number of seats for those tables. Simply use the corresponding field for it. **Note:** When opening a table, you then will be asked how many seats are occupied. This setting is optional.

The screenshot displays the DISH POS v2.49.0 interface. On the left is a navigation menu with categories like Dashboard, Articles, Finances, General, Production stations, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main area shows the 'Facilities' section for '(V) Demo EN Video'. A warning message states: 'Be extra careful when you use QR ordering, through QR codes cannot be reassigned to a different facility'. Below this, a tree view shows 'HD Video Demo English' expanded to show 'Restaurant', 'Direct Sale', 'E-Commerce', and 'Terrace'. To the right, a 'Generate Area' sidebar offers 'Sales point' and 'Menu' options. A 'Sales point' configuration modal is open, showing 'Name' as 'Terrace Test' and 'Parent' as 'HD Video Demo English'. Under the 'References' section, the 'Seats' field is set to '4' and is highlighted with a yellow box. Other fields include 'Price level' (Happy Hour), 'Table prefix*' (Table), 'Table postfix start*' (1), and 'Table postfix end*' (25). A 'Save' button is located at the bottom right of the modal.

Now go to **Menu** to start assigning menus to the new area.

The screenshot displays the DISH POS v2.49.0 interface. On the left is a sidebar menu with categories like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The main area shows the 'Facilities' section for '(V) Demo EN Video'. A 'Generate Area' dialog is open, with 'Menu' selected. The 'Sales point' configuration form is visible, showing the following details:

- Name:** Terrace Test
- Parent:** HD Video Demo English
- Price level:** Happy Hour
- Table prefix:** Table
- Table postfix start:** 1
- Table postfix end:** 25
- Seats:** 4

A 'Save' button is located at the bottom right of the dialog.

Then use the respective **drop-down menu** to select a menu for the POS and Self-service. **Note: If you want to assign the same menus that the parent facility has, you can leave the setting on default.**

⚠ Be extra careful when you use QR ordering through CMS: QR codes are linked to facilities. Once created, these QR codes cannot be reassigned to a different facility.

Facilities	
^ HD Video Demo English	✎
∨ Restaurant	✎ 🗑
Direct Sale	✎ 🗑
∨ E-Commerce	✎ 🗑
∨ Terrace	✎ 🗑
∨ Terrace Test	✎ 🗑

A new window will open, where you can enter the information of the new facility. Start by entering the name into the respective **text field**.

The screenshot shows the 'Add sales point' window in the DISH POS v2.49.0 application. The window title is 'Sales point' and it has a 'CLOSE' button in the top right corner. The 'Name' field is highlighted with an orange border and contains the text 'Table Test'. The 'Parent' dropdown menu is set to 'HD Video Demo English'. The window is divided into several sections:

- Numbers/Description:** Includes a checkbox for 'Direct sale', a 'Table number' text field, and a 'Receipt printer' dropdown menu.
- References:** Includes a 'Price level' dropdown menu set to 'Inherit'.
- Logistics:** Includes an 'Amount of seats' text field.
- Settings:** Includes a checked checkbox for 'Inherit settings', a checked checkbox for 'Visible in app', a checked checkbox for 'Price includes VAT', and several unchecked checkboxes: 'Order text popup', 'Use take away number', 'Log off after ticket', and 'Print receipt'.
- Identification:** Includes a 'Your reference' text field and an 'ID' text field.

At the bottom right of the window, there are two buttons: 'Save and add new' and 'Save'.

You then can set the parent for the new facility to which it will be assigned to directly. Do so by using the corresponding **drop-down menu**.

The screenshot displays the 'Add sales point' form in the DISH POS v2.49.0 application. The form is titled 'Sales point' and includes a 'CLOSE' button in the top right corner. The 'Name' field contains 'Table Test'. The 'Parent' dropdown menu is highlighted with an orange box and shows 'HD Video Demo English' as the selected parent. The form is divided into several sections: 'Numbers/Description' with fields for 'Table number' and 'Receipt printer'; 'References' with a 'Price level' dropdown set to 'Inherit'; 'Logistics' with an 'Amount of seats' field; 'Settings' with checkboxes for 'Direct sale', 'Inherit settings', 'Visible in app', 'Price includes VAT', 'Order text popup', 'Use take away number', 'Log off after ticket', and 'Print receipt'; and 'Identification' with fields for 'Your reference' and 'ID'. At the bottom right, there are two buttons: 'Save and add new' and 'Save'.

How do I add and manage areas and facilities (e.g. tables)?

Now expand the menu of available facilities by using the **down-facing arrow**.

The screenshot displays the 'Add sales point' configuration window in the DISH POS v2.49.0 application. The window title is 'Sales point' and it includes a 'CLOSE' button in the top right corner. The 'Name' field is set to 'Table Test'. The 'Parent' dropdown menu is expanded, showing 'HD Video Demo English' as the selected parent, with a yellow box highlighting the down-facing arrow icon. The form is organized into several sections: 'Numbers/Description' with a 'Direct sale' checkbox, 'Table number' and 'Receipt printer' input fields; 'References' with a 'Price level' dropdown set to 'Inherit'; 'Logistics' with an 'Amount of seats' input field; and 'Identification' with 'Your reference' and 'ID' input fields. A 'Settings' section on the right contains various checkboxes for 'Restaurant', 'Direct Sale', 'E-Commerce', 'Terrace', and 'Terrace Test'. At the bottom right, there are two buttons: 'Save and add new' and 'Save'.

Then select the facility which you like to add as a parent by setting the corresponding **checkmark**.

The screenshot shows the 'Add sales point' dialog in the DISH POS v2.49.0 interface. The dialog is titled 'Sales point' and has a 'Name' field with 'Table Test'. The 'Parent' dropdown is open, showing a list of facilities: 'None', 'HD Video Demo English', 'Restaurant', 'Direct Sale', 'E-Commerce', 'Terrace', and 'Terrace Test'. The 'Terrace Test' option is highlighted with a yellow square. The dialog also has sections for 'Numbers/Description', 'References', 'Logistics', and 'Identification'. At the bottom right, there are 'Save and add new' and 'Save' buttons.

If the new facility will work as a direct sales point, set the corresponding **checkmark**.

The screenshot shows the 'Add sales point' form in the DISH POS v2.49.0 interface. The form is titled 'Sales point' and has a 'CLOSE' button in the top right corner. The 'Name' field is set to 'Table Test' and the 'Parent' dropdown is set to 'Terrace Test'. The 'Direct sale' checkbox is checked and highlighted with a yellow box. The 'Receipt printer' field is empty. The 'Price level' dropdown is set to 'Inherit'. The 'Amount of seats' field is empty. The 'Settings' section includes checkboxes for 'Inherit settings', 'Visible in app', 'Price includes VAT', 'Use take away number', 'Log off after ticket', and 'Print receipt'. The 'Identification' section includes fields for 'Your reference' and 'ID'. At the bottom right, there are two buttons: 'Save and add new' and 'Save'.

If your new facility is not a direct sales point, you can assign it a table number. Do so, by using the corresponding **text field**.

The screenshot shows the 'Add sales point' form in the DISH POS v2.49.0 application. The form is titled 'Sales point' and includes a 'CLOSE' button in the top right corner. The 'Name' field is set to 'Table Test' and the 'Parent' dropdown is set to 'Terrace Test'. The form is divided into several sections:

- Numbers/Description:**
 - Direct sale
 - Table number:** A text input field is highlighted with a yellow box.
 - Receipt printer: A dropdown menu.

 - Inherit settings
 - Visible in app
 - Price includes VAT
 - Order text popup
 - Use take away number
 - Log off after ticket
 - Print receipt
- Identification:**
 - Your reference: (text input field)
 - ID: (text input field)

At the bottom right of the form, there are two buttons: 'Save and add new' and 'Save'.

Now go to **Menu** to start assigning menus to the new area.

The screenshot displays the DISH POS v2.49.0 interface. On the left, a sidebar menu is visible with the 'Menu' option highlighted in orange. The main content area shows the 'Add sales point' dialog box. The dialog has a title bar with 'Sales point' and a 'CLOSE' button. The form contains the following fields and sections:

- Name:** Text input field containing 'Table Test'.
- Parent:** Dropdown menu showing 'Terrace Test'.
- Numbers/Description:**
 - Direct sale
 - Table number: Text input field containing '20'.
 - Receipt printer: Dropdown menu.
- References:**
 - Price level: Dropdown menu showing 'Inherit'.
- Logistics:**
 - Amount of seats: Text input field containing '80'.
- Settings:**
 - Inherit settings
 - Visible in app
 - Price includes VAT
 - Order text popup
 - Use take away number
 - Log off after ticket
 - Print receipt
- Identification:**
 - Your reference: Text input field.
 - ID: Text input field.

At the bottom right of the dialog, there are two buttons: 'Save and add new' and 'Save'.

Then use the respective **drop-down menu** to select a menu for the POS and Self-service. **Note: If you want to assign the same menus that the parent facility has, you can leave the setting on default.**

The screenshot shows the DISH POS v2.49.0 interface. On the left is a sidebar menu with categories like Dashboard, Articles, Finances, General, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, Customers, Currencies, Turnover groups, Translations, Package profiles, Payment, and Self-service. The 'Facilities' section is expanded, showing a search bar and a list of facilities. The 'Add sales point' dialog is open, showing a search bar and a list of facilities. The 'Menu' configuration form is also open, showing the following fields:

- Name: Table Test
- Parent: Terrace Test
- Menu: Inherit (highlighted with a yellow box)
- POS menu: Inherit (highlighted with a yellow box)
- Self-service menu: Inherit (highlighted with a yellow box)

The 'Menu planning' section is also visible, showing a table with columns for 'Period' and 'Menu'. The 'Period' column has a dropdown menu with 'None' selected. The 'Menu' column has a dropdown menu with 'None' selected. A '+ Add' button is located to the right of the 'Menu' dropdown.

At the bottom right of the dialog, there are two buttons: 'Save and add new' and 'Save'.

Simply select an **option** from the expanded drop-down menu.

The screenshot displays the 'Menu' configuration interface in the DISH POS v2.49.0 system. The 'Parent' dropdown is set to 'Terrace Test'. The 'Menu' dropdown is expanded, showing options: 'Inherit', 'Menukaart', and 'Webshop'. The 'Inherit' option is highlighted with an orange box. Below, the 'Menu planning' section shows a table with columns 'Period' and 'Menu', both set to 'None'. At the bottom right, there are 'Save and add new' and 'Save' buttons.

To plan a menu for a certain period, start by selecting a period from the corresponding **drop-down menu**.

The screenshot displays the DISH POS v2.49.0 interface. On the left, a sidebar menu lists various system components. The main content area is titled 'Add sales point' and shows the 'Menu' configuration screen. The 'Menu' configuration form includes the following fields:

- Name: Table Test
- Parent: Terrace Test
- POS menu: Inherit
- Self-service menu: Inherit

Below the configuration form is the 'Menu planning' section, which contains a table with two columns: 'Period' and 'Menu'. The 'Period' column has a dropdown menu set to 'None'. The 'Menu' column has a dropdown menu open, showing a search bar and a list of options: 'None', 'Menukaart', and 'Webshop'. A '+ Add' button is located to the right of the dropdown menu. At the bottom of the screen, there are two buttons: 'Save and add new' and 'Save'.

You have to set up those menus separately for the POS and Self-service.

Q Type to search

+ Generate area + Add facility

⚠ Be extra careful when you use QR ordering through CMS: QR codes are linked to facilities. Once created, these QR codes cannot be reassigned to a different facility.

Facilities	
^ HD Video Demo English	✎
∨ Restaurant	✎ 🗑
Direct Sale	✎ 🗑
∨ E-Commerce	✎ 🗑
∨ Terrace	✎ 🗑
∨ Terrace Test	✎ 🗑

That's it. You completed the tutorial and now know how to add and manage areas and facilities.

The screenshot shows the DISH POS v2.49.0 interface. The top navigation bar includes the version number, a video player title '(V) Demo EN Video', and user information 'dish_en_video@hd.digital'. The sidebar menu is expanded to the 'General' section, with 'Facilities' selected. The main content area is titled 'Facilities' and features a search bar and two buttons: '+ Generate area' and '+ Add facility'. A warning message states: 'Be extra careful when you use QR ordering through CMS: QR codes are linked to facilities. Once created, these QR codes cannot be reassigned to a different facility.' Below this is a table of facilities:
