Ora dobbiamo collegare il nuovo menu alle strutture. Andiamo a **Strutture** sotto il menu Generale.

The screenshot displays the DISH POS v2.49.0 interface. In the left sidebar, the 'Facilities' menu item is highlighted with an orange box. The main content area is titled 'Menus' and features a 'Lunch menu' card. This card includes a search bar and a list of product groups: Food, Aperitif, Starters, Salads, Dishes, Supplements, and Desserts. Each product group has a search bar and a list of items with delete icons. The 'Lunch menu' card is highlighted with an orange border. The top right of the interface shows a 'Show your reference' toggle and an '+ Add menu' button.

Per gestire una struttura, usa l' **icona di modifica** . Ma poiché vogliamo assegnare il nuovo menu solo a un'area specifica, selezioneremo una sottostruttura.

The screenshot shows the DISH POS v2.49.0 interface. The top navigation bar includes the logo, version, demo name '(V) Demo EN Video', and user information. The left sidebar lists various menu management options. The main 'Facilities' section features a search bar, a warning message, and a list of facilities. The facility 'HD Video Demo English' is expanded, and its edit icon is highlighted with a red box.

Una volta scelta la sotto-struttura, utilizza l' **icona di modifica** per regolarne le impostazioni.
