

After log in to DASHBOARD in DISH Website. Click on **Food ordering**.

The screenshot shows the DISH website dashboard for 'Test Bistro Train...'. The sidebar on the left contains the following menu items: Dashboard, Restaurant details, Settings, Reservation options, **Food ordering** (highlighted with an orange box), Design and content, Legal, Web Address, DISH WEBLISTING, and Account. The main content area features a 'New Imprint Legal Information Update' notification with the text: 'Dear Website Builder Customer, in order to always provide you with the best experience and information we have updated our Imprint form. Please update your imprint information accordingly and check in each case whether they are correct and complete. Please consider that you, as the owner of this website, are responsible for the correct and complete imprint information of your own Restaurant Website. If you have any questions or need our assistance in completing the form, please contact our Support Centre at any time.' Below the notification is an 'Update Imprint' button. The 'Website Performance' section displays two cards: 'Test Bistro Training' showing 0 website views the past 28 days with a 0.0% change, and 'Online food ordering insights' showing 0 orders the past 7 days with a 0.0% change. A line chart titled 'Website views per day' shows a grid with no data points plotted. The x-axis represents dates from 14.04 to 11.05, and the y-axis represents a scale from 0 to 1.0. A help icon (question mark) is visible in the bottom right corner of the dashboard.

Make sure Food ordering is enabled by clicking on **Button** next to Enable.

The screenshot shows the 'Food ordering' settings page in the DISH website management interface. The page is titled 'Food ordering' and has a status of 'INACTIVE'. The main content area contains the following text:

You can now enable your website visitors to order food "to go" from your establishment! Simply enable the option below and make sure to upload your menu. Please stick to the laws and actual rules in your country, when enabling this functionality. Once this option is enabled, make sure you monitor your emails closely so that you do not miss any food ordering requests.

The 'Enable' toggle is highlighted with an orange box. Below the toggle, there is a section titled 'Link to your preferred Food Ordering service' with the following text:

Add the link to your preferred Food Order service so your customers can be redirected accordingly. By default and if it has not been modified, the DISH Order Storefront link is automatically loaded in this field.

A text input field contains the URL: `https://www.ubereats.com/pt-en/store/holy-sandwich-shop/-HhkXsRREKwigOzf-ε`. A 'SAVE' button is located at the bottom right of the settings area.

The interface also features a sidebar with navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering (highlighted), Design and content, Legal, Web Address, DISH WEBLISTING, and Account. The top right corner includes a 'VISIT WEBSITE' button, a language selector set to 'English', and a help icon.

Add in the following the **URL** of preferred Food Ordering Service. **Note: Please note that if you setup a URL, the other settings above will not apply. Those are only valid for the default 'Food Ordering' widget integrated to DISH Website.**

- Dashboard
- Restaurant details
- Settings
- Reservation options
- Food ordering**
- Design and content
- Legal
- Web Address
- DISH WEBLISTING
- Account

 If you enter an invalid URL, the following Note will appear.

The screenshot shows the 'Food ordering' settings page for 'Test Bistro Train...'. The page is active, as indicated by a green dot and the word 'ACTIVE'. A red error message is displayed in a box: 'The format of the URL is not valid, please update'. Below the error message, there is a toggle switch for 'Enable' (currently turned on) and a 'Disable' option. The page also features sections for 'Receive orders outside of my opening hours', 'Services available' (with checkboxes for Pickup, Delivery, and Eat In), and 'Payment methods available' (with checkboxes for Cash, Credit card, Debit card, and EC card). At the bottom, there is a section for 'Link to your preferred Food Ordering service' with a text input field and a 'SAVE' button. A help icon (question mark) is visible in the bottom right corner.

Add a valid Food Ordering Service URL.
