The screenshot shows the 'Web address' configuration page for a restaurant named 'Test Bistro Train...'. The page has a sidebar with navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area is titled 'Web address' and features a green success message: 'Your changes have been saved.' Below this, the 'Web address' field contains 'test-bistro-training-bar'. To the right, there are radio buttons for domain selection: 'eatbu.com' (selected), 'metro.bar', 'metro.biz', and 'metro.rest'. The current web address is displayed as 'test-bistro-training-bar.eatbu.com' with the note 'This is your current web address.' and a 'SAVE' button. The 'External domain' section below asks if the user has a registered domain and provides a text input field with 'YourExistingDomain.com' and a 'CHECK DOMAIN' button. A help icon is visible in the bottom right corner of the interface.

Añade un dominio personalizado en Dominio externo. Si tienes un dominio externo, introdúcelo en el campo de texto.

The screenshot shows the 'External domain' configuration page in the DISH management interface. The page is titled 'External domain' and includes a 'CHECK DOMAIN' button. Below this, the 'Domain Status' section shows the website is 'Published' as of 'Thu, May 20, 15:09 PM'. A 'UNPUBLISH MY WEBSITE' button is visible at the bottom of the status section. The left sidebar contains navigation options such as 'Dashboard', 'Restaurant details', 'Settings', 'Reservation options', 'Food ordering', 'Design and content', 'Legal', 'Web Address', 'DISH WEBLISTING', and 'Account'. The top right corner features a 'VISIT WEBSITE' button and a language selector set to 'English'.

Haga clic en **VERIFICAR DOMINIO**.

The screenshot shows the configuration interface for a website. At the top left, the restaurant name is 'Test Bistro Train...' with the address 'TRAINING STREET 007, BERLIN, DE'. On the right, there are icons for a moon and sun, a 'VISIT WEBSITE' button, and a language selector set to 'English'. A left sidebar contains navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area has three sections: 1. 'Web address' with a text input containing 'test-bistro-training-bar', a list of domain options (eatbu.com, metro.bar, metro.biz, metro.rest), and a 'SAVE' button. 2. 'External domain' with a text input containing 'testbistrotrainingbar.com' and a 'CHECK DOMAIN' button highlighted with a red border. 3. 'Domain Status' with a question mark icon.

Aquí puedes ver si el dominio está activo, quién es el propietario y dónde está registrado.

The screenshot shows the 'Web Address' section of the DISH website management interface. The left sidebar contains navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area displays the current web address 'test-bistro-training-bar.eatbu.com' with a 'SAVE' button. Below this is the 'External domain' section, which includes a text prompt, a 'Domain*' input field containing 'testbistrotraningbar.com', and 'CHECK DOMAIN' and 'USE DOMAIN FOR YOUR WEBSITE' buttons. A red-bordered box highlights the 'Domain active' status, which states 'You can use it as external domain.', along with 'Registered at:' and 'Owner:' labels. The top right of the interface features a 'VISIT WEBSITE' button, a language selector set to 'English', and a list of domain suggestions: metro.bar, metro.biz, and metro.rest. A 'Domain Status' section is partially visible at the bottom, accompanied by a help icon.

Haga clic en **UTILIZAR DOMINIO PARA SU SITIO WEB**.

The screenshot shows the 'Web Address' section of the DISH website management interface. On the left is a navigation menu with items like Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area is titled 'Test Bistro Train...' and shows the current web address 'test-bistro-training-bar.eatbu.com' with a 'SAVE' button. Below this is the 'External domain' section, which includes a text input for a domain name (currently 'testbistrotraningbar.com') and two buttons: 'CHECK DOMAIN' and 'USE DOMAIN FOR YOUR WEBSITE' (highlighted with a red box). Below the buttons, it shows 'Domain active' status and fields for 'Registered at:' and 'Owner:'. On the right side, there are radio buttons for domain types: 'metro.bar', 'metro.biz', and 'metro.rest'. The top right of the interface includes a 'VISIT WEBSITE' button, a language selector set to 'English', and a dark mode toggle.

 Ahora puedes configurar los ajustes para tu dominio externo.

The screenshot shows the 'External domain' configuration page in the DISH management interface. The page title is 'External domain' with a link icon. Below the title, there is a text prompt: 'Have you already registered a domain and want to use it for this website? Enter your domain name and we will check whether you can use it. In case some configuration with your domain provider is required, we will tell you how to do it in the subsequent step.' A text input field labeled 'Domain*' contains the value 'testbistrotrainingbar.com'. Below the input field is a red button with a white 'X' icon and the text 'CANCEL DOMAIN CONFIGURATION'. To the right of the input field, there is a blue callout box with a white border and a red border, containing the text: 'Waiting for configuration. The DNS settings of this domain have not yet been configured. Please follow the adjacent instructions.' Below this, there is a section titled 'How to configure the DNS settings of testbistrotrainingbar.com' followed by a numbered list of 7 steps. A yellow question mark icon is located in the bottom right corner of the page content area.

External domain

Have you already registered a domain and want to use it for this website? Enter your domain name and we will check whether you can use it. In case some configuration with your domain provider is required, we will tell you how to do it in the subsequent step.

Domain* testbistrotrainingbar.com

X CANCEL DOMAIN CONFIGURATION

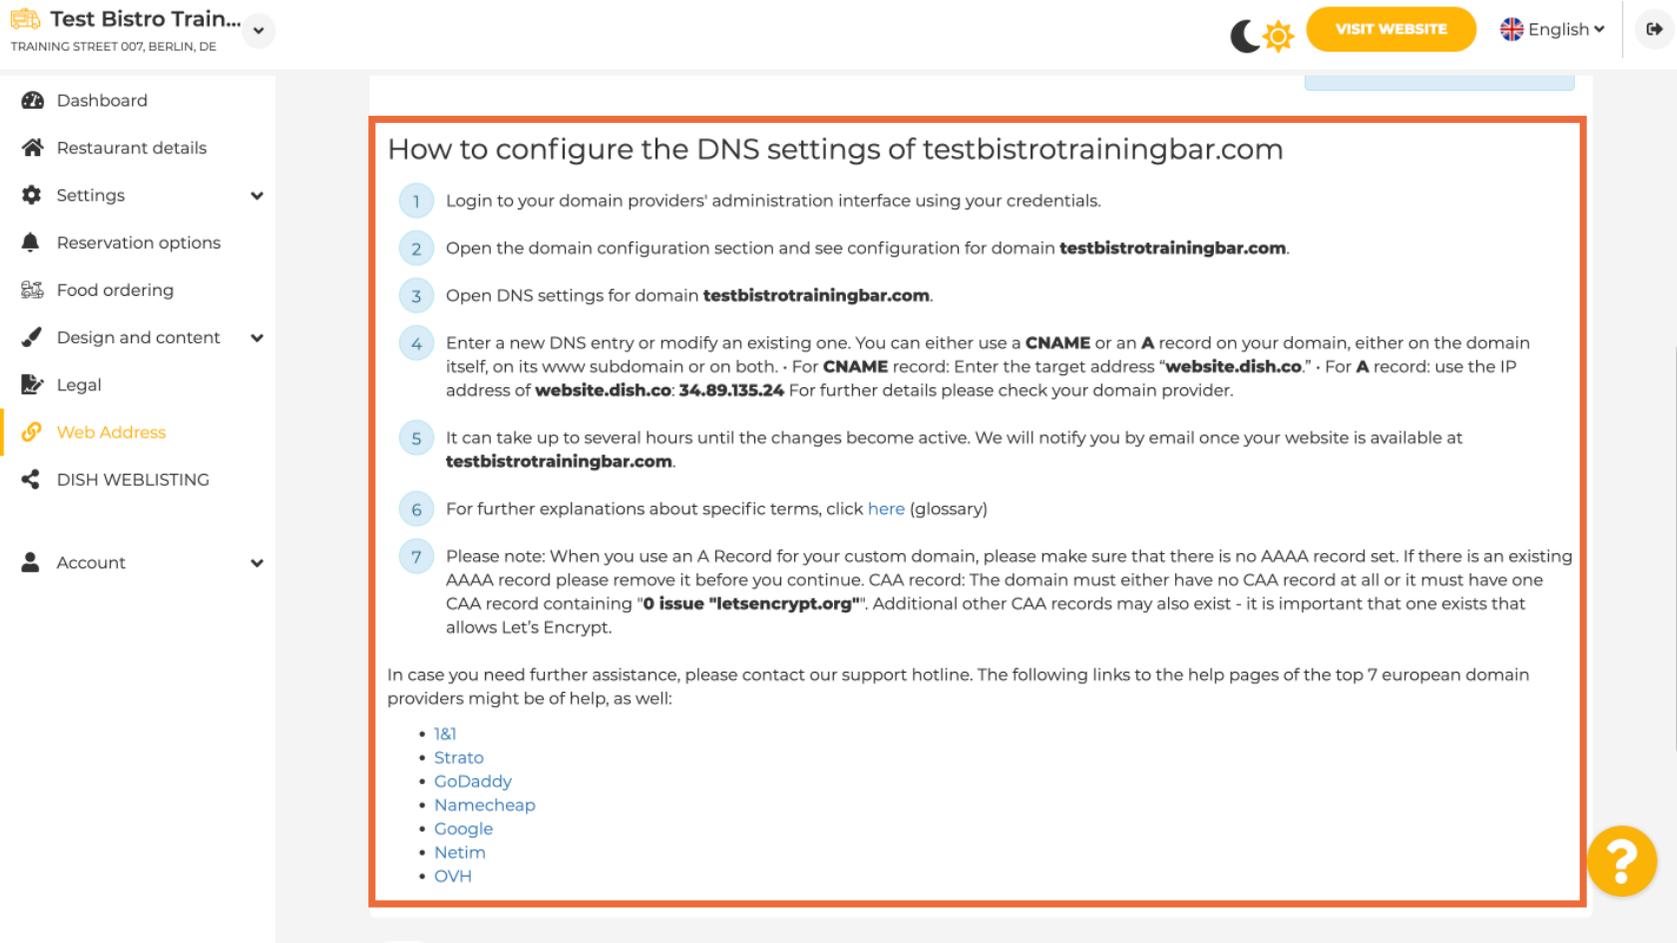

Waiting for configuration
The DNS settings of this domain have not yet been configured. Please follow the adjacent instructions.

How to configure the DNS settings of testbistrotrainingbar.com

- 1 Login to your domain providers' administration interface using your credentials.
- 2 Open the domain configuration section and see configuration for domain **testbistrotrainingbar.com**.
- 3 Open DNS settings for domain **testbistrotrainingbar.com**.
- 4 Enter a new DNS entry or modify an existing one. You can either use a **CNAME** or an **A** record on your domain, either on the domain itself, on its www subdomain or on both. For **CNAME** record: Enter the target address "**website.dish.co**". For **A** record: use the IP address of **website.dish.co**: **34.89.135.24** For further details please check your domain provider.
- 5 It can take up to several hours until the changes become active. We will notify you by email once your website is available at **testbistrotrainingbar.com**.
- 6 For further explanations about specific terms, click [here](#) (glossary)
- 7 Please note: When you use an A Record for your custom domain, please make sure that there is no AAAA record set. If there is an existing AAAA record, please remove it before you continue. CAA record: The domain must either have no CAA record at all or it must have one.

Aquí verás los pasos adicionales que debes completar en la pantalla de configuración de tu propio proveedor de dominio.

The screenshot shows the 'Web Address' configuration page for 'Test Bistro Trainingbar'. The page title is 'How to configure the DNS settings of testbistrotrainingbar.com'. The instructions are as follows:

- 1 Login to your domain providers' administration interface using your credentials.
- 2 Open the domain configuration section and see configuration for domain **testbistrotrainingbar.com**.
- 3 Open DNS settings for domain **testbistrotrainingbar.com**.
- 4 Enter a new DNS entry or modify an existing one. You can either use a **CNAME** or an **A** record on your domain, either on the domain itself, on its www subdomain or on both.
 - For **CNAME** record: Enter the target address "**website.dish.co**".
 - For **A** record: use the IP address of **website.dish.co: 34.89.135.24**
