Módosítsa webcímét a DISH által biztosított domainre. Kattintson a **szövegmezőre** , és adja hozzá a kívánt domaint.

The screenshot shows the 'Web address' configuration page in the DISH management system. The page is titled 'Web address' and features a sidebar on the left with navigation options: Dashboard, Restaurant details, Settings, Reservation options, Food ordering, Design and content, Legal, Web Address (highlighted), DISH WEBLISTING, and Account. The main content area is divided into two sections: 'Web address' and 'External domain'.

In the 'Web address' section, there is a text input field labeled 'Web address' containing the text 'test-bistro-training-bar'. This field is highlighted with a red border. Below the input field, the current web address is displayed as 'test-bistro-training-bar.eatbu.com' in green text, with the note 'This is your current web address.' and a 'SAVE' button. To the right of the input field, there is a list of domain options: 'eatbu.com' (selected), 'metro.bar', 'metro.biz', and 'metro.rest'.

The 'External domain' section contains a text input field labeled 'Domain*' with the placeholder text 'YourExistingDomain.com' and a 'CHECK DOMAIN' button. A help icon (question mark) is located in the bottom right corner of the page.

X CANCEL DOMAIN CONFIGURATION

⌚ Waiting for configuration
The DNS settings of this domain have not yet been configured. Please follow the adjacent instructions.

How to configure the DNS settings of testbistrotrainingbar.com

- 1 Login to your domain providers' administration interface using your credentials.
- 2 Open the domain configuration section and see configuration for domain **testbistrotrainingbar.com**.
- 3 Open DNS settings for domain **testbistrotrainingbar.com**.
- 4 Enter a new DNS entry or modify an existing one. You can either use a **CNAME** or an **A** record on your domain, either on the domain itself, on its www subdomain or on both.
 - For **CNAME** record: Enter the target address "**website.dish.co**".
 - For **A** record: use the IP address of **website.dish.co**: **34.89.135.24**
 For further details please check your domain provider.
- 5 It can take up to several hours until the changes become active. We will notify you by email once your website is available at **testbistrotrainingbar.com**.
- 6 For further explanations about specific terms, click [here](#) (glossary)
- 7 Please note: When you use an A Record for your custom domain, please make sure that there is no AAAA record set. If there is an existing AAAA record, please remove it before you continue. CAA record: The domain must either have no CAA record at all or it must have one.

Itt láthatja azokat a további lépéseket, amelyeket saját tartományszolgáltatója beállítási képernyőjén kell végrehajtania.

The screenshot shows the DISH web management interface. The top navigation bar includes the restaurant name "Test Bistro Train...", the address "TRAINING STREET 007, BERLIN, DE", a "VISIT WEBSITE" button, and a language selector set to "English". The left sidebar contains a menu with items like "Dashboard", "Restaurant details", "Settings", "Reservation options", "Food ordering", "Design and content", "Legal", "Web Address", "DISH WEBLISTING", and "Account". The "Web Address" item is highlighted in orange.

The main content area displays a guide titled "How to configure the DNS settings of testbistrotrainingbar.com". The guide consists of seven numbered steps:

- 1 Login to your domain providers' administration interface using your credentials.
- 2 Open the domain configuration section and see configuration for domain **testbistrotrainingbar.com**.
- 3 Open DNS settings for domain **testbistrotrainingbar.com**.
- 4 Enter a new DNS entry or modify an existing one. You can either use a **CNAME** or an **A** record on your domain, either on the domain itself, on its www subdomain or on both. · For **CNAME** record: Enter the target address "**website.dish.co**." · For **A** record: use the IP address of **website.dish.co: 34.89.135.24** For further details please check your domain provider.
- 5 It can take up to several hours until the changes become active. We will notify you by email once your website is available at **testbistrotrainingbar.com**.
- 6 For further explanations about specific terms, click [here](#) (glossary)
- 7 Please note: When you use an A Record for your custom domain, please make sure that there is no AAAA record set. If there is an existing AAAA record please remove it before you continue. CAA record: The domain must either have no CAA record at all or it must have one CAA record containing "**0 issue 'letsencrypt.org'**". Additional other CAA records may also exist - it is important that one exists that allows Let's Encrypt.
