

Welcome to the DISH POS app. In this tutorial, we will show you how to use the lottery ticket function.

Once the customer is ready to pay, tap on **Add code**.

A pop-up window will then open, asking you to either scan the code or to enter the details manually.

- 1 Start by entering your fiscal code into the corresponding field.

Now enter the lottery code from the ticket into the corresponding field.

-  Look up the code on the lottery ticket and enter the code as shown in the previous step.

Once the information of the lottery ticket got registered, tap on **OK**.

In case you are using a scanner, scan the **barcode** of the lottery ticket, instead of manually entering the numbers.

i That's it. You completed the tutorial and now know how to use the lottery ticket function.
