

Welcome to DISH POS! In this tutorial, we are going to show you how the **Factura Simplificada** works.

The screenshot displays the DISH POS interface for 'Table 18'. The top navigation bar includes a menu icon, the text 'DISH POS * Table 18', an information icon, and category tabs for 'FOOD', 'DRINKS', and 'OTHER'. The main area is a grid of menu items categorized into 'Aperitif', 'Starters', 'Salads', 'Dishes', 'Supplements', and 'Desserts'. A bottom panel contains an 'Input' field, a 'Total amount' of 2,998.80, and a numeric keypad with buttons for 'Discount', 'Split order', 'Note', and 'Customer'. Payment options like 'PIN (C) €', 'PIN (EFT) €', and 'CASH €' are also visible.

Item	Quantity	Unit Price	Total Price
*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
Total amount			2,998.80

- i The total amount **cannot exceed €3000** unless you have the customer information on the receipt. If you want to exceed this amount, you should **split the order** and continue with two separate orders.

The screenshot shows the DISH POS interface for Table 18. The top bar includes a menu icon, the text "DISH POS * Table 18", a category selector (FOOD, DRINKS, OTHER), and navigation icons. The main area displays a receipt for "Fries" and "Mayonnaise" with quantities and prices. Below the receipt, a "Total amount" of 2,998.80 is shown with a checkmark, enclosed in an orange box. The interface also features a grid of menu items and a bottom navigation bar with icons for Discount, Split order, Note, and Customer.

Item	Quantity	Unit Price	Total Price
*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
Total amount			2,998.80 ✓

i In this example we have ordered 588 portions of fries with Mayonnaise which amounts to €2998.80.

The screenshot shows the DISH POS interface for 'Table 18'. The top bar includes navigation icons, the text 'DISH POS * Table 18', and category tabs for 'FOOD', 'DRINKS', and 'OTHER'. A receipt window is open on the left, showing the following items:

*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
Input		Total amount	
		2,998.80 ✓	

The main menu grid contains the following categories:

- Aperitif (Green)
- Starters (Red)
- Salads (Yellow)
- Dishes (Blue)
- Supplements (Green)
- Desserts (Blue)
- Fries (Green)
- Profiteroles (Black)
- Green Salad (Green)
- Cheesecake (Black)
- Hot Vegetables (Green)
- Creme Brulee (Black)
- Dessert Of The Day (Black)
- Menus (Pink)
- Sauces (Red)

The bottom navigation bar includes icons for Discount, Split order, Note, and Customer, along with a numeric keypad (0-9, +/-) and payment options: PIN (C) €, PIN (EFT) €, and CASH €.

If you want to exceed this amount now, a **pop-up** will appear telling you that you require the customer information to proceed and should rather split the order.

The screenshot shows the DISH POS interface for 'Table 18'. The top bar includes a menu icon, the text 'DISH POS * Table 18', a category selector with 'FOOD' selected, and navigation icons. The main area is divided into a list of items on the left and a grid of menu categories on the right. The items list shows '*Fries' (x588, 4.50, 2,646.00) and 'Mayonnaise' (x588, +0.60, +352.80). The total amount is 2,998.80. A pop-up message at the bottom states: 'The addition of this article is not allowed: Because required customer information is missing, this order can not be fiscalised. Please try again after splitting the order into orders with a total amount that doesn't exceed 3000 euros..'. The bottom navigation bar includes icons for Discount, Split order, Note, and Customer, along with a numeric keypad.

Item	Quantity	Unit Price	Total Price
*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
Total amount			2,998.80

- Click on **split order** to create the two smaller orders. After this you are able to proceed with adding new items to the order until you will again reach €3000.

-  Note: Currently, the total order amount must be considered. If it exceeds €3000, even with applied promotions, discounts, damages, personal consumption, etc. you will still need to split the table. This will be improved in the future.

The screenshot shows the DISH POS interface for 'Table 5'. The top bar includes a menu icon, the text 'DISH POS * Table 5', a '1' icon, and category buttons for 'FOOD', 'DRINKS', and 'OTHER'. On the right, there are navigation icons for back, search, and a menu.

A receipt summary window is overlaid on the left side, containing the following information:

Ticket Discount (1...	-300.00
*Raw Marinated S...	x250 12.00 3,000.00
Input	Total amount
<input type="text"/>	2,700.00 ✓

Below the receipt summary is a numeric keypad with the following layout:

Discount	Split order	Note	Customer
7	8	9	+/-
4	5	6	PIN (C) €
1	2	3	PIN (EFT) €
0	00	.	CASH €

The main menu grid consists of the following categories and items:

- Aperitif** (Teal)
- Starters** (Red)
- Salads** (Yellow)
- Dishes** (Blue)
- Raw Marinated Salmon** (Dark Grey)
- Bearnaise Steak And Fries** (Dark Grey)
- Burrata** (Dark Grey)
- Meat Of The Day** (Dark Grey)
- Classic Caesar** (Dark Grey)
- Fish Of The Day** (Dark Grey)
- Steak Tartare** (Dark Grey)
- Supplements** (Green)
- Desserts** (Blue)
- Menus** (Pink)
- Sauces** (Red)

As you can see in this new example, even with a discount applied, you are not able to add more items to the table and the same **pop-up** as before will appear.

The screenshot shows the DISH POS interface for 'Table 5'. The top bar includes a menu icon, the text 'DISH POS * Table 5', a warning icon, and category buttons for 'FOOD', 'DRINKS', and 'OTHER'. The main area is a grid of menu items categorized into 'Aperitif', 'Starters', 'Salads', 'Dishes', 'Supplements', and 'Desserts'. A 'Ticket Discount (1...)' of -300.00 is applied. The current order total is 2,700.00. A pop-up message at the bottom states: 'The addition of this article is not allowed: Because required customer information is missing, this order can not be fiscalised. Please try again after splitting the order into orders with a total amount that doesn't exceed 3000 euros..'. The bottom navigation bar contains icons for Discount, Split order, Note, and Customer, along with a numeric keypad.

i That's it! You now know how the **Factura Simplificada** works!
