You are now in the overview of your productions stations. Click on the **edit icon** of the production station whose ticket layout you want to change.

The screenshot displays the DISH POS interface. At the top, it shows 'DISH POS v3.80.0', '(V) DISH Video Demo ES', 'Dish Support', and 'Demo Dish'. A left-hand navigation menu includes options like 'Dashboard', 'Products', 'Finance', 'General', and 'Payment'. The main content area is titled 'production station (2)' and features a search bar, a 'Show 50 Records' dropdown, and a '+ Add production stations' button. Below this, a table lists production stations. The first row is 'Bar' and the second is 'Restaurant'. Each row has a menu icon, an edit icon (pencil), and a delete icon (trash). The edit icon for the 'Bar' station is highlighted with a red square. A small '1' is visible at the bottom center of the page.

A new window will open with the settings of the chosen production station. To set a ticket layout, use the corresponding **drop-down menu**.

The screenshot shows the DISH POS interface with the 'Edit production stations' window open. The window title is 'Production station' and the name is 'Bar'. The 'References' section includes 'Production attribute \*' set to 'Bar', 'Production printer name' set to 'BARPRINTER', 'Ticket layout\*' set to 'Default' (highlighted with a red box), 'Production ticket font size \*' set to 'Small', and 'Combine with' set to 'None'. The 'Settings' section has 'In use' checked and 'Share product information' unchecked. The 'Identification' section has 'Your reference' and 'ID' fields, with 'ID' containing the value '1'. The 'Locations\*' section shows '(V) DISH Video Demo ES' selected. The interface includes a 'Cancel' button and a 'Save' button.

When setting the layout to **Default**, same items on the ticket will be printed accumulated.

**Production station**

Name\* Bar

**References**

Production attribute\* Bar

Setting the ticket layout to **Merged** will accumulate the same items on the ticket and sort them based on courses and production follow order.

The screenshot shows the 'Edit production stations' interface in the DISH POS system. The sidebar on the left contains a search bar and a list of menu items: Dashboard, Products, Finance, General (selected), Production stations, Facilities, Cash stores, Printers, App links, Table map, Users, User groups, POS devices, Courses, Customers, Currency, Turnover categories, Translations, Packaging profiles, Scan services, and Payment. The main content area is titled 'Production station' and contains the following fields:

- Name\*: Bar
- References: Production attribute\* (Bar), + Create new attribute (Bar x)
- Locations\*: (V) DISH Video Demo ES
- Production printer name: BARPRINTER
- Ticket layout\*: Merged (highlighted with a red box)
- Production ticket font size\*: Small
- Combine with: None
- Settings: In use (checked), Share product information (unchecked)
- Identification: Your reference (empty), ID (1)

Buttons for 'Cancel' and 'Save' are located at the bottom of the form.

If the ticket layout is set to **Chronological**, the items will appear on the production ticket in order of implementation without being accumulated.

The screenshot shows the 'Edit production stations' modal in the DISH POS system. The modal is titled 'Production station' and has a search bar with the text 'Bar'. The 'References' section includes a 'Production attribute' dropdown set to 'Bar', a '+ Create new attribute' link, and a 'Bar x' button. The 'Locations' section shows a checked checkbox for '(V) DISH Video Demo ES'. The 'Production printer name' dropdown is set to 'BARPRINTER'. The 'Ticket layout\*' dropdown is highlighted with a red box and set to 'Chronological'. The 'Combine with' dropdown is set to 'None'. The 'Settings' section has a checked 'In use' checkbox and an unchecked 'Share product information' checkbox. The 'Identification' section has a 'Your reference' field and an 'ID' field with the value '1'. At the bottom, there are 'Cancel' and 'Save' buttons.

A note in addition when setting the ticket layout to chronological. When ordering in the POS, selecting multiple instances of the same article will display them as a single accumulated entry.

The screenshot shows the 'Edit production stations' interface in the DISH POS system. The left sidebar contains a navigation menu with options like Dashboard, Products, Finance, General, and Payment. The main content area is titled 'Production station' and shows the configuration for a station named 'Bar'. The 'Ticket layout' dropdown menu is highlighted with a red box and is set to 'Chronological'. Other settings include 'Production attribute' set to 'Bar', 'Production printer name' set to 'BARPRINTER', and 'Combine with' set to 'None'. The 'Settings' section has 'In use' checked and 'Share product information' unchecked. The 'Identification' section shows 'Your reference' and 'ID' fields.

To change the font size on the production ticket, use the given drop-down menu.

The screenshot displays the 'Edit production stations' interface in the DISH POS system. The left sidebar shows the navigation menu with 'General' selected, and 'Production stations' highlighted. The main content area shows the 'Production station' configuration form for a station named 'Bar'. The 'Production ticket font size' dropdown menu is highlighted with a red box, showing 'Small' selected. Other settings include 'Production attribute' set to 'Bar', 'Production printer name' set to 'BARPRINTER', 'Ticket layout' set to 'Default', and 'Combine with' set to 'None'. The 'Settings' section has 'In use' checked and 'Share product information' unchecked. The 'Identification' section has 'Your reference' and 'ID' fields, with 'ID' set to '1'. The 'Save' button is highlighted in orange.

You then can select between the options **Small**, **Medium** and **Large**. The standard font size on the tickets is the small size.

The screenshot shows the 'Edit production stations' interface in the DISH POS system. The left sidebar contains a navigation menu with options like Dashboard, Products, Finance, General, and Payment. The main content area is titled 'Production station' and shows the configuration for a station named 'Bar'. The 'Production ticket font size' dropdown menu is open, showing three options: 'Small', 'Medium', and 'Large'. The 'Small' option is highlighted with an orange background and a red border. Other settings include 'Production printer name' (BARPRINTER), 'Ticket layout' (Default), and 'Production attribute' (Bar). The 'Settings' section has 'In use' checked and 'Share product information' unchecked. The 'Identification' section has 'Your reference' and 'ID' (1) fields. At the bottom, there are 'Cancel' and 'Save' buttons.

Once you are done, click on **Save** to apply the changes.
