

Willkommen beim **DISH-Reservierungs-Dashboard**. In diesem Tutorial geben wir Ihnen einen Überblick über die Berichtsfunktion.

The screenshot displays the DISH Reservation Admin Panel interface. The top navigation bar includes the DISH RESERVATION logo, a notification bell, the user profile 'Test Bistro Training', a language selector (UK flag), and a help icon. The left sidebar contains a menu with options: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area features a teal banner with a message about walk-in customers and two buttons: 'WALK-IN' and 'ADD RESERVATION'. Below this is a date range selector showing 'Fri, 22 Sep - Fri, 22 Sep'. A summary box indicates 'There is 1 active limit configured for the selected time period' with a 'Show more' link. A filter bar shows 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled' filters, along with counts for 1 reservation, 3 guests, and 1/50 tables. A detailed reservation entry for 'Fri, 22/09/2023' at 02:45 PM for 'Doe, John' (3 guests, 1-2 Restaurant) is shown with a 'Confirmed' status and 'Allergies: Peanuts'. A 'Print' button is located below the entry. At the bottom, there is a footer with a 'Too many guests in house? Pause online reservations' message, a 'Designed by Hospitality Digital GmbH. All rights reserved.' notice, and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. A large yellow question mark icon is also present in the bottom right corner.
