

Bienvenue dans le **tableau de bord de réservation DISH** . Ce tutoriel vous présente la fonction de rapports.

The screenshot shows the DISH RESERVATION administration interface. On the left is a dark sidebar with navigation links: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area has a top header with the user name 'Test Bistro Training' and a language selector (UK flag). Below this is a teal banner with a message about walk-in customers and two buttons: 'WALK-IN' and 'ADD RESERVATION'. A date range selector shows 'Fri, 22 Sep - Fri, 22 Sep'. A summary bar indicates 'There is 1 active limit configured for the selected time period' with a 'Show more' link. Below this are filters for reservation status: All, Completed, Upcoming (selected), and Cancelled. Summary statistics show 1 reservation, 3 guests, and 1/50 tables. A table lists a reservation for 'Fri, 22/09/2023' at '02:45 PM' for 'Doe, John', with '3 guest(s)' and '1-2 (Restaurant)', status 'Confirmed'. It also lists 'Allergies: Peanuts' and has a 'Print' button. At the bottom, there's a footer with a 'Too many guests in house? Pause online reservations' message, a 'Designed by Hospitality Digital GmbH. All rights reserved.' notice, and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. A yellow question mark icon is also present in the bottom right corner.
