

Bun venit în tabloul de bord al **programului DISH Reservation**. În acest tutorial, vă vom arăta cum să gestionați setările de rezervare.

The screenshot displays the DISH Reservation admin dashboard. The interface features a dark sidebar on the left with navigation options: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area has a top header with the text "DISH RESERVATION" and a user profile "Test Bistro Training". Below this, a teal banner prompts users to add reservations with "WALK-IN" and "ADD RESERVATION" buttons. A date selector shows "Thu, 28 Sep - Thu, 28 Sep". A status bar indicates "There is 1 active limit configured for the selected time period" with a "Show more" link. Filter tabs for "All", "Completed", "Upcoming", and "Cancelled" are present, along with counts for "0" items in each category. The main area shows "No reservations available" with an illustration of a person looking through binoculars. At the bottom, there is a "Print" button, a "Too many guests in house? Pause online reservations" warning, and a footer with "Designed by Hospitality Digital GmbH. All rights reserved." and links for "FAQ", "Terms of use", "Imprint", "Data privacy", and "Privacy Settings".

Mai întâi, accesați **Setări** în meniul din stânga.
