

Welcome to the dashboard of **DISH Reservation**. In this tutorial, we show you how to manage your notification settings.

The screenshot shows the DISH Reservation Admin Panel dashboard. The top header includes the DISH RESERVATION logo, a notification bell, a user profile dropdown, a language selector (UK flag), and a refresh icon. The left sidebar menu contains the following items: Reservations (active), Table plan, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), and Integrations. The main content area features a teal banner with the text "Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!" and two orange buttons: "WALK-IN" and "ADD RESERVATION". Below the banner is a calendar view for "Thu, 28 Sep - Thu, 28 Sep". A summary box indicates "There is 1 active limit configured for the selected time period" with a "Show more" link. Below this are filters for reservation status: "All", "Completed", "Upcoming" (selected), and "Cancelled". To the right of these filters are counts: a calendar icon with "0", a group of people icon with "0", and a table icon with "0/37". The main content area is currently empty, displaying a large circular icon of a person with a magnifying glass and the text "No reservations available". At the bottom left of the main area is a "Print" button. The footer includes a status message "Too many guests in house? Pause online reservations" with a pause icon, the text "Designed by Hospitality Digital GmbH. All rights reserved.", and a row of links: "FAQ", "Terms of use", "Imprint", "Data privacy", and "Privacy Settings". A yellow question mark icon is located in the bottom right corner of the dashboard.

First, go to **Settings** on the menu to your left.
