

Bienvenue sur le tableau de bord de **DISH Reservation**. Ce tutoriel vous explique comment gérer vos paramètres de notification.

The screenshot displays the DISH Reservation admin interface. On the left is a dark sidebar with navigation links: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area has a top teal notification bar with the text 'Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!' and two buttons: 'WALK-IN' and 'ADD RESERVATION'. Below this is a date range selector showing 'Thu, 28 Sep - Thu, 28 Sep'. A summary bar indicates 'There is 1 active limit configured for the selected time period' with a 'Show more' link. Filter tabs for 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled' are present, along with counts for calendar, guests, and tables. The main reservation list area is empty, showing a magnifying glass icon and the text 'No reservations available'. At the bottom left, a status message says 'Too many guests in house? Pause online reservations' with a pause icon. The footer contains a 'Print' button, copyright information, and links for FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. A help icon is in the bottom right corner.

Tout d'abord, allez dans **Paramètres** dans le menu à votre gauche.

The main content area shows a large empty space with a circular icon of a person looking through binoculars and the text "No reservations available". At the bottom left of the main area is a "Print" button. At the bottom right is a yellow question mark icon. The footer contains the text "Designed by Hospitality Digital GmbH.
