The screenshot displays the DISH Reservation web application interface. The top navigation bar includes the "DISH RESERVATION" logo, a notification bell, the user profile "Test Bistro Training", a language selector (UK flag), and a refresh icon. The left sidebar contains a menu with the following items: Reservations (highlighted), Table plan, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), and Integrations. The main content area features a teal banner with the text "Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!" and two orange buttons: "WALK-IN" and "ADD RESERVATION". Below the banner is a date range selector showing "Wed, 18 Oct - Wed, 18 Oct" with navigation arrows and a calendar icon, and a service selector dropdown set to "All services". A message states "There is 1 active limit configured for the selected time period" with a "Show more" link. A filter bar shows "All" selected, with other options: "Completed", "Upcoming", and "Cancelled". To the right of the filters are icons for a checklist (0), a group of people (0), and a table (0/37). The main content area is empty, displaying a large circular icon of a person with a magnifying glass and the text "No reservations available". At the bottom left, there is a "Print" button and a notification "Too many guests in house? Pause online reservations" with a pause icon. The bottom right corner features a yellow question mark icon. The footer contains the text "Designed by DISH Digital Solutions GmbH. All rights reserved." and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings.
