The screenshot displays the DISH RESERVATION web application interface. The top navigation bar includes the DISH RESERVATION logo, a notification bell, the text "Test Bistro Training", a language selector (UK flag), and a refresh icon. The left sidebar contains a menu with the following items: Reservations (highlighted), Table plan, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), and Integrations. The main content area features a teal banner with the text "Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!" and two orange buttons: "WALK-IN" and "ADD RESERVATION". Below the banner is a date range selector showing "Wed, 18 Oct - Wed, 18 Oct" with navigation arrows and a calendar icon, and a dropdown menu for "All services". A message states "There is 1 active limit configured for the selected time period" with a "Show more" link. Below this is a filter bar with radio buttons for "All" (selected), "Completed", "Upcoming", and "Cancelled", and summary statistics: a calendar icon with "0", a group of people icon with "0", and a table icon with "0/37". The main content area shows a large white box with a circular icon of a person looking through binoculars and the text "No reservations available". At the bottom left, there is a "Print" button and a notification "Too many guests in house? Pause online reservations" with a pause icon. The bottom right corner features a large orange question mark icon. The footer contains the text "Designed by DISH Digital Solutions GmbH. All rights reserved." and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings.
