

The first step is to open the **DISH Order app** on your terminal.

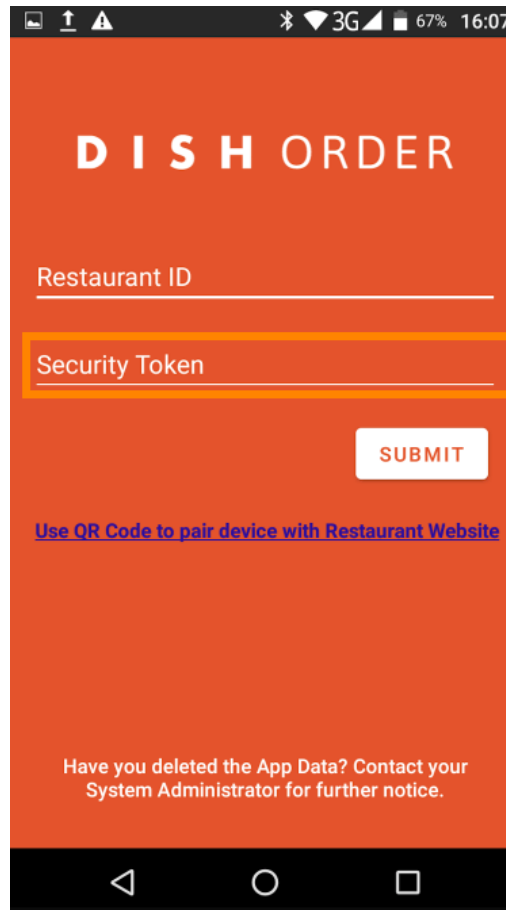

Now enter your **restaurant ID**. Note: You can find it in your admin panel. Please watch the video to get additional instructions <https://bit.ly/3td3gux>.

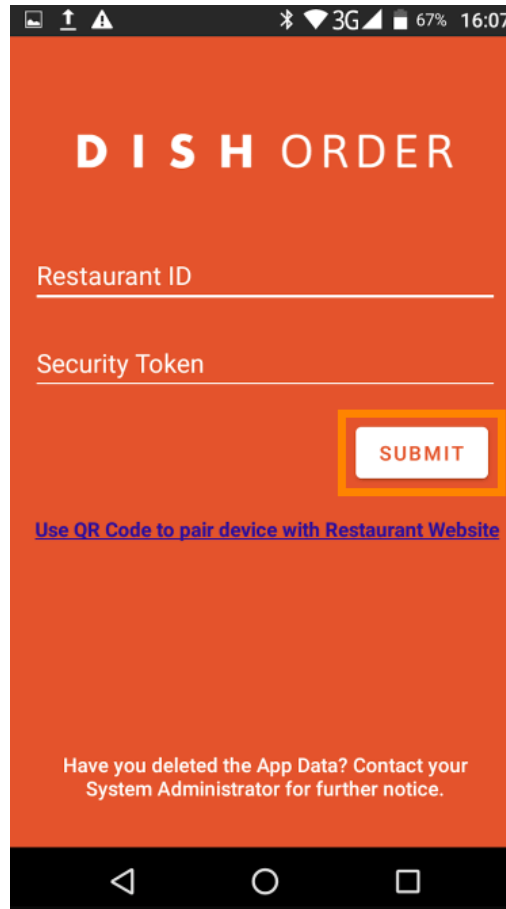

And afterwards your **security token**. Note: You can find it in your admin panel. It is the API key. Please watch the video to get additional instructions <https://bit.ly/3td3gux>.

The screenshot shows the DISH ORDER app interface on a mobile device. The status bar at the top indicates 3G connectivity, 67% battery, and the time 16:07. The app title "DISH ORDER" is displayed in white text on an orange background. Below the title, there are two input fields: "Restaurant ID" and "Security Token". The "Security Token" field is highlighted with a yellow border. To the right of the "Security Token" field is a white "SUBMIT" button. Below the input fields, there is a link that says "Use QR Code to pair device with Restaurant Website". At the bottom of the screen, there is a message: "Have you deleted the App Data? Contact your System Administrator for further notice." The Android navigation bar is visible at the very bottom.

Once you entered your information click on **submit** to log in.

The screenshot shows the DISH ORDER login interface on a mobile device. The screen has an orange background. At the top, the status bar shows icons for signal, battery, and time (16:07). The app title "DISH ORDER" is displayed in white. Below it are two input fields: "Restaurant ID" and "Security Token". A white "SUBMIT" button is highlighted with a yellow border. Below the button is a blue link: "Use QR Code to pair device with Restaurant Website". At the bottom, there is a message: "Have you deleted the App Data? Contact your System Administrator for further notice." The Android navigation bar is visible at the very bottom.

Alternatively click on the link to scan a QR code to log in. Note: the camera at the back of the order terminal will open and you scan your QR code. Please watch the video to get additional instructions <https://bit.ly/3td3gux>.

The screenshot shows the DISH ORDER app interface on a mobile device. At the top, the status bar displays various icons and the time 16:07. The app's title "DISH ORDER" is centered in white text on an orange background. Below the title are two input fields: "Restaurant ID" and "Security Token", each with a white underline. To the right of these fields is a white "SUBMIT" button. Below the input fields, a link "Use QR Code to pair device with Restaurant Website" is highlighted with a yellow border. At the bottom of the screen, a message reads: "Have you deleted the App Data? Contact your System Administrator for further notice." The Android navigation bar is visible at the very bottom.
