

El primer paso es abrir la **aplicación DISH Order** en tu terminal.

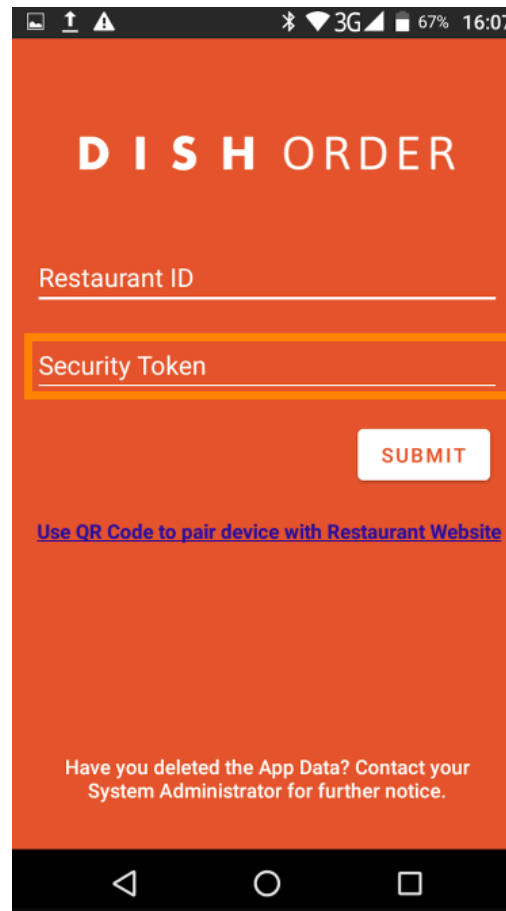

Ahora ingresa **el ID de tu restaurante** . Nota: Puedes encontrarlo en tu panel de administración. Mira el video para obtener instrucciones adicionales : <https://bit.ly/3td3gux> .

The screenshot shows the DISH ORDER app interface on a mobile device. The status bar at the top indicates 3G connectivity, 67% battery, and the time 16:07. The app has an orange background with the text "DISH ORDER" in white. Below the title, there is a text input field labeled "Restaurant ID" with an orange border. Underneath that is a "Security Token" label with a horizontal line for input. A white "SUBMIT" button is positioned to the right of the Security Token field. Below the button is a blue hyperlink that reads "Use QR Code to pair device with Restaurant Website". At the bottom of the screen, there is a small white text box with the message: "Have you deleted the App Data? Contact your System Administrator for further notice." The Android navigation bar is visible at the very bottom.

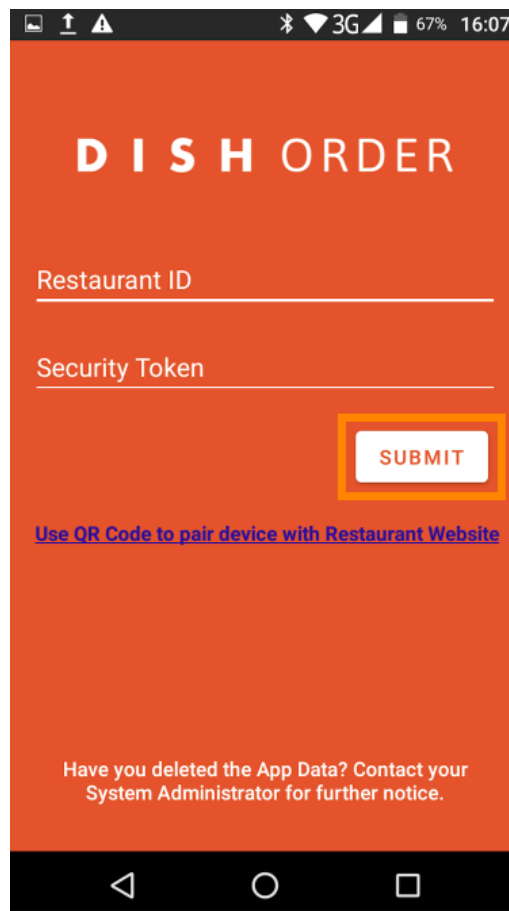

Y después, tu **token de seguridad** . Nota: Puedes encontrarlo en tu panel de administración. Es la clave API. Mira el video para obtener instrucciones adicionales : <https://bit.ly/3td3gux> .
