

Dobrodošli na nadzornu ploču **DISH Reservation**. U ovom vodiču pokazat ćemo vam kako promijeniti prioritet rezervacije stola.

The screenshot shows the DISH Reservation dashboard. The top navigation bar includes the DISH RESERVATION logo, a notification bell, the restaurant name 'Test Restaurant - Test', a language selector (UK flag), and a refresh icon. The left sidebar contains a menu with the following items: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), and Integrations. The main content area features a teal banner with the text 'Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!' and two buttons: 'WALK-IN' and 'ADD RESERVATION'. Below this is a date range selector showing 'Mon, 2 Oct - Mon, 2 Oct'. A message states 'You have no limits configured for the selected date.' with an 'Add a new limit' button. A filter bar shows 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled' filters, along with counts for a calendar icon (0), a group of people icon (0), and a table icon (0/5). The main area displays 'No reservations available' with an illustration of a person looking through binoculars. At the bottom left, there is a 'Print' button and a status message 'Too many guests in house? Pause online reservations' with a pause icon. The bottom right corner includes a help icon (question mark) and a footer with the text 'Designed by Hospitality Digital GmbH. All rights reserved.' and links for 'FAQ', 'Terms of use', 'Imprint', 'Data privacy', and 'Privacy Settings'.

If you choose to use seats-based setup, reservations will be managed according to the total number of seats available.

If you choose table-based setup, all reservations will be assigned one or more tables automatically. You will have the possibility to modify the automatically assigned tables. Only you can see the assigned tables. Your guests are not shown tables during the reservation process.

Area(s)

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc. Your active areas are listed below:

Restaurant

Table(s)

Tables are assigned to specific areas. When you pause a whole area, all tables assigned to that area will be paused. This may make some of your future reservations invalid. Don't worry, you can just move them to other available table(s). When you deactivate a table for "reservable online", reservations made online won't be assigned to this tables. You can also assign tables a booking priority between 1 (high) and 3 (low). The tables with high priority will be preferred for incoming reservations.
