

Welcome to the dashboard of **DISH Reservation**. In this tutorial, we show you how to integrate the reservation tool into Google Business.

The screenshot shows the DISH Reservation dashboard. The top header includes the logo, a user profile 'Test Bistro Training', a language selector (UK flag), and a help icon. The left sidebar contains navigation links: Reservations, Table plan, Menu, Guests, Feedback, Reports, Settings, and Integrations. The main content area features a teal notification bar at the top with the text 'Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!' and two buttons: 'WALK-IN' and 'ADD RESERVATION'. Below this is a date range selector showing 'Thu, 28 Sep - Thu, 28 Sep'. A status bar indicates 'There is 1 active limit configured for the selected time period' with a 'Show more' link. Below the status bar are filter buttons: 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled'. To the right of these filters are icons for a calendar (0), guests (0), and a table (0/37). The main content area displays a large circular icon of a person with a magnifying glass and the text 'No reservations available'. At the bottom left, there is a 'Print' button and a notification 'Too many guests in house? Pause online reservations' with a pause icon. At the bottom right, there is a help icon (question mark) and a footer with links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. The footer also includes the text 'Designed by Hospitality Digital GmbH. All rights reserved.'

First, go to **Settings** on the menu to your left.
