

If you start DISH Order app for the first time, you will see this screen. Click on "Start Terminal Setup" to connect your DISH Order webshop with your website. If you have already made the first start, please follow the instructions in the next step.

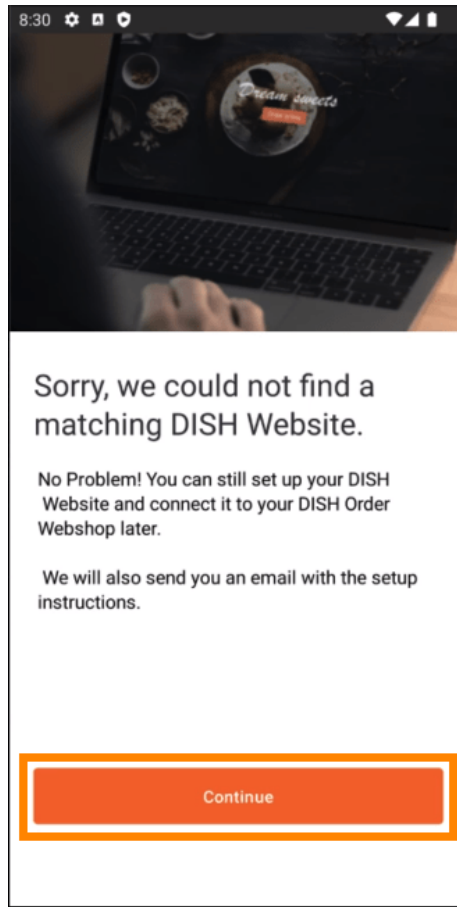

If you are on the initial setup, please skip this page and go to page 3. If you have already made the first start, go to the navigation -> "Settings" and click on "**CONNECT WEBSITE**" to start the process.

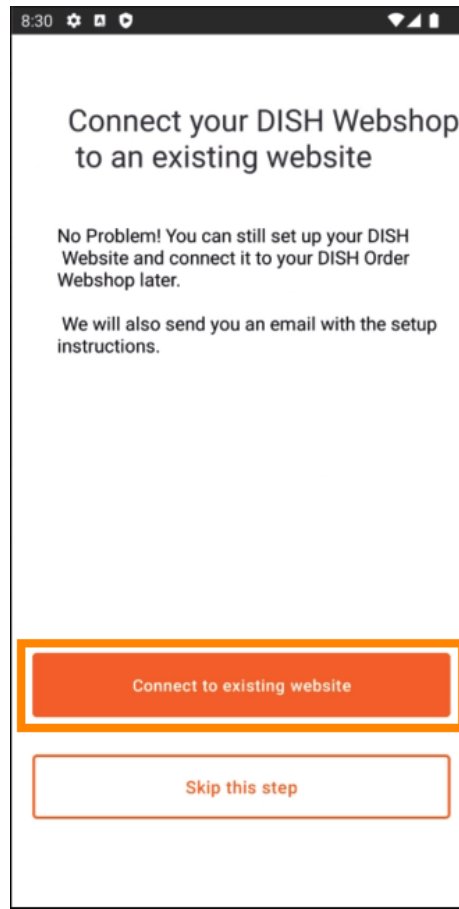

The screenshot shows the 'Settings' screen of the DISH app. At the top is a black header with a back arrow and the word 'Settings'. Below this are several settings sections: 'Language' (English), 'Average Meal Preparation Time' (30 minutes with a 'SUBMIT' button), 'Notifications' (toggle for 'Custom notification time' is off, and a slider for 'Duration of notification in minutes' is set to 2), 'Print receipt' (dropdown menu set to 'Manually'), and 'Connect Website' (a button labeled 'CONNECT WEBSITE' is highlighted with an orange border). The bottom of the screen shows the Android navigation bar.

 If no matched website was found, please click on "Continue".

-  You now have the option to connect it later. In this case we will send you an email with the instructions and generate your individual HTML snippet, which is linked to your DISH Order webshop. Click on "[Connect to an existing website](#)".

 Please fill in your **Email address**.
