

Bun venit în **tabloul de bord DISH**. În acest tutorial, vă vom ghida prin procesul de integrare a programului DISH Reservation.

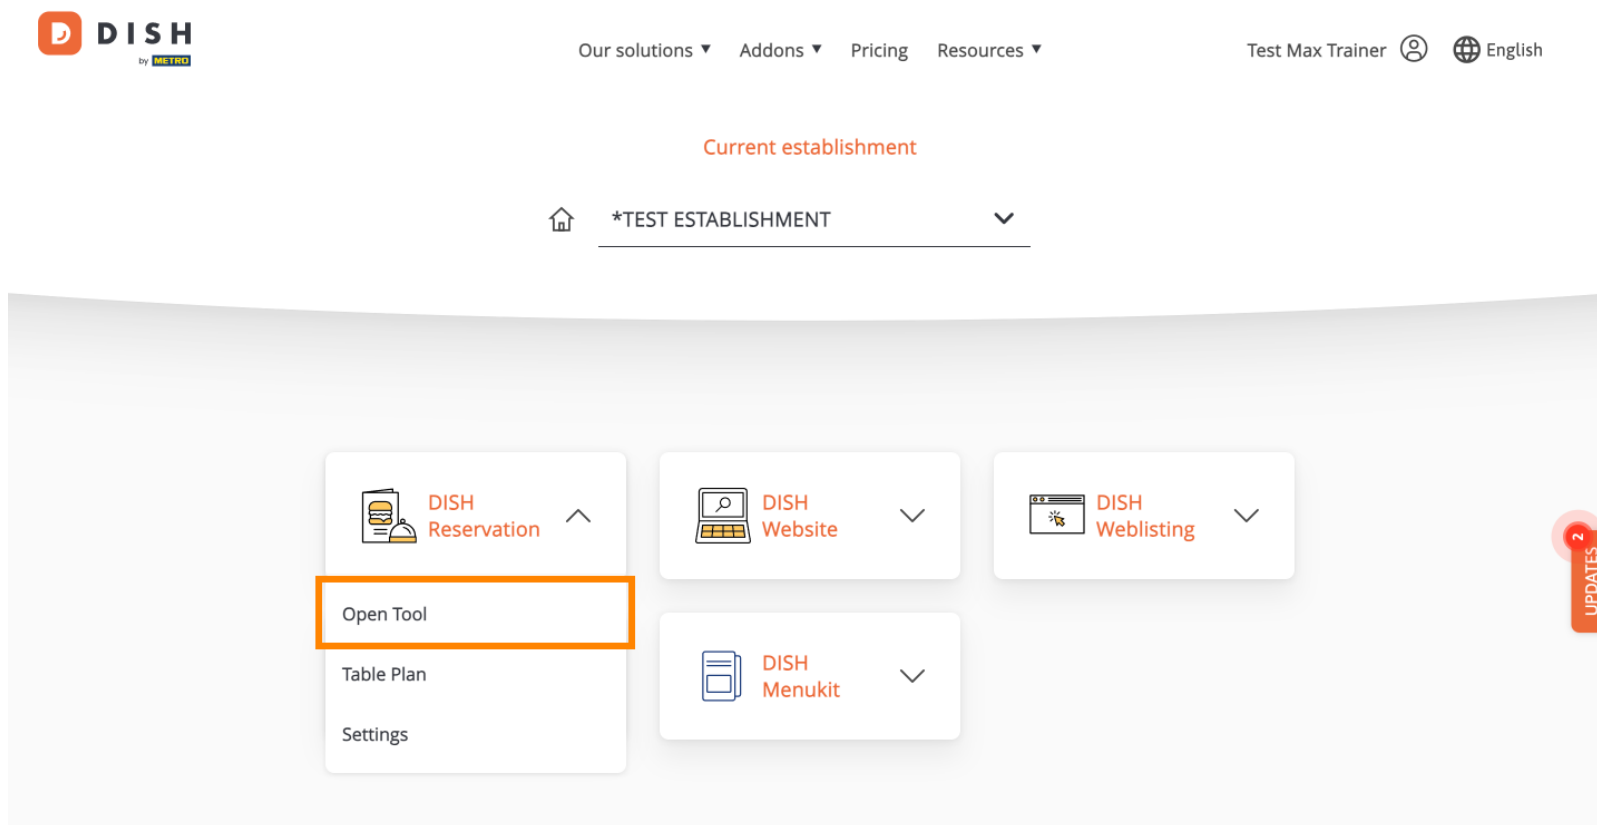

După ce ați ales pachetul DISH, instrumentele vor apărea în tabloul de bord. Faceți clic pe **Rezervare DISH** pentru a deschide opțiunile.

Apoi selectați **Deschidere instrument** pentru a începe configurarea rezervării DISH.

Din moment ce ai cumpărat uneltele proaspăt, toate trebuie configurate.

### Step 1: Define area(s)

If your establishment has multiple areas or rooms, you may want to define an area before you start assigning tables to it. e.g.: Indoor, Outdoor, Bar, Lounge, etc.

| Area Name                              | Active                                                                    |
|----------------------------------------|---------------------------------------------------------------------------|
| <input type="text" value="Area Name"/> | <input checked="" type="checkbox"/> <input type="button" value="Delete"/> |

Would you like to add more areas?

### Step 2: Define Table(s) - Total Seats: 0

|                                         |                                    |                                        |                                                                           |
|-----------------------------------------|------------------------------------|----------------------------------------|---------------------------------------------------------------------------|
| <input type="text" value="Table Name"/> | <input type="text" value="Seats"/> | <input type="text" value="Area Name"/> | <input checked="" type="checkbox"/> <input type="button" value="Delete"/> |
|-----------------------------------------|------------------------------------|----------------------------------------|---------------------------------------------------------------------------|

Pentru a adăuga zone suplimentare, pur și simplu faceți clic pe **Adăugare**.

You have the option to choose between seat-based and table-based setup.

Acum, aplicația DISH Reservation este gata de utilizare și puteți accesa tabloul de bord al acesteia făcând clic pe **Dashboard (Panou de bord)**.

Asta e tot. Ai finalizat tutorialul și ai configurat cu succes rezervarea DISH.

The screenshot displays the DISH RESERVATION web application interface. The top navigation bar includes the DISH logo, a notification bell, the establishment name '\*Test Establishment', a language selector (UK flag), and a refresh icon. The left sidebar contains a menu with the following items: Reservations (highlighted), Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), and Integrations. The main content area features a teal banner with the text 'Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!' and two orange buttons: 'WALK-IN' and 'ADD RESERVATION'. Below this is a date selector showing 'Tue, 24 Oct - Tue, 24 Oct'. A message states 'You have no limits configured for the selected date.' with an 'Add a new limit' button. A filter bar shows 'All' selected, with other options 'Completed', 'Upcoming', and 'Cancelled'. It also displays counts: a calendar icon with '0', a group of people icon with '0', and a fork and knife icon with '0/3'. The main content area shows a large empty space with a circular icon of a person looking through binoculars and the text 'No reservations available'. At the bottom left, there is a 'Print' button and a notification 'Too many guests in house? Pause online reservations' with a pause icon. The footer contains the text 'Designed by DISH Digital Solutions GmbH. All rights reserved.' and a list of links: FAQ, Terms of use, Imprint, Data privacy, and Privacy Settings. A yellow question mark icon is located in the bottom right corner.
