The screenshot shows the 'Location Edit' interface in the DISH system. The left sidebar contains a navigation menu with categories: DASHBOARD, RESTAURANT (expanded), KITCHEN, SALES, MARKETING, USERS, LOCALISATION, TOOLS, and SYSTEM. The 'RESTAURANT' section is expanded, showing 'Locations' and 'Legal Information'. The main content area is titled 'Location Edit' and contains a form for editing restaurant information. The form is divided into several sections: 'Name of the Restaurant' (Restaurant Daniele), 'Email' (j.doe@test.de) and 'Telephone' (+4912345678900), 'Establishment ID' (998877665544332211) and 'Logo' (placeholder), 'Header image' (placeholder) and 'Webshop Status' (Enabled), 'Subscription Status' (Active) and 'Address 1' (Metrostr. 1), 'Address 2' (placeholder) and 'City' (Düsseldorf), 'State' (placeholder) and 'Postcode' (40235). The 'Save & Close' button is highlighted with an orange box. A help icon (?) is visible in the bottom right corner.

Voilà, c'est fait.

The screenshot displays the 'Locations' management interface. A green notification banner at the top states 'Location updated successfully'. Below this, a table lists restaurant locations. The table has columns for NAME, CITY, OFFER DELIVERY, OFFER PICK-UP, STATUS, and LINK. One entry is visible: 'Restaurant Danielo' in 'Düsseldorf', with 'Enabled' status for both delivery and pick-up, and a 'Link' field.

	NAME	CITY	OFFER DELIVERY	OFFER PICK-UP	STATUS	LINK
☐	Restaurant Danielo	Düsseldorf	Enabled	Enabled	Enabled	Link

At the bottom of the interface, there is a 'Items Per Page' dropdown set to '100' and a help icon (question mark) in the bottom right corner.
