

Welcome to the DISH POS app. In this tutorial, we show you how to adjust the stock information of a product.

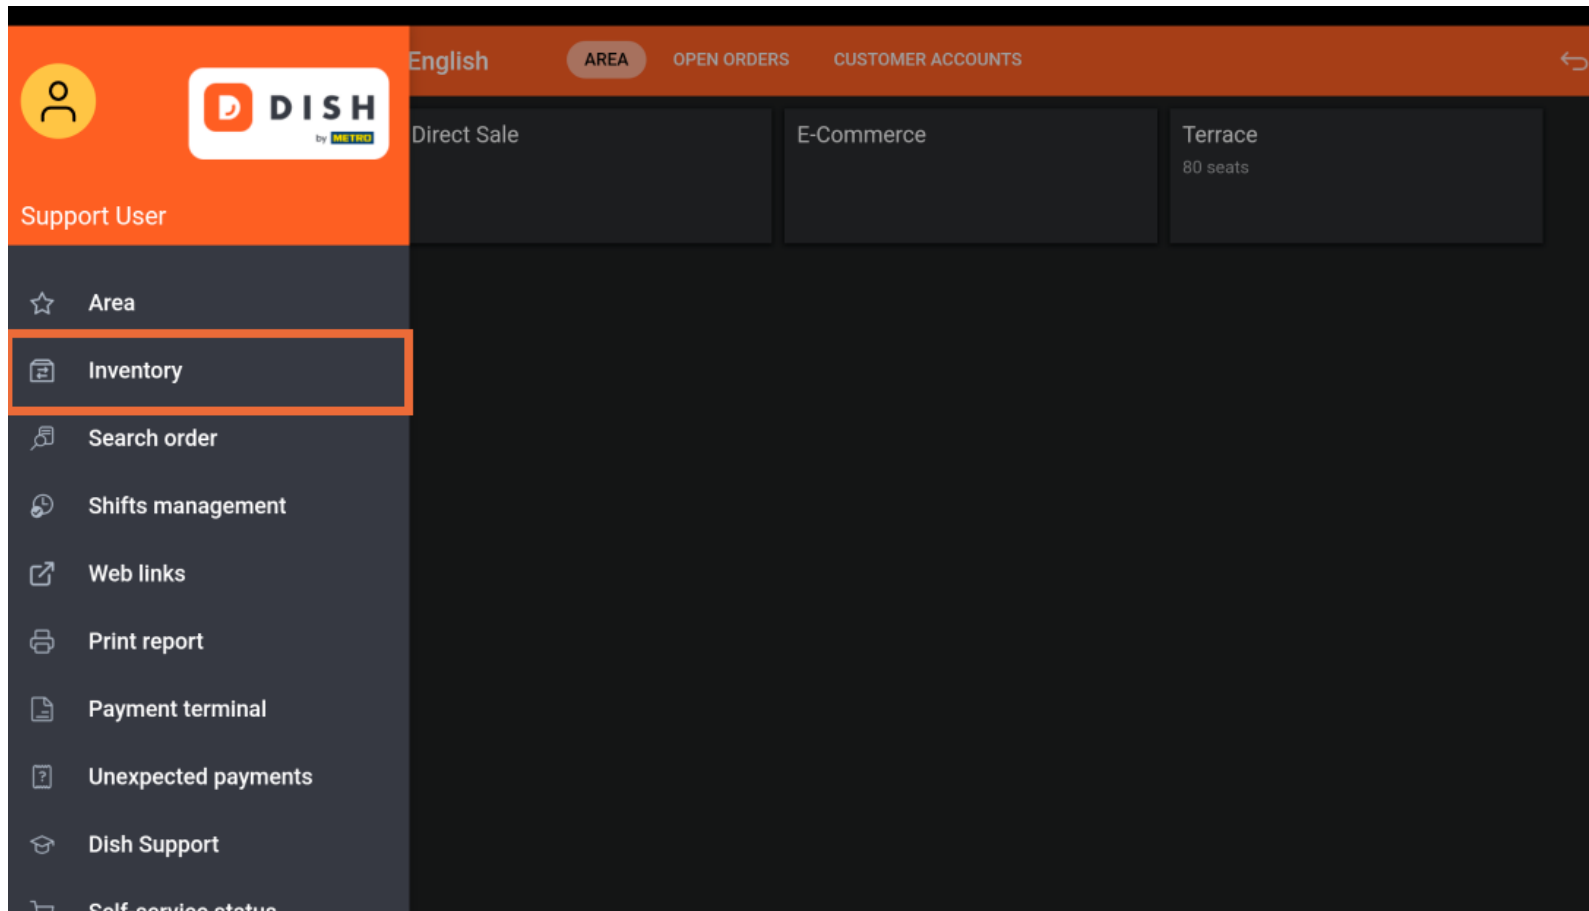

First, open the **menu**.

Then select **Inventory**.

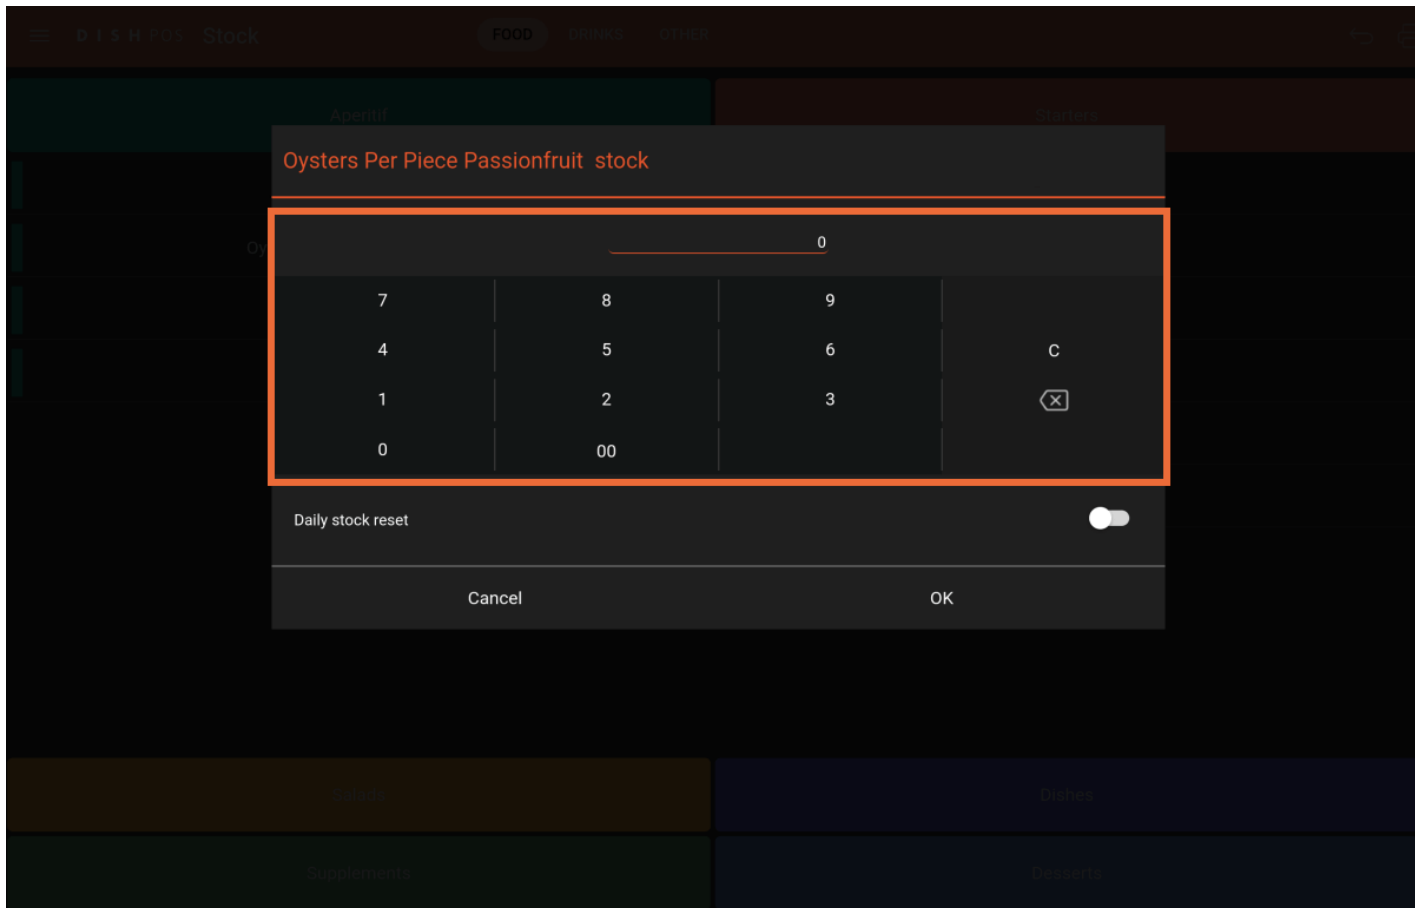

You are now in the overview of your products. Select the **product** which you want to adjust the stock information of.

DISH POS Stock		FOOD	DRINKS	OTHER		
Aperitif			Starters			
Oysters Each			Steak Tatare			
Oysters Per Piece Passionfruit			Eendenlever			
Caviar (10gr.)			Octopus			
Iberico (100gr.)			Sweetbreads			
			Green Asperges			
			Lobster Soup			
Salads			Dishes			
Supplements			Desserts			

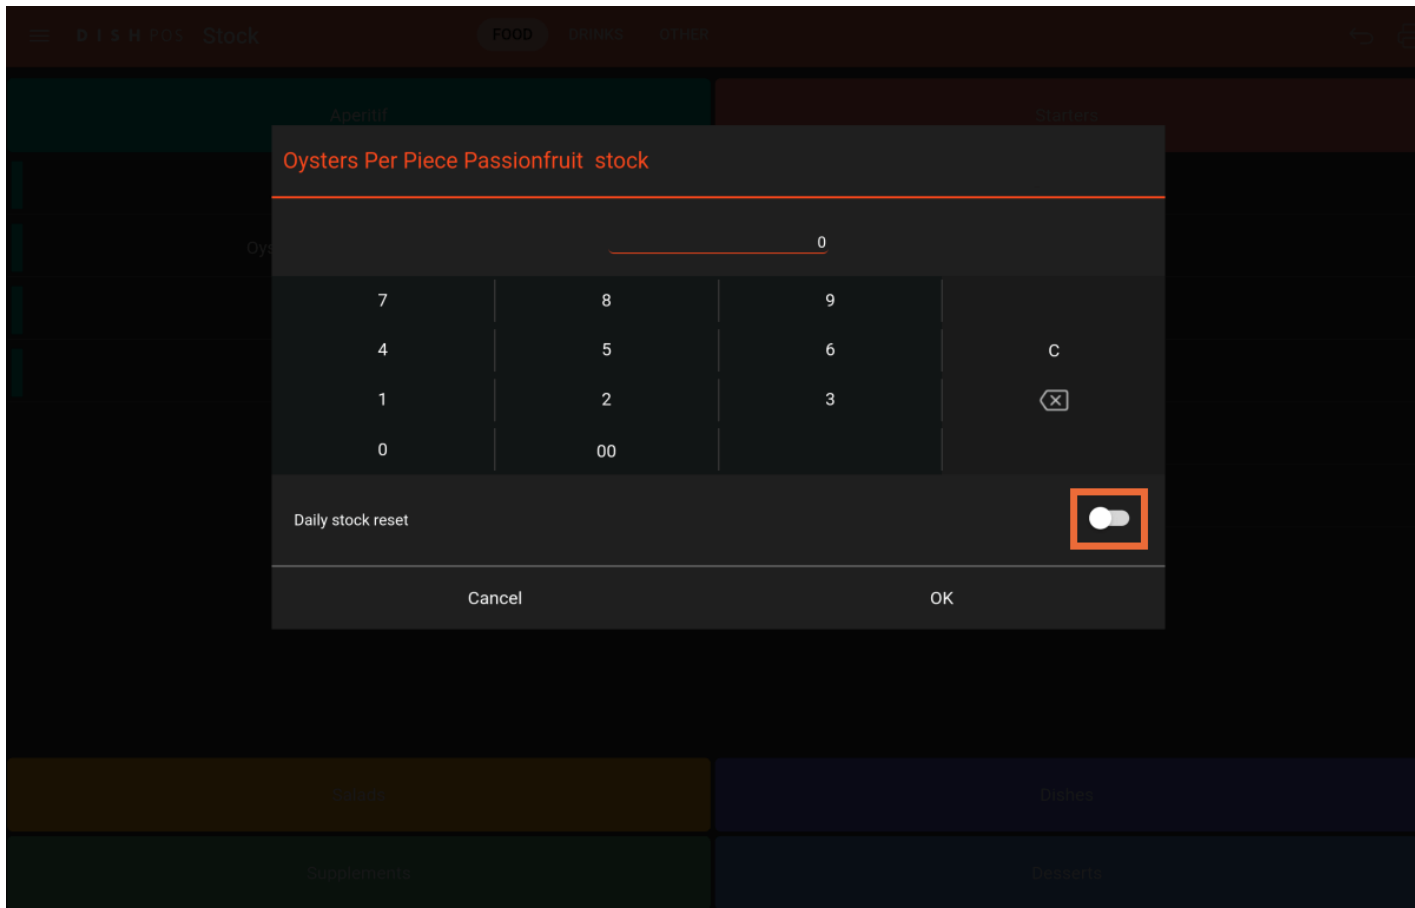

A new pop-up will then be displayed to enter the new stock. Use the **input field** to set the new stock.

The screenshot shows the DISH app interface with a dark theme. A pop-up window is centered on the screen, titled "Oysters Per Piece Passionfruit stock". The pop-up contains a numeric input field with the value "0". Below the input field is a numeric keypad with digits 0-9, a decimal point (.), and a clear button (X). At the bottom of the pop-up, there is a toggle switch for "Daily stock reset" which is currently turned off. The background of the app shows a menu with categories like "Aperitif", "Starters", "Salads", "Dishes", "Supplements", and "Desserts".

- If the stock needs to be reset daily, enable the corresponding **slider**.

Then confirm your changes by tapping on **OK**.

Oysters Per Piece Passionfruit stock
