

Welcome to the DISH POS app. In this tutorial, we show you how to close shifts.

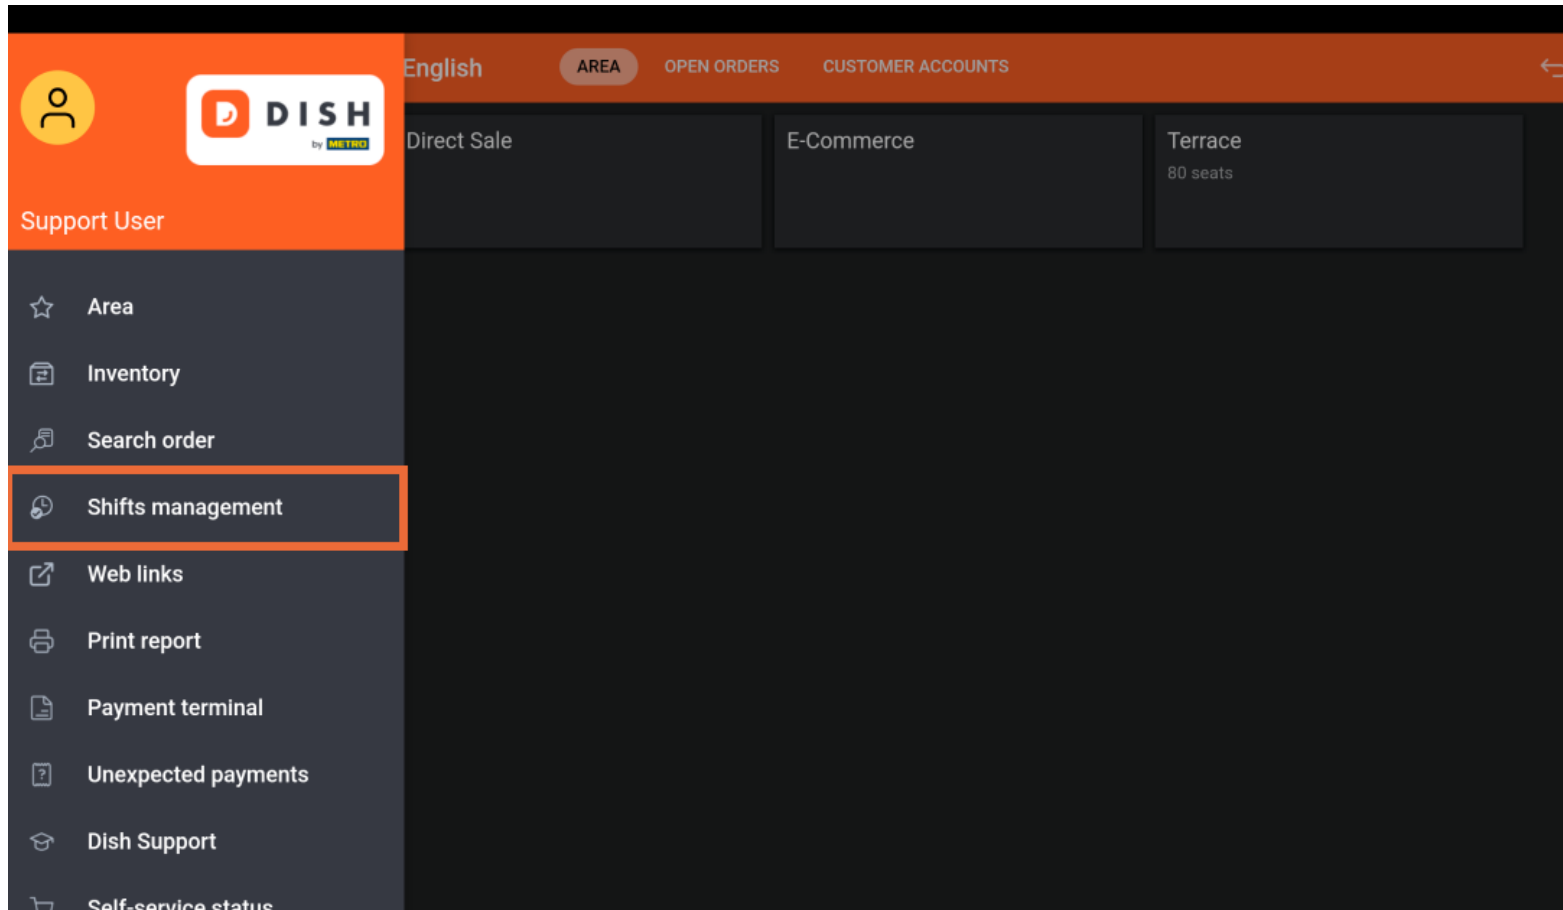

First, open the **menu**.

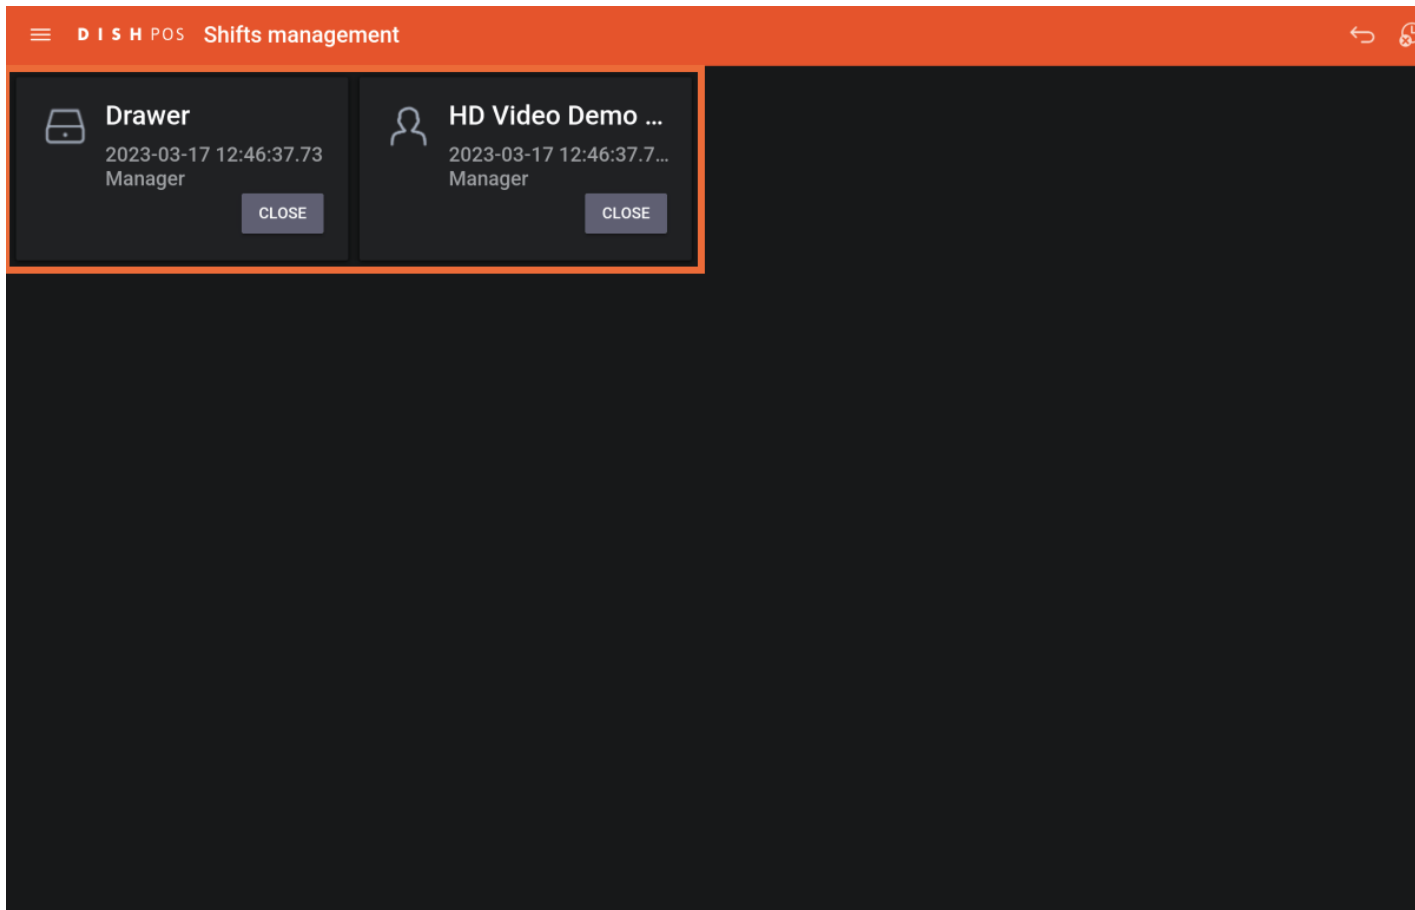

Then tap on **Shifts management**.

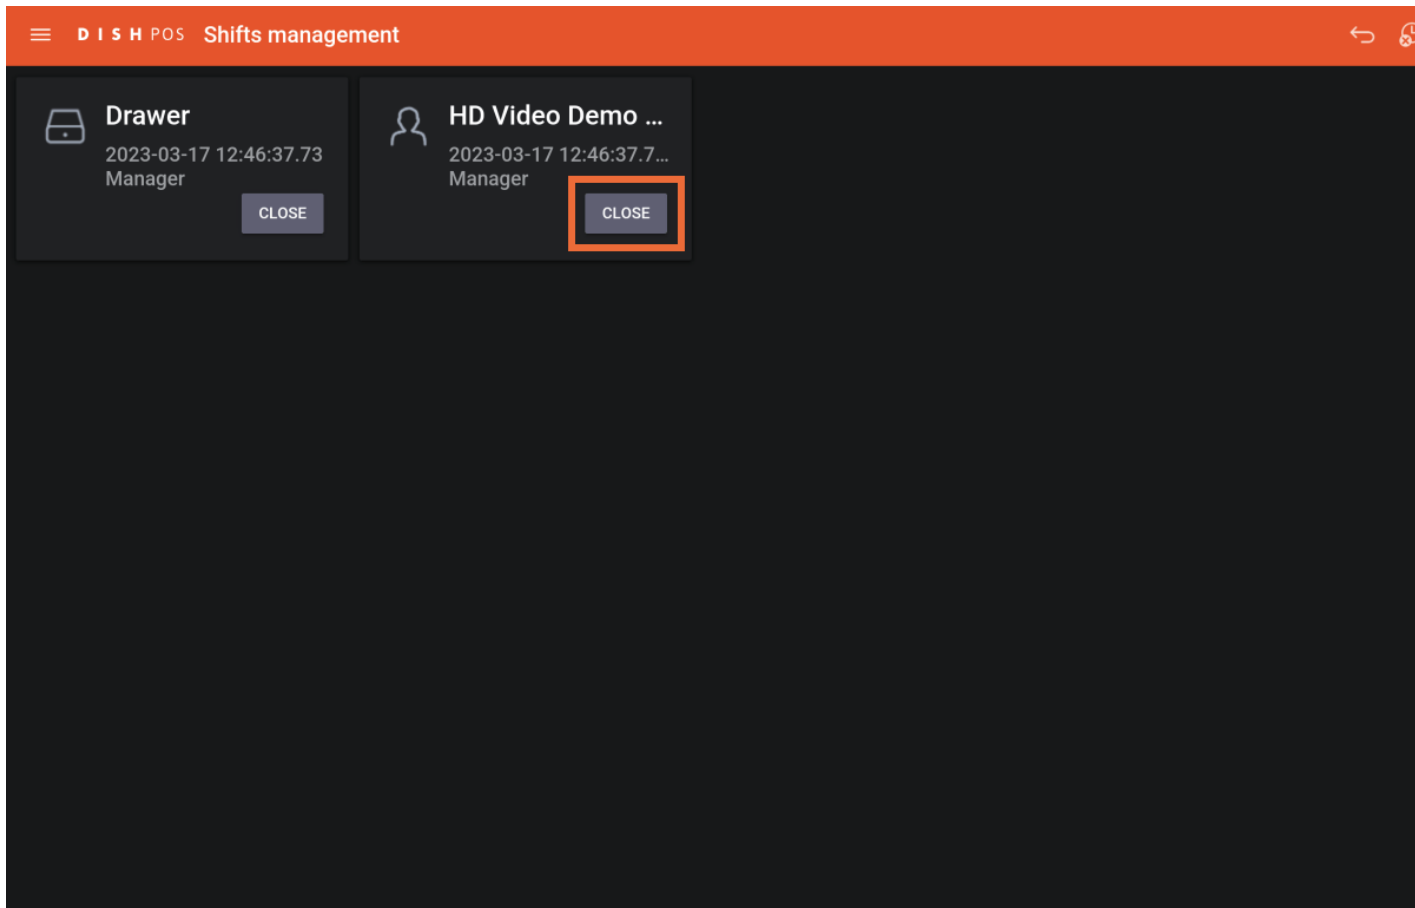

Every shift has a drawer and a waiter connected. Multiple waiters can connect to the same drawer.
Note: If you want to count your drawer you can close the drawer shift, if it is refused it will start from scratch.

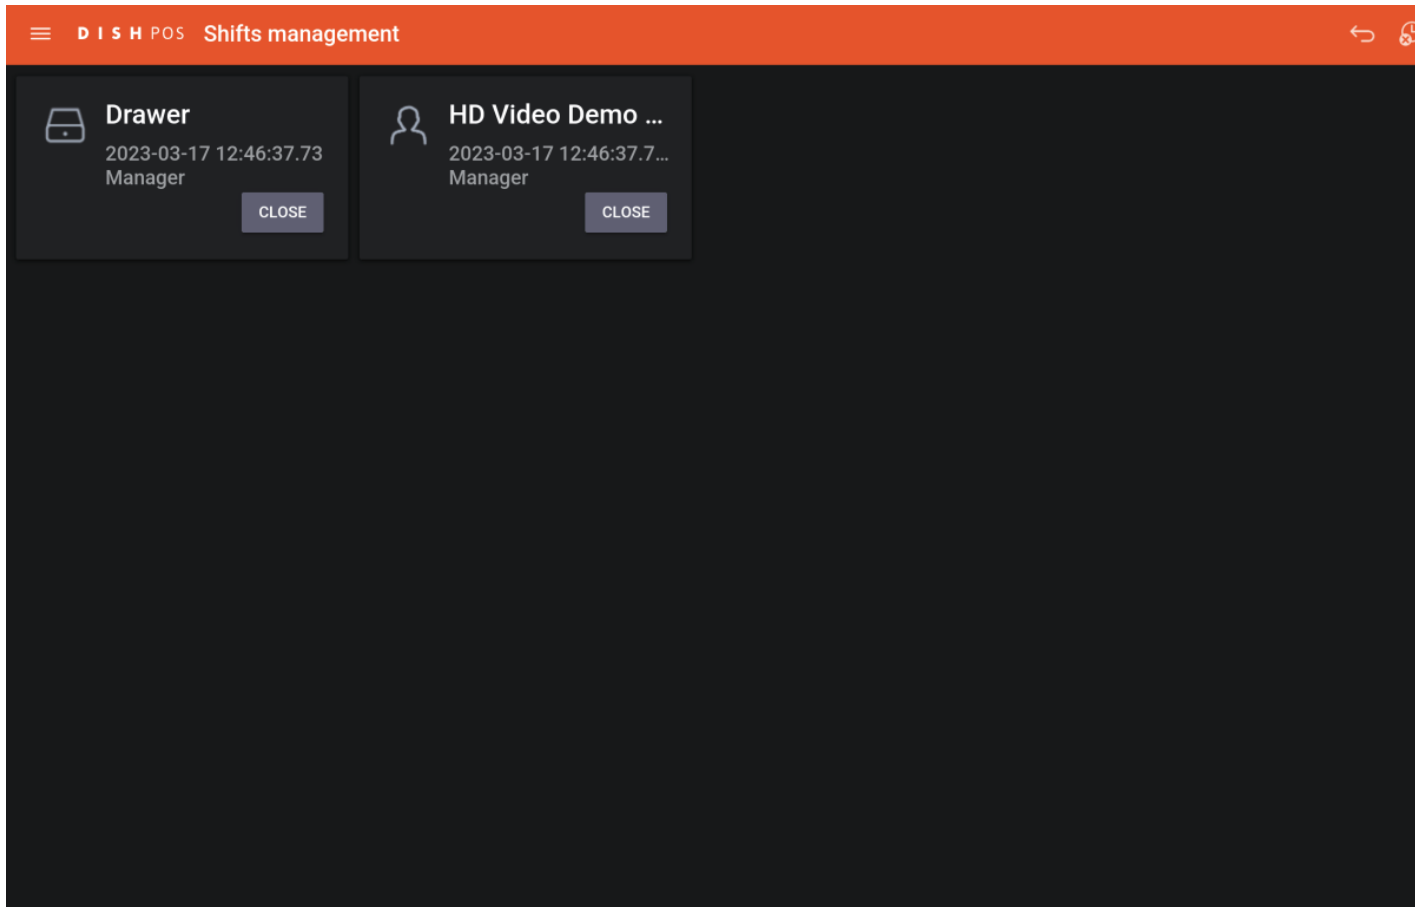

To terminate the shift of a user/waiter, tap on **CLOSE**.

That's it. You completed the tutorial and now know how to close shifts.
