The screenshot shows the DISH POS v2.49.0 interface. The top navigation bar includes the DISH POS Tutorials logo, an update availability indicator, and a user profile dropdown for dish_en_video@hd.digital. The left sidebar contains a menu with categories like Dashboard, Articles, Finances, and General. The General section is expanded, showing options like General, Production stations, Facilities, Cash stores, Printers, App links, Table map, Users, Usergroups, POS devices, Courses, and Customers. The main content area is titled 'Facilities' and features a search bar, two buttons ('+ Generate area' and '+ Add facility'), and a list of facilities. A warning message states: 'Be extra careful when you use QR ordering through CMS: QR codes are linked to facilities. Once created, these QR codes cannot be reassigned to a different facility.' The list shows one facility, 'HD Video Demo English', which is highlighted with a yellow background and has a pencil icon next to it, indicating it is editable.

Una vez que hayas decidido tu subinstalación, utiliza el **ícono de edición** para ajustar su configuración.
