After splitted order payment go to
Order

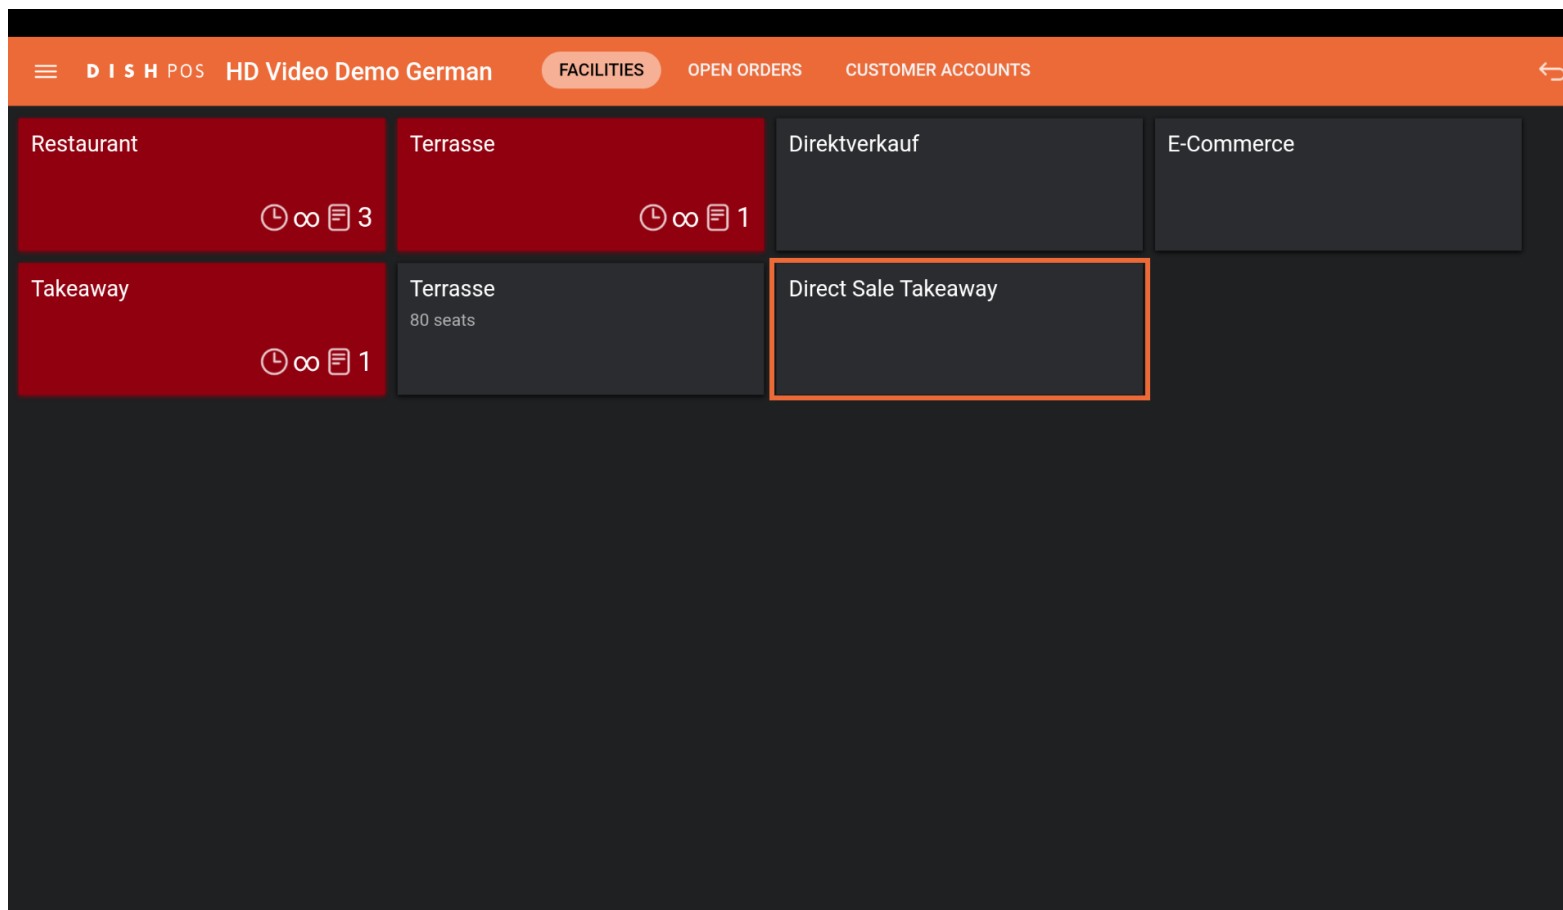

Go back to facilities screen

Tap the "**back arrow**" to return to the main screen.

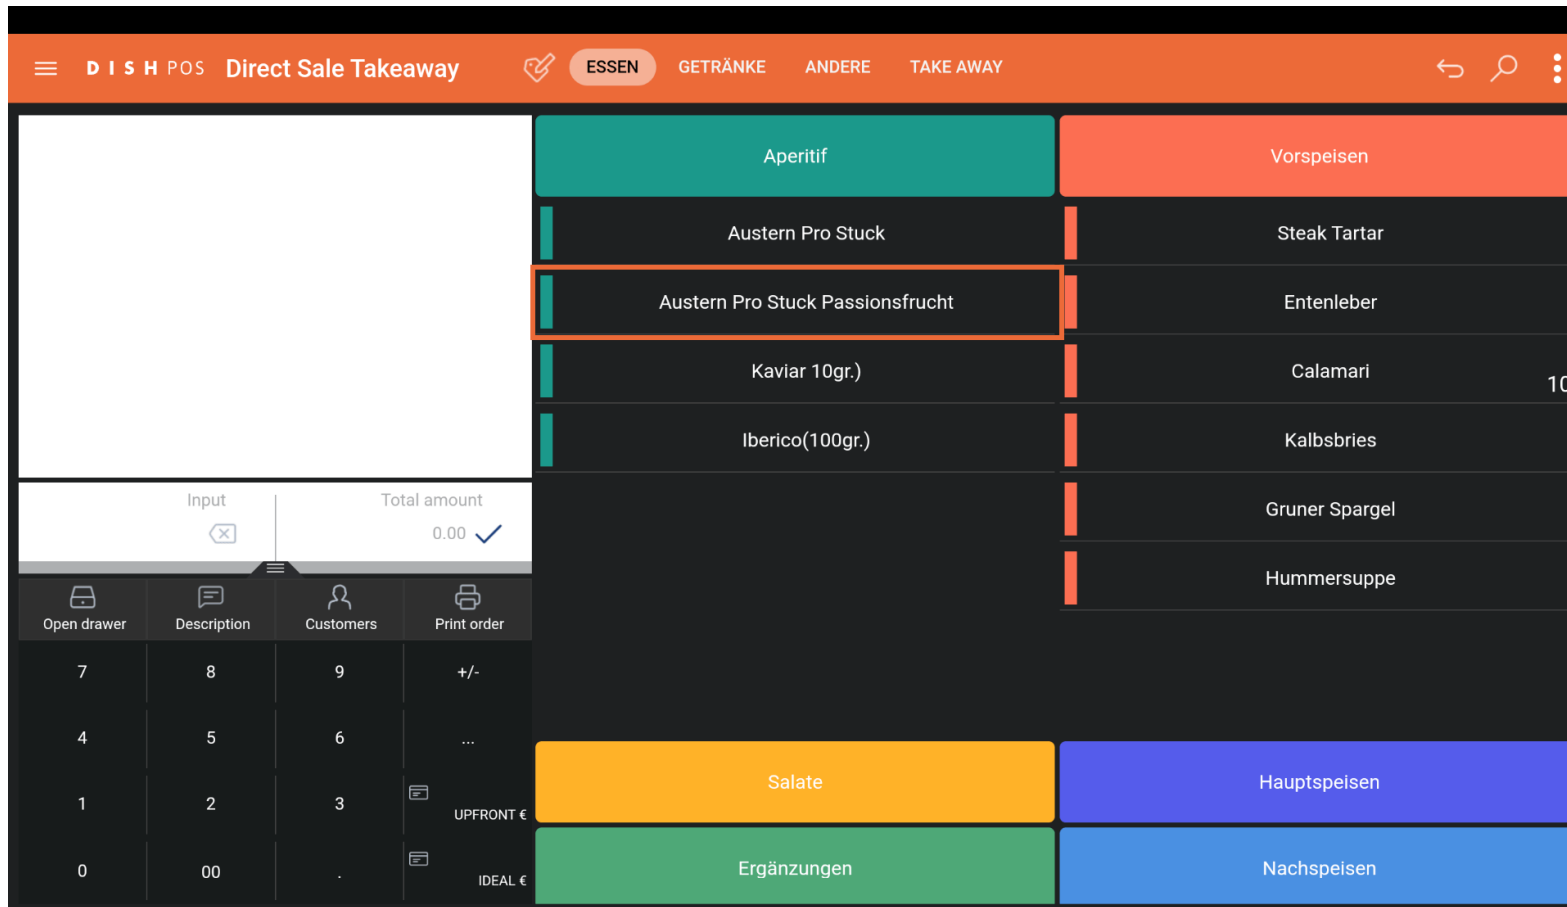

Now tap on your new facility. In this case, **Direct Sale Takeaway**.

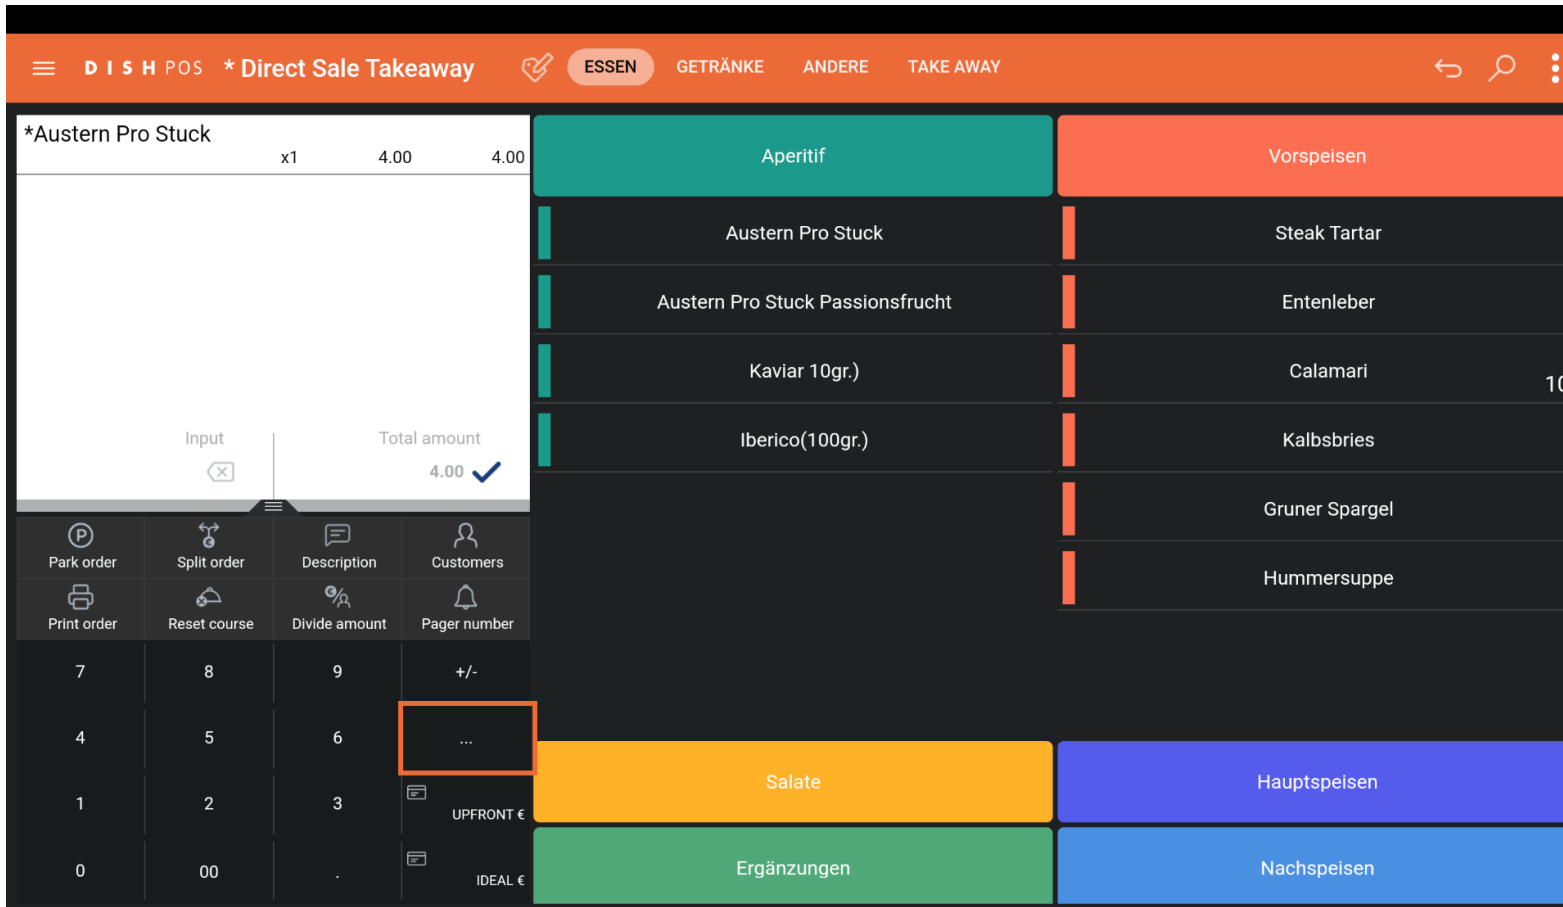

Choose an **article**.

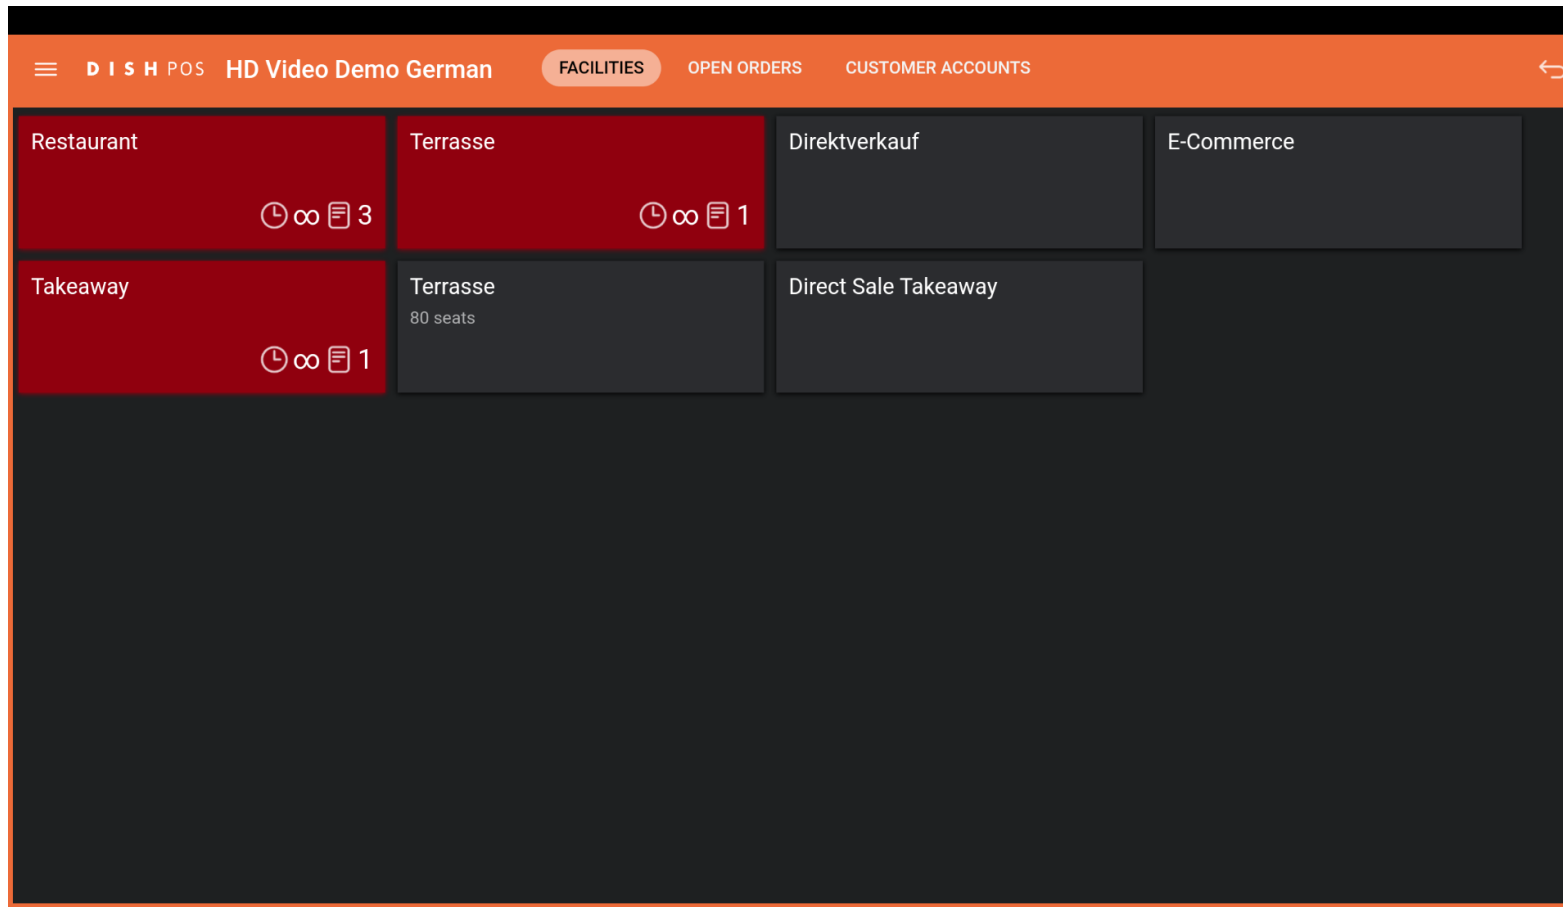

Choose a **payment method**.

The screenshot shows the DISH POS app interface for a Direct Sale Takeaway order. The top bar is orange and displays the app name and navigation icons. Below the bar, the order list shows the item '*Austern Pro Stuck' with a quantity of 1 and a price of 4.00. The total amount is 4.00. The bottom section contains a numeric keypad and buttons for 'Park order', 'Split order', 'Description', 'Customers', 'Print order', 'Reset course', 'Divide amount', and 'Pager number'. A red box highlights the '...' button in the numeric keypad. The right side of the screen displays a list of menu items categorized by course: Aperitif, Vorspeisen, Hauptspeisen, and Nachspeisen.

The article has now been posted and you have been directed back to the main page. That was it. You have successfully changed the POS payment method.
