The fiskaltrust Portal

The Portal is the primary tool for fiskaltrust's partners to manage customers, create and update Middleware configurations, and roll-out and maintain products.

Lift your POS to the cloud with the CloudCashbox

Our CloudCashbox (previously called SignatureCloud) is the cloud-hosted, SaaS version of the Middleware. It provides the exact same interface and functionality as the on-premise version, but is fully operated by fiskaltrust, drastically reducing the operational effort. Like the on-premise variant, it includes fiscalization, the digital receipt, and the upcoming payment gateway - and can seamlessly be integrated with other add-on products like automatic accounting interfaces.
