

Welcome to the DISH POS app. In this tutorial, we show you how to send your customer a digital receipt.

First, select the corresponding **table**.

- Once your customer is ready chose the payment method he would like to pay with. In this example we chose **cash**.

If you have set up the digital receipt in the back-office (click [here](#) for how to set up the digital receipt) a QR code will appear your customer can scan to receive his receipt digitally.

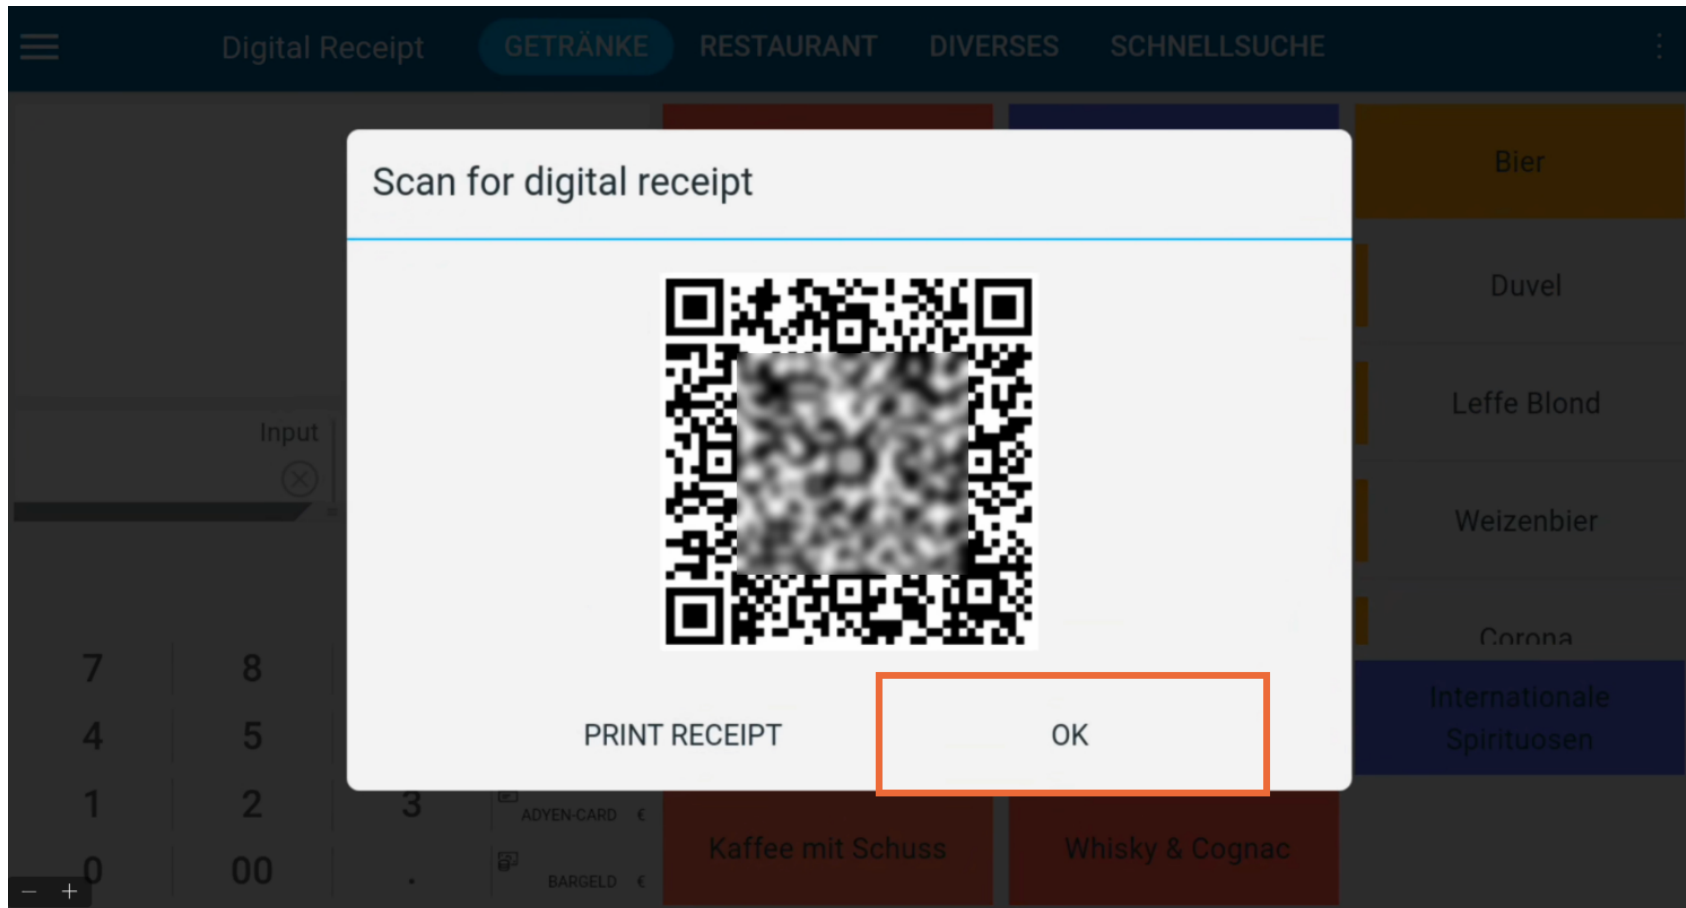

In case you need a print-out tap **PRINT RECEIPT**.

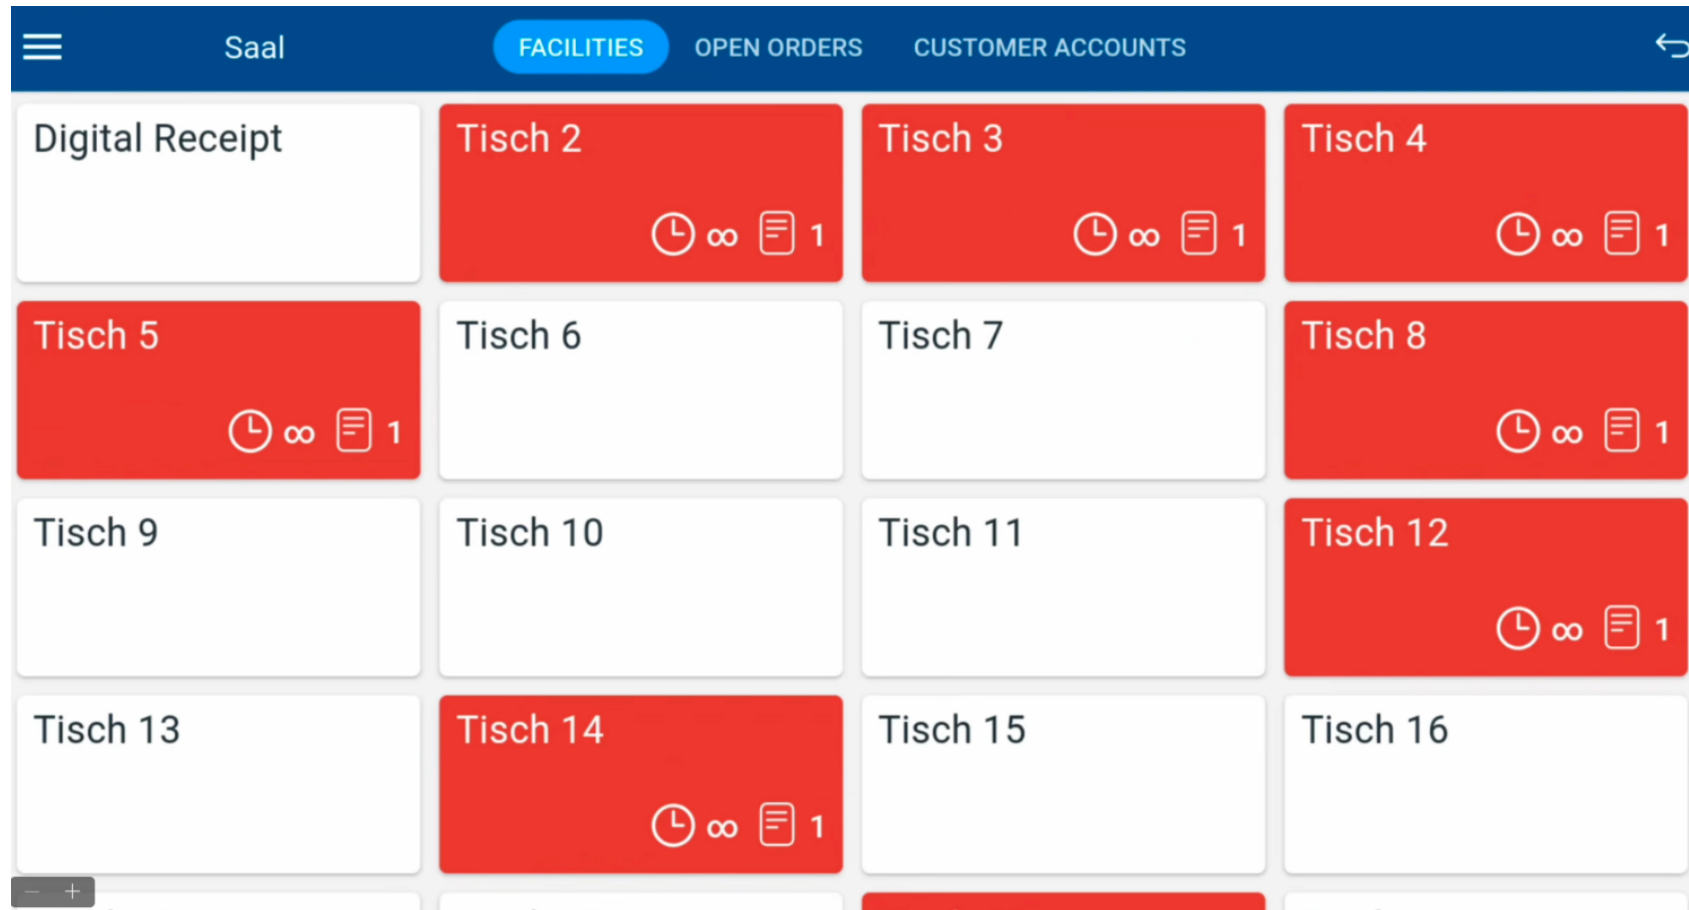

Once everything is set tap **OK** to close the table.

That's it! You have finished the tutorial und now know how to send your customer a digital receipt.
