

Welcome to DISH Reservation. In this tutorial, we will show you how to change the **SMS Settings in DISH Reservation Admin Panel**.

After opening your DISH Reservation admin panel, click **Settings**.

Next, click **Notifications**.

The screenshot displays the DISH RESERVATION Admin Panel interface. On the left, a dark sidebar contains a list of navigation items: Reservations, Menu, Guests, Feedback, Reports, Settings (with a dropdown arrow), Hours, Reservations, Tables/Seats, Reservation limits, Offers, **Notifications** (highlighted with an orange border), Account, and Integrations. The main content area has a dark header with the text 'DISH RESERVATION' and a 'Tutorial-SMS Pack' dropdown. Below the header, a teal banner reads 'Have a walk-in customer? Received a reservation request over phone / email? Don't forget to add it to your reservation book!' with an 'ADD RESERVATION' button. A date range selector shows 'Mon, 14 Apr - Mon, 14 Apr'. A message states 'You have no limits configured for the selected date.' with an 'Add a new limit' button. Filter buttons for 'All', 'Completed', 'Upcoming' (selected), and 'Cancelled' are present, along with counts for '0' reservations and '0' guests. The main content area shows a large white box with a magnifying glass icon and the text 'No reservations available'. A 'Print' button is at the bottom left. The footer includes a warning 'Too many guests in house? Pause online reservations', a copyright notice 'Designed by DISH Digital Solutions GmbH. All rights reserved.', and links for 'FAQ', 'Terms of use', 'Imprint', 'Data privacy', and 'Privacy Settings'. A yellow question mark icon is in the bottom right corner.

You are now in your **notifications settings**.
