

Welcome to DISH POS! In this tutorial, we are going to show you how the **Factura Simplificada** works.

The screenshot displays the DISH POS interface for 'Table 18'. The top navigation bar includes a menu icon, the text 'DISH POS \* Table 18', an information icon, and category buttons for 'FOOD', 'DRINKS', and 'OTHER'. On the right side of the top bar are navigation icons: a back arrow, a search icon, and a vertical ellipsis.

The main area is divided into two columns of menu items. The left column contains a list of items with their quantities and prices:

*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80

The right column contains a grid of menu categories, each with a colored button:

- Aperitif (Teal)
- Starters (Red)
- Salads (Orange)
- Dishes (Blue)
- Supplements (Green)
- Desserts (Light Blue)
- Fries (Dark Green)
- Profiteroles (Dark Blue)
- Green Salad (Light Green)
- Cheesecake (Light Blue)
- Hot Vegetables (Light Green)
- Creme Brulee (Light Blue)
- Dessert Of The Day (Light Blue)
- Menus (Pink)
- Sauces (Red)

At the bottom left, there is an 'Input' field with a clear button (X) and a 'Total amount' section showing '2,998.80' with a checkmark. Below these are four icons: Discount, Split order, Note, and Customer. At the very bottom is a numeric keypad with digits 0-9, a decimal point, and a +/- sign. To the right of the keypad are three payment options: PIN (C) €, PIN (EFT) €, and CASH €.

- The total amount **cannot exceed €3000** unless you have the customer information on the receipt. If you want to exceed this amount, you should **split the order** and continue with two separate orders.

The screenshot displays the DISH POS interface for 'Table 18'. The top bar shows the 'FOOD' category selected. The receipt area on the left lists items: \*Fries (x588, 4.50, 2,646.00) and Mayonnaise (x588, +0.60, +352.80). Below the receipt, a summary box shows 'Input' and 'Total amount 2,998.80' with a checkmark. The bottom left contains a control panel with buttons for 'Discount', 'Split order', 'Note', and 'Customer', along with a numeric keypad. The main area is a grid of menu items categorized into 'Aperitif', 'Salads', 'Supplements', 'Fries', 'Green Salad', 'Hot Vegetables', 'Menus', 'Starters', 'Dishes', 'Desserts', 'Profiteroles', 'Cheesecake', 'Creme Brulee', 'Dessert Of The Day', and 'Sauces'.

In this example we have ordered 588 portions of fries with Mayonnaise which amounts to €2998.80.

The screenshot displays the DISH POS interface for 'Table 18'. The top navigation bar includes 'FOOD', 'DRINKS', and 'OTHER' categories. A receipt window is open, showing the following items:

Item	Quantity	Unit Price	Total Price
*Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
<b>Total amount</b>			<b>2,998.80</b> ✓

The interface also features a menu grid with the following categories:

- Aperitif
- Starters
- Salads
- Dishes
- Supplements
- Desserts
- Fries
- Profiteroles
- Green Salad
- Cheesecake
- Hot Vegetables
- Creme Brulee
- Dessert Of The Day
- Menus
- Sauces

At the bottom, there is a navigation bar with icons for Discount, Split order, Note, and Customer, along with a numeric keypad (0-9) and payment options: PIN (C) €, PIN (EFT) €, and CASH €.

If you want to exceed this amount now, a **pop-up** will appear telling you that you require the customer information to proceed and should rather split the order.

The screenshot shows the DISH POS interface for 'Table 18'. The top bar includes a menu icon, 'DISH POS \* Table 18', a category selector (FOOD, DRINKS, OTHER), and navigation icons. The main area is divided into a left sidebar with a list of items and a right grid of category buttons. The left sidebar shows:
 

- \*Fries: x588, 4.50, 2,646.00
- Mayonnaise: x588, +0.60, +352.80

 The right grid contains buttons for:
 

- Aperitif (green)
- Starters (red)
- Salads (orange)
- Dishes (blue)
- Supplements (green)
- Desserts (blue)
- Fries (dark green)
- Profiteroles (dark blue)
- Green Salad (dark green)
- Cheesecake (dark blue)
- Hot Vegetables (dark green)
- Creme Brulee (dark blue)
- Dessert Of The Day (dark blue)

 At the bottom left, there is an 'Input' field and a 'Total amount' of 2,998.80 with a checkmark. Below this is a numeric keypad and function buttons like 'Discount', 'Split order', 'Note', and 'Customer'. A red pop-up message is overlaid at the bottom, stating:
 

The addition of this article is not allowed: Because required customer information is missing, this order can not be fiscalised. Please try again after splitting the order into orders with a total amount that doesn't exceed 3000 euros..

- Click on **split order** to create the two smaller orders. After this you are able to proceed with adding new items to the order until you will again reach €3000.

The screenshot shows the DISH POS interface for 'Table 18'. The top bar includes a menu icon, the text 'DISH POS Table 18', a category selector set to 'FOOD', and options for 'DRINKS' and 'OTHER'. The main area is divided into a left order list and a right menu grid. The order list shows 'Fries' (x588, 4.50, 2,646.00) and 'Mayonnaise' (x588, +0.60, +352.80). The total amount is 2,998.80. The menu grid includes categories like 'Aperitif', 'Starters', 'Salads', 'Dishes', 'Supplements', 'Desserts', 'Menus', and 'Sauces'. The 'Split order' button in the bottom left is highlighted with an orange box.

Item	Quantity	Unit Price	Total Price
Fries	x588	4.50	2,646.00
Mayonnaise	x588	+0.60	+352.80
<b>Total amount</b>			<b>2,998.80</b>

Note: Currently, the total order amount must be considered. If it exceeds €3000, even with applied promotions, discounts, damages, personal consumption, etc. you will still need to split the table. This will be improved in the future.

As you can see in this new example, even with a discount applied, you are not able to add more items to the table and the same **pop-up** as before will appear.

The screenshot shows the DISH POS interface for 'Table 5'. The top bar includes a menu icon, the text 'DISH POS \* Table 5', a warning icon, and category buttons for 'FOOD', 'DRINKS', and 'OTHER'. The main area is divided into a left sidebar and a right grid of menu items. The sidebar contains a list of items, including 'Ticket Discount (1...)' with a value of '-300.00' and '\*Raw Marinated S...' with a quantity of 'x250', a unit price of '12.00', and a total of '3,000.00'. Below this is an 'Input' field and a 'Total amount' of '2,700.00' with a checkmark. The bottom of the sidebar has buttons for 'Discount', 'Split order', 'Note', and 'Customer', along with a numeric keypad. The right grid shows menu categories: 'Aperitif', 'Starters', 'Salads', 'Dishes', 'Raw Marinated Salmon', 'Burrata', 'Classic Caesar', 'Supplements', 'Desserts', and 'Bearnaise Steak And Fries', 'Meat Of The Day', 'Fish Of The Day', 'Steak Tartare'. A pop-up message at the bottom center reads: 'The addition of this article is not allowed: Because required customer information is missing, this order can not be fiscalised. Please try again after splitting the order into orders with a total amount that doesn't exceed 3000 euros..'

 Congratulations! You now know how the **Factura Simplificada** works!
